BECOMES WEARY OF A THANKLESS TASK

Succeeds in Holding the Organization Together for Seven Years, but Passes Through Many Annoying Troubles.

Affairs of the Western Passenger associa- tion Mr. Hutton makes this statement; tion, which have for a long time been in a critical condition, have been further dis- an article which recently appeared in The turbed by the unexpected resignation of B. Bee, in regard to the people's demand for D. Caldwell, who has been president of the pure milk, and in which Mr. I. C. Johnson association for nearly seven years. He has accepted the position of general traffic manager of the Lackawanna road.

Mr. Caldwell is one of the younger men in high position with the railroads of this earnest in his expressed desire to render association he was assistant general passenger agent of the Missouri Pacific road, in refers to and securing the punishment of which position he made a record for himself those who are violating the law by selling as one of the best executive officers who ever held a similar place. Many critical moments the standard, he should report the names have come to the organization during his of these milkmen to the Board of Health. management, but he has succeeded in tiding I can assure him that if he will do so he over the trouble each time, and holding the association intact. These qualities on his part will make the election of his successor an important event in the affairs of the asso-

For nearly a year this organization for the regulation of passenger traffic on the roads between Chicago and Colorado points new president with less tact and executive ability than possessed by President Caldwell can easily precipitate the crisis and bring on a demoralization in business which has so long been threatened. It is suggested in the press dispatches that T. W. Lee may be selected to fill the vacancy. This is doubted by railroad men in this city. Many years ago Mr. Lee was assistant general passenger agent of the Union Pacific, and drifted from one road to another west and south until he finally landed in Chicago, where he was taken up by President Caldwell and given a place with the association. His reputation as an executive officer is not such, in the opinion of local ratiroad men, as to entitle him to a place of so much importance.

As president of the association Mr. Caldwell was paid a salary of \$10,000 a year. The salary of his new position will be it excess of that amount. Further than the increase of salary the new place will have the advantage of making him responsible to but one management, whereas as president of the association he was responsible in a measure to the management of every railroad interested, and subject to criticism by the public. When the association will meet to elect Mr. Caldwell's successor is not known.

Light Travel by Teachers.

L. E. Eveland of Chicago, traveling passenger agent for the Rio Grande Western, who is a visitor in the city, has been giving much of his attention lately to the travel to the National Educational convention as Los Angeles, and the result of his experience is that there is not going to be an extraordinary movement to the coast. He says that interviews with the teachers develop the almost general opinion that the place of the convention is too far west and that the fare is too much for persons who receive the average salary of a A large per cent of the teachers will take side trips which will be productive of more enjoyment and cost less Travel to Colorado points this summer will be unusually heavy, more so than in several years. Mr. Eveland's opinion is that had the teachers' convention been held at some Colorado point, or Salt Lake City, twice as many teachers would have attended.

Pushing New Union Station. Work on raising the tracks at the south side of the new union station has commenced. The ground between the old and the new buildings is dotted with stakes driven by the engineers to guide the graders. The old rails which have been used in the side tracks on this ground are being taken up and hauled away, and new steel rails will be laid. The tracks will be raised from eighteen inches to four feet. Trenches are also being dug for the concrete supports to the pillars of the track sheds. The contract for the erection of the station does not call for the completion of the building until November 1, but the superintendent of the work says he will have it ready to turn over to the company by August 1. If the changes in the yards can be completed in time it is now understood that the company will take possession and begin using the new station

Gets an Entrance Into Scattle. NEW YORK, June 8 .- It was reported to day that an understanding had been reached between the Northern Pacific company, the Pacific Coast company and the Seattle and San Francisco Railway & Navigation company whereby the last named will obtain an entrance into Seattle over the Northern Pacific line and a ten-mile line of its own from Black River Junction to Seattle.

September 1.

Ratirond Notes and Personals. J. O. Phillippi of the Missouri Pacific is a A party of ten Filipinos, destined to New York for show purposes, will pass through Omaha this afternoon at 4:35.

J. C. Stubbs, vice president of the Southern Pacific, accompanied by his family, bassed west through Omaha in his private J. A. Edson, who has been general super-

intendent of the Cotton Belt, has been made general manager of the Kansas City, Pitts-burg & Gulf, to succeed the late Robert Gill-It is now said that the Great Northern will

secure control of the Pacific Short line. The alleged advantage the possession of this line will be to Hill's road is that good connection can be had with the Union Pacific at Norfolk

There has been a report that the Union Pacific would rearrange its train service for through car from the west to Sioux City via Columbus and Norfolk, but the passenger department of the road knows nothing of any such plan being considered.

The Burlington trains Nos. 1 and 6 have been changed in their make up to conform to the style adopted by many eastern roads. The Pullmans are placed at the head of the train instead of at the rear. The advantage of this plan is said to be that in time of wreck there is less liability of the lighter cars being smashed by the heavier sleeping

Friend to Friend.

It is not what newspapers say, but what neighbor says to neighbor or friend to friend, that has brought Chamberlain's Colic. Cholera and Diarrhoea Remedy into such general use. It is as natural for people to express their gratitude after using this remedy as it is for water to flow down bill. I one remedy that can always be de pended upon, whether it be a baby sick with cholera infantum or a man with cholera morbus. It is pleasant, safe and reliable. Have you a bottle of it in your home?

Building Permits.

The following building permits have been granted by the building inspector: A. Rachman, 808 South Seventh street, re-A. Rachman. 808 South Seventh street, re-pairs, \$25; J. A. Dalzell, 115 North Sixteenth street, extension, \$400; Peter Sip. 1018 E street, frame dwelling, \$900; E. H. Howland, Twenty-uinth between Woolworth and Hick-ory, frame flats, \$3,000; Jessie Laurence, East Midway, restaurant, \$100.

W. M. Gallagher of Bryan, Pa., says: "For forty years I have tried various cough medi-cines. One Minute Cough Cure is best of ed." It relieves instantly and cures all threat and lung troubles.

CALDWELL GIVES UP HIS JOB PURE MILK IS DEMANDED BOSTON STORE REMNANTS

Inspector Urges People to Make Complaint Against Sellers of Impure Article.

Milk Inspector Hutton says that the importance of securing pure milk for the peo-ple cannot be overestimated. Every movement with that object in view has, he asseris, his hearty sympathy, and shall have his carnest and active support. The agitation of the matter through the public press will, he hopes, arouse the people to such on extent that they will see and do their duty, and that duty is to give the Board of Health all the assistance they can by mak ing formal complaints in regard to all milknen who sell impure milk. In this connec-

"I wish to say a few words in answer to is quoted and his statement given in rela tion to his experience and his unsuccessful attempt to get pure milk after changing milkmen six times. If Mr. Johnson is in country. Before becoming president of the the Board of Health all the assistance he can with a view to remedying the evils he adulterated milk or milk that is not up to will not only be conferring a favor upon each and every member of the board, but he will be treated courteously, the matters he complains of will be promptly and thoroughly investigated and if the guilty parties escape punishment it will not be the fault of the milk inspector or any other member of the Board of Health. There are thas been on the verge of disruption. A at least 350 persons and firms licensed to sell milk in the city. The city limits cover twenty-five square miles, and at least onethird of those selling milk in the city have their dairies from one to four miles outside the city limits. Besides having to inspect all these dairies the milk inspector has to see to the collection of license fees from these milkmen, and also once a month collect ice from the ten ice companies doing business in the city, prepare and label it and submit it for chemical analysis. With all the duties he has to perform it is impossible for him to make tests of the milk old by every milkman in the city as fre-

Members of Board of Education Bo lieve Pupils of the High School Need Relief.

Secretary Gillan of the Board of Education is sending out special notices of the meeting to be held Monday evening at the board rooms for a general discussion of the grading of the High school grounds. An effort is being made to secure the attendance of all the members of the council, members of the school board and the advisory board, and in addition all patrons of the school who take enough interest in the matter to have an opinion.

A good many members of the Board of Education are convinced that a grade other than the present one should be established for the High school grounds. They urge that the stair-climbing the pupils have to do inside the building is enough to injure their health, without the additional work of getting from the street level to the entrances of the building. Aside from this they point to the fact that when it becomes necessary to erect a building on the north end of the grounds a retaining wall will have to be put in along the Davenport street side to support the structure if the rounds are then as high above the street as they are now. It is claimed that the proposed cut is not a radical one, that it will not affect the wall along Dodge street nor the entrance to the grounds at Twentieth and Dodge. The elevation from the curb will still be forty-five feet at Twentieth and Davenport. At only one corner will the grounds be cut down below the curb. At Twenty-second and Davenport the northwest corner, the grounds will be seven feet below the curb. Running along Twenty-second street, the grounds will meet the street level 150 feet before Dodge street is reached. Where the school building now stands the cut will be eighteen feet Some of the members of the board be lieve that it is absolutely essential to es tablish a lower grade before any more buildings are erected. There is a comnunication now on file with the board protesting against the proposed cut, which was signed by a large number of repre sentative citizens, and it was this protest which led the board to call the public meet-

GETS A CALL TO ST. LOUIS

Rev. Howard S. MacAyeal Accept Pastorate of Central Congregational Church.

For the second time within the last two onths Rev. Howard S. MacAyeal, pastor of he Plymouth Congregational church, received a call to another field of work. The first came some two months ago from the First Congregational church of Rockport. The offer was not accepted, howeve Mr. MacAyeal deciding that he would prefer o remain with his congregation at Omaha. The second call came resterday, when telegram was received from the committe of the Central Congregational church of St Louis, stating that his name had been decided upon unanimously for the vacant pas torate. In view of the fact that Mr. Mac Ayeal has never preached before that church and that the call comes entirely on the strength of his record, he feels highly com-

plimented by his unanimous election.
"I have decided to accept this offer, bu I do so with the greatest regret," said Mr. MacAyeal. "Since my advent in this city four years ago I have met with the most courteous and hospitable treatment from the people of Omaha. Of course I feel some what clated over the call to such a strong church as the Central Congregational of St Louis, but I will leave Omaha with great

reluctance nevertheless. Mr. MacAyeal has been pastor of the Plymouth Congregational church for four ears and during that time has endeared nimself to the congregation and has made osts of friends throughout the city. It is understood that his new position will pay

a salary of \$3,000 a year. Careless Negro on a Wheel. Bert Fox. 9 years of age, living at 8 North Eighteenth street, was run over by negro on a bicycle at Eighteenth and Cun ing streets Wednesday evening. He was suffered some pair from the shock and bruises, but was able to walk to his home an hour or two later. Witnesses say that the negro was riding at a high speed and did not stop to find out what injury he had

caused, but rode hastily away. Kodol Dyspensia Cure completely digests food within the stomach and intestines and renders all classes of food capable of being assimilated and converted into strength giving and tissue building substances.

Manager Cole is providing excellent bills at the Trocadero these days. This week's bill is the best yet presented by him and the public is showing its appreciation of it by patronizing it largely. Yesterday's matine brought out a large audience for an afternoon performance. Every act on the bill is a hit from the two merry girls, Joy and Clayton, who open it, to the marvelous Carnallas, who set people wildly applauding their feats as acrobats. Little Attie Spencer, the chic, vivacious and hand-some little comedienne, is given an ovation on her every appearance. Her style, while something like May Irwin's, is entirely different and strictly original. When she sings a song she puts so much expression in it and attunes herself so much to its words and music that one feels himself involuntarily singing it with her. She is the picture of joliity itself. The five Carnallas three men and two women, perform such thuse an audience. Bartlett and May, the former with the long, limber legs that re-semble two twisted pieces of garden hose. are big hits, as are Garvie and Thompson in fact the entire program is a succession

There is every indication that the friends of those young ladies who led in The Bee vacation contest yesterday will receive a reception from their friends the Creighton-Orpheum this (Friday) Some big orders for seals have evening. ets delivered. One of the largest orders was yesterday received from G. E. Palmer of Swift and Company. This was for fifty seats and was accompanied by precise instructions as to their location, inasmuch a was understood that the young lady had expressed a preference for a left-hand box next to the stage. Her friends therefore se-lected their seats in the third, fourth and fifth row of the left wing. This is only a sample of the interest displayed. Many other orders, large and small, have made the advance sale due to this event quite pronounced. Every arrangement has been made to render the occasion one of rare entertainment for the young ladies as it event in which society has become greatly interested.

Odd Fellows, Attention!
