Piancs, \$95, \$120, \$135, \$150 and up.

Many Advances Are Recorded, Notably in Iron and Steel.

INABILITY TO DELIVER ORDERS THE CAUSE

Cotton Market Evinces Great Activity and Prices Go Up-Another Material Decrease in Failures Here and in Canada.

NEW YORK, June 9 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: The last week has brought a rise in price not equaled in any other week of many years. Iron products have advanced 8 per cent in one week, and pig iron 4.8 per cent following advances of 8 per cent in pig and 4 per cent in products during Cotton has advanced 1 per cent and cotton woolen goods .8 per cent and boots and shoes 1 per cent. A little reaction of 6 per cent in leather and .7 per cent in hides occurred, but the characteristic of the time is that expectation of higher prices induces buying far in advance of require-ments for consumption. It is needless to say that this is a symptom of danger and most conservative manufacturers, especially in iron and steel, have striven avoid it, but an inability to deliver products demanded leaves them little power while speculation in wool and other lines is run-ning away from consumption. It is a saving feature that quotations are quite largely Almost all the goods now being delivered or produced in some industries are on prices fixed by orders accepted several months ago and nearly all the iron works being thus tied up far ahead, the prices quoted indicate not at all weakening, but

bids of impatient buyers who can find nobody ready to deliver large quantities. During the last week quotations have risen for anthracite No. 1 to \$17.50; for Bessemer to \$18.50 at Pittsburg; for gray forge to \$16.25; for billets with few sales to \$11; for bars \$2 per ton; for plates and sheets as much, and for wire nails 25 cents per keg. But there are no accounts of large transactions at these or any other for Italy and this week for Bremen at market prices with German offers for 10,000 tons southern pig indicate that needs abroad

what they see fit to ask as a way of refusing

orders which they cannot accept, or else the

are quite as great as they are here. While there is a better demand for woolen goods, so that prices of some have advanced, it is not yet possible to distinguish heavy speculative operations in wool at Boston from efforts of mills to buy. The prices current in all wool-growing sections are so high as to prevent sales in eastern markets to consumers and traders, believing that mills will presently be forced to pay higher prices, are taking the same risk they did in the winter of 1897, not realizing the size of stocks held. The cotton market has advanced a sixteenth, without other reason than the great demand for goods, but stocks of cotton here and abroad are heavy and the financial Chronicle estimates a decrease of only 3.2 per cent in acreage. Goods are selling largely and prices of ginghams and prints have advanced.

After some advance wheat suddenly de clined 2 cents, closing lower for the week Against all accounts of inquiry is the solid fact that western receipts were 5.049,194 bushels for the week, against 1.477,045 from

GIVE THE CHILDREN A DRINK called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and lied by all who have used it because when properly prepared it tastes like the finest coffee, but is free from all its inturious properties. Grain-O aids digestion and strengthens the nerves. It is not a atimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about one-fourth as much as coffee. Its and 25c.

DUN'S REVIEW OF BUSINESS the great crop of last year, and at current low prices such receipts would be inexplicable if growers really expected a short yield. Exports have declined, being only ficient to offset liquidation on the late tractional ficient to offset liquidation on the late traction ficient to offset liquida

nicety of detail and convenience they are not equaled in the entire country and are well

The First Methodist church, Twentythird and N streets, was crowded to the doors last night, the occasion being the commencement exercises of the senior class of the South Omaha High school. Contrary to the usual custom the graduating class, which consisted of eleven young women and one young man, was not permitted to have floral gifts sent to the church so that the decorations consisted merely of some handsome palms, which were placed on either side of the platform. Members of the Board of Education, teachers at the 16.2 High school, the graduates and Superintendent Wolfe occupied seats on the platform, as did also Hon, E. H. Hinshaw of Fairbury. The young women wore becoming dresses of white. The exercises opened with a prayer by Rev. H. H. Millard, pastor of the church, and this was followed by the program, which was printed in The Bee a | was to order the removal of all screens in day or two ago.

Superintendent Wolfe introduced Hon, E. H. Hinshaw of Fairbury, the speaker of the evening, in an appropriate manner. In these remarks Dr. Wolfe called attention to the fact that formerly each graduate was compelled to write an essay or deliver an oration on graduating, but this practice had that the graduates now prepared such papers, but did not read them on graduating as of old. In his introductory remarks Mr. Hinshaw spoke of the peculiarities of our they concealed themselves until the officer educational system in that eleven young bad passed. The way the police were being women and one young man were graduating. while in the olden times it was thought necessary to educate only sons, leaving the daughters to get along as best they could future. with a little learning. It was, said the speaker, a wise move on the part of our forefathers when they began the education of both sexes, as now the young women were equal to the young men in learning at

the time of graduation. Continuing, the speaker said that one's daily life should be one of useful toil, and urged upon those just entering what he called a new life to bend their energies in the right direction. Briefly the speaker told fore. A portion of the fence still remains the right direction. Briefly the speaker told of drones he had known at college and how before life had been ended they had been compelled to work hard to accomplish their intendent Cramer will move his office into desires and ambitions. He spoke of General Lew Wallace and Lord Byron as spoiled children who did not realize in youth that incessant work and study were necessary to greatness. The energy of "Wizard" Edison was mentioned in contrast, and the statement was made that the great inventor's success had been the result of genius coupled with incessant toil. Mr. Hinshaw's address was attentively

listened to by all and was greatly appreclated. Following the address came the presentation of diplomas by John Fitz Roberts, president of the Board of Education. After the exercises at the church the alumni of the High school gave a banquet to the graduates at the Reed hotel. Flow ers were not barred at this function and each graduate had baskets of roses and boquets without number. Rowland Smith addressed the graduates after all had been seated at the tables and Clair Willsley responded. Dr. Wolfe spoke of the proposed new high school building and President Roberts made a brief address. The other speakers were Charles Johnson, Mary Hawley, Hattie Moore and Charles Wells.

Planing Mill Proposition The promoters of the proposed planing mill have asked the executive committee of the Commercial club to assist in securing a desirable site with trackage. It is under stood that as soon as the site can be obtained the erection of the mill is to be commenced. The planing mill company de- | City. sires to lease ground for a term of years,

The manufacture of butter tubs will also be undertaken by the new planing mill company and this makes it necessary to have a sufficient amount of trackage. The executive committee of the Commercial club is composed of E. H. Howland, D. S. Parkhurst, D. S. Clark, Denna Allbery and Peter Cockrell.

New Order Governing Saloons. Mayor Ensor tightened up the screws on the saloon men again vesterday by issuing an order for the removal of all window and bar screens and also all wine rooms. Captain Allie of the police force served notice day, June 14. on the liquor dealers yesterday that the obstructions mentioned must be removed on or before Thursday, June 15.

In connection with this matter the mayor said that with the small police force at his command he could not watch all the saloons properly and the only thing to do order that a clear view of the bar could be had at all hours during Sunday. According to the authorities one saloon keeper rigged up a contrivance whereby he has been enabled to violate the Sunday closing order without detection. The person in mind had an electric button placed in a concealed position at the front of his buildbeen discontinued to some extent. He said ing and kept a constant watch up and down the street. When a blue coat hove in sight the button was pushed and the crowd in the guloon rushed to the wine room, where hoodwinked was too good a joke to keep and the story leaked out. Particular at tention will be paid to this place in the

> Postoffice Fence Removed. Enough of the fence surrounding the new postoffice building was removed yesterday to allow pedestrians the use of the side walk in front of the building. During the afternoon the rubbish which had accumu lated in the gutters inside the fence was removed and the building showed up to much better advantage than it ever has be the building today and the little shack | zither solo, Miss Alice Hertsman; recitawhich has been used as a superintendent's office for a year or more will be carted away. The east and south doors are closed to the public in order to give the force of workmen as much room as possible

> Armour's New Smoke Houses. Ground was broken yesterday for eight ew smoke houses at the Armour plant This new building will be of brick, 48x128 feet, and four stories in height. Bids for the work have not been opened yet, but will to loose one. As with a man's reputation, be in a day or two. The excavating is being done by the Armour force. General Su- thinge achieve a reputation which stays perintendent Howe estimates that the new smoke houses will be completed in thirty days after the ground is ready. these smoke houses are completed another story will be added to the present smoke house, so that when the improvements are following experience of a citizen: completed this plant will have a smoking capacity of 7,000,000 pounds per week, or about double the present capacity.

Magie City Gossip. Eighty untagged dogs were killed by the City Clerk Carpenter was kept on the jump yesterday issuing dog tags. SETTLES WITH ROCK ISLAND

Five Thousand Dollars Donated to Transmississippi Exposition Association.

The differences existing between the Rock Island Railroad company and the Transmississippi and International Exposition association have been adjusted by the former relinquishing \$5,000 on the claim of \$17,500. Last year the Rock Island contributed \$20 .-000 to the exposition, and at the time it was poked upon as a donation, at least by the exosition officials. Stock, however, was issued for it later and after the exposition commenced to pay dividends the railroad people put in a claim for these dividends, contending that they were subscribers and not donors. The dividends on the \$20,000 aggregated \$17,500, and as the matter was hanging in the shape of an open account a committee was appointed by the directors of the exposition to adjust the matter and make a settlement. This committee has made its report, showing that it has succeeded in getting the company to accept \$12,500 in full for the claim.

How hard it often is to earn and maintain a good reputation, and how easy it is so it is with other things in life. Some with them. They are founded on intrinsio value. The fact the public backed up by When | honesty, and work their way quietly but thoroughly. Omaha people want no better proof of the merit than is contained in the

> Mr. Thomas F. Norton, No. 2714 25th street, contractor, says: "For three years my wife was not only subject to kidney complaint but she had other complications. She doctored for her trouble but the pain in her back and other symptoms of either weakened or overexcited kidneys clung to One box of Doan's Kidney Pills procured at Kuhn & Co's Drug Store, corner 15th and Douglas streets, did her so much good that I purchased two more. The treatment has done her a world of good."

Doan's Kidney Pills are sold for 50 cents per box at all dealers. Malled on receipt of the Swift plant here, has gone to Kansas price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take

lantic ports, against 4,206,293 last year, and vices from the spring wheat crop, confirmed 623,400 from Pacific ports, against 253,213 last year, but even as to future foreign demands, this is not strong evidence. The estimates of reduction in yield are weakened in market judgment by certainty that

4.134.641 bushels last year. For the current week failures have been 159 in the United States against 203 last year and ten in Canada against seventeen

From Beginning of Inactivity Stock Market Later Recovers. NEW YORK, June 9.—Bradstreet's Finan-At the beginning of the week the market

showed a disposition to continue its low, sagging tone. The gold shipments was calto be the Bank of England itself, has put sufficient to induce an artificial flow from

seemed to change the temper of the speculation. One of these was the declaration of the regular 3 per cent quarterly dividend in the American Sugar company's common stock, a matter about which the street had indulged in more or less doubt for a full month. The other was the declaration of 1/2 per cent half yearly dividend on Atchison preferred, with the announcement that the earnings of the road in the fiscal year ending June 30 would also provide for another half yearly dividend of the same amount next January. Coverings, not only in the stocks just named, but in other parts of the list, at once ensued and some fresh buying was attracted. The upward movement continued on Thursday. The steel stocks in spite of some irregularity in American Steel and Wire were generally higher and the strength of the market in whole seemed to center in the portions of the list which had been the object of principal bearish pressure. The firmness of the grain market and unfavorable accounts of the cross the crops had apparently little further influence on London took but a small part the trading here, though the Atchison dividend induced some foreign buying o that stock. On the other hand, the weak ness of the mining division of the Londo market, caused by the failure of th Transvaal negotiations, did not find any re-flection here, apart from a decline in flection here, apart from a decline in Anaconda shares and the continued heaviness of Amalgamated Copper. The bond market continued to be very strong, with such a scarcity of such offer-

BRADSTREET'S REVIEW OF TRADE.

Various Causes Combine to Stimulate Business in Most All Lines. NEW YORK, June 9 .- Bradstreet's of to-

flected in trade advices. Large shipments

for the balance of the year, and these usual summer shutdowns ceem likely to be honrealization and current estimates favor a falling off of 3 to 5 points in the cotton belt as a whole. This added to good tride at home and abroad and advices that the crop has not as yet made up any time lost by a backward season, has strengthened values of the raw materials. Some supplies of old corn and reports of too much rain in some sections have helped this cereal and the prospects favor a very large actinge in

Active demand for refined sugar has apparently induced one relaxation in the war against refiners and raw sugars share in the advance this week. Wool is firm and even higher in some grades at leading markets, with a fair business doing. Lumber retains all its strength, reflecting continued
