GOES TO ANOTHER FIELD

Secret Service Agent Donnelly is Transferred to the South, with Headquarters at Louisville.

Special Agent Donnelly of the United States secret service came in Thursday night from a trip to Montana and upon his return found a letter notifying him that he has been transferred to the south, with headquarters at Louisville, Ky., from which point he worked out several years ago. Mr. Donnelly came to Omaha four years ago, having been sent here to ferret out some counterfeiters who were working in this vicinity and flooding the country with spurious coin. Soon after arriving Donnelly became convinced that the money was being shovled from two different plants, one operated by the McCarty's at Bellevue and the other by Moses Robin, an old man who then resided in the vicinity of Six-

teenth and Vinton streets, this city. All of the parties were clever and made a good article of coin, and it was not until a year ago that Donnelly secured enough evidence against them to justify him in making arrests. He had his evidence in shape and secured conviction without any difficulty, sending three men to the penitentiary. These men were regarded as being among the most expert counterfeiters in the country and their conviction cleared this section of this class of criminals.

Mortality Statistics.
The following births and deaths have been reported to the health commissioner within the last twenty-four hours:
Births—John A. Frenzer, 127 South Twenty-fifth street, girl; James Griffith, 922 North Sixteenth street, boy; John Day, Twenty-fifth avenue and Cuming street, girl.
Deaths—Margaret Hammond, 3466 Parker street, 1 month; Marie Anna Granacher, 1824 Burt, 80 years.

YOUNG JAP IS A CLIMBER

Scales a Slender Iron Staff One Hundred and Twenty Feet High.

At the Krug summer resort in the north part of the city there stands an iron flag-staff 120 feet high, the cable of which had parted the other day. A young Austrian who has done a great deal of climbing and is something of an expert made the attempt to climb to the top of this staff and put the cable through the pulley. After reaching a height of about eighty feet, however, the young man's strength gave out, and not being able to hold to the slender iron rod easily enough to rest, was compelled to descend rapidly to the ground. A young Japanese of the name of O. Takayama volunteered to make a second attempt. He took a rest at about every three feet and thus saved his strength for the upper part of the

pole, where it is of smallest diameter and most difficult to hold to. He finally reached the top and put the rope in place, to the great delight of the management of the resort, who had begun to despair of ever raising a flag again.

It is said that Takayama was formerly an officer of the Japanese army and that he was connected with the Japanese tea garden at the exposition last summer and is now engaged in decorating the interior of the Horticulture building on the exposition grounds.
W. M. Gallagher of Bryan, Pa., says: "For forty years I have tried various cough medicines, One Minute Cough Cure is best of all." It relieves instantly and cures all throat and lung troubles.
Teachers' Examinations June 20.
The annual examinations in the public schools will begin the afternoon of Friday, June 16, and the schools will close June 22. The following Tuesday the examinations for city teachers will be held at the High school building. The work of the school year is practically finished and the remaining few days are being given to review, preparation for examinations and closing exercises. Pupils and teachers alike have been thankful for the continuance of the cool weather until so near vacation.

Sidney E. Locke's Funeral.

The funeral of Sidney E. Locke took place yesterday from the residence of his son-in-law, Judge W. C. Ives, 132 North Thirtieth street. It was attended by a large number of the elder residents of the city who had known the deceased since his coming to Omaha more than twenty years ago. The pallbearers were W. J. Connell, A. P. Wood, Captain Rustin, Judge Lake, Dr. Sebbins and James Forsyth. Rev. Dr. Butler officiated and interment was made at Prospect Hill.
Four young ladies, who earn their own living, will take vacations at The Bee's expense. Help your friends by saving coupons.

TICKETS FOR EXPOSITION

Forty Canvassers Are Now Employed in Selling the Commutation Books.

The Greater America Exposition has forty men and women out canvassing the city for the sale of commutation books. The books are of two styles, one having tickets good for fifty admissions, price \$10, and the other being a twenty-admission book, selling for \$5.
John R. Keys, who will look after the art features of the exposition this summer, wires from Boston that he has secured enough pictures there to fill one car and that they have been shipped to Omaha.
Special Agent Llewellyn has gone to Washington to assist in packing the government exhibit for the exposition.
After Saturday and until the opening of the exposition, an admission fee of 10 cents

will be charged those who desire to enter the grounds. This will apply on Sundays as well as week days. However, children who accompany their parents will be admitted free. The admission fee is not for the purpose of making money, but to keep the crowds out so that the workmen will not be interfered with.

Kansas City Sends Resolutions.
A handsomely engrossed set of resolutions in a neat gold frame has been received by Mayor Moores from the council of Kansas City. It comes in response to a similar set of resolutions adopted by the Omaha council, thanking the city authorities for their hospitality on the occasion of the visit of the Omaha city officials to the Missouri city. The council and city officials of Kansas City twice visited Omaha last summer, and while here were the special guests of the mayor and council. They invited the Omaha officials to return the visit, and their invitation was accepted.
