

RECEPTION TO THE SOLDIERS

Lincoln is Planning to Give the Veterans a Great Goodbye.

FIRST TO BE ROYALLY WELCOMED HOME

Colonel Viquin and Other Officers of the Second and Third Regiments Their Co-Operation to Make the Affair a Success.

LINCOLN, June 10.—(Special.)—A well organized movement has been started by a number of prominent citizens of Lincoln to tender the members of the First regiment a rousing reception in this city soon after their return from Manila. The intention of those who have undertaken to carry out the plan is to bring to this city, if possible, all members of the three regiments of Nebraska volunteers who are in the ranks at the time. Colonel Viquin and other officers of the Second and Third regiments have signified their willingness to co-operate with the citizens who have perfected an organization and will at once proceed to arrange for the reception. An executive committee has been appointed to formulate definite plans for the occasion and to see that they are carried out. It is the opinion of those who originated the movement that it will be possible to bring together such a large number of veterans of the different wars as to make the occasion without doubt one of the greatest in the history of the state and it is anticipated that nearly 20,000 men may be brought into line for the event. All patriotic orders in the state will be asked to co-operate. The name of the organization having charge of the reception is one suggested by Mayor Weir: "Nebraska's Reception to the First Regiment."

On account of the uncertainty as to when the First regiment will sail from Manila no date has been fixed for the demonstration. It is believed that the regiment will embark within the next two weeks and the committee has made allowance for a stay of about a month in San Francisco while the men are being mustered out. As all the soldiers will doubtless desire to visit their friends and relatives the reception will probably be held some time in August. Colonel Viquin has addressed letters to the captains of the different companies of the Third regiment asking them to notify their men of the reception and endeavor to have as many as possible attend. The state military authorities have already taken steps toward giving the soldiers from Manila a reception on their return, but they have consented to co-operate with the citizens.

The resignation of Captain William E. Stockham of Company D of the First Nebraska regiment of volunteers has been accepted and First Lieutenant P. James Cosgrave of Company D was today promoted by Governor Poynter to fill the vacancy. James Cosgrave enlisted with the First regiment as a private, but he has rendered full service here with steady promotion for him. He will be succeeded as first lieutenant of Company D by Second Lieutenant Van Valin of Company H, whose place will be filled by Sergeant Robert McConnell of the same company.

The pass system of admittance to the state institutions near this city has been abolished by Governor Poynter and hereafter visitors will be allowed to inspect the buildings without first securing a permit from a state officer.

Poynter Still at a Hotel.

Governor Poynter is still occupying quarters at the Lincoln hotel and patiently waiting for the arrival of the state auditor. He is expected to purchase a governor's mansion. When the chief executive was forced to leave the house he occupied since he came to Lincoln the secretary of the board announced that a meeting would be held at the Lincoln hotel. General Smith returned from Omaha and that a home for the governor would be bought without further delay. Mr. Smyth returned and a meeting of the board was held, but the mansion problem was not discussed. The secretary of State Porter afterward left for Kansas City, returning today about an hour after the attorney general had departed for Omaha. Governor Poynter and the owners of the houses offered for sale are anxious for the board to take some action to the delay. He remarked that he had been offered \$300 more for his house than the amount named in his bid, and consequently was anxious to know whether there was any probability of his house being accepted by the state. The State Fish commission met this morning at the state house, but no important business was transacted. The commission consists of Messrs. May of Omaha, Oberfelder of Sidney and Kirkpatrick of Lincoln. Hon. Joseph Burns of this city today received a communication from Assistant Secretary of War Melickjohn concerning the importation by returning soldiers from the Philippine islands of war trophies, souvenirs and relics. The officers of the board of the secretary of the treasury, to whom a letter of inquiry by Mr. Burns was referred. The reply is as follows:

WASHINGTON, D. C., June 2, 1899.—To the Honorable, the Secretary of War, Sir:

Eczema! The Only Cure.

Eczema is more than a skin disease, and no skin remedies can cure it. The doctors are unable to effect a cure, and their mineral mixtures are damaging to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood diseases. Eczema broke out on my daughter, and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to two celebrated health springs, but received no benefit. Many mineral medicines were taken, but without result. I was told to try S. S. S. and by the time the first bottle was finished, her head was clear, and a dozen more cured her. She is now sixteen years old, and has a magnificent growth of hair. This sign of the dreadful disease has never returned. H. T. SUGAR, 704 Lucas Ave., St. Louis, Mo.

Don't expect local applications of soaps and salves to cure Eczema. They reach only the surface, while the disease comes from within. Swift's Specific S.S.S. For the Blood is the only cure and will reach the most obstinate case. It is far ahead of all similar remedies, because it cures causes which are beyond reach. It is purely vegetable, and is the only blood remedy guaranteed to contain no potash, mercury or other mineral. Books mailed free by Swift Specific Company, Atlanta, Georgia.

I have the honor to acknowledge the receipt, by reference from your department, of a letter dated Lincoln, Nebraska, the 25th inst., from Hon. Joseph Burns, Secretary of the house of representatives, in regard to importation by returning soldiers from the Philippine islands, of war trophies, souvenirs, etc.

In regard thereto I have to state that officers of the customs at ports where such relics have been landed are to be held responsible in all cases where the relics, souvenirs, keepsakes, etc., are of trifling value, and are imported as souvenirs and not as articles of purchase or sale, to wit: the collection of duties thereon. The department, however, has refused free entry of valuable articles, such as ammunition in large quantities, cannon, silk wearing apparel, etc., and has confined the free entry to only such articles as may have no distinct commercial value.

I will be pleased to have you inform Mr. Burns to this effect, and to advise him that proper instructions will be issued in any cases which may be brought to the attention of this department. Respectfully yours, L. J. GAGE, Secretary.

Hypnotist is Fined.

Frank Wharton, an amateur hypnotist, was fined \$15 and costs in police court this morning under the charge of being drunk, but in reality for practicing his art upon a young boy who did not fully recover from his influence until the officers at the station had labored with him several hours. Wharton is not an adept in the art of hypnotizing people, but he was remarkably successful in bringing the boy under the hypnotic influence. While in the hypnotized state he had created a demonstration and those who had not witnessed the experiment thought him crazy. The patrol wagon was called and the amateur and his subject were both taken to the police station. Wharton had been drinking and the officers could not prevail upon him to withdraw the influence. Another man was successful in restoring the boy to his normal condition, but he was so exhausted that he immediately lost consciousness. The man was arrested on the charge of being drunk and fined. He paid his fine cheerfully and announced that he had decided to give up hypnotism as a pastime.

It was very entertaining. A drama, entitled "Rehabah's Triumph," was the next number on the program. After the drama Miss Gertie Jeffers and Nellie Loupre delivered the valedictory. The former graduates will organize an alumni association and banquet the new members at the convent.

There were nineteen more farm mortgages released than were filed for record, and the total number released exceeds that filed by the amount aggregating \$37,422.81, which is a very flattering record for this county. Most of the chattel mortgages given during the month were executed by well-to-do farmers as the purchase price of cattle for feeding purposes, and were not given for the ordinary considerations of chattel mortgages.

Uses a Knife on His Assailants.

NORTH PLATTE, Neb., June 10.—(Special.)—Thursday evening between the hours of 8:30 and 9 o'clock four fellows who were engaged on the Union Pacific grading gang east of town, became engaged in a drunken street brawl on Front street. A man by the name of H. N. Nixon was set upon by the other three, John Thomas, James D. Bennett and Joe McGin. Dixon was undergoing quite a severe beating at the hands of his comrades, when he managed to extricate a knife with a blade three inches long from his pocket and commenced the carrying act. He stabbed Bennett three times on the left side below the ribs, and gave Thomas a slash below the left arm pit. None of the wounds are dangerous. All the parties are in jail awaiting trial. Bennett's father is cashier of the First National bank of Emigrant, Pa.

Patent on Turbine Was Granted.

COLUMBUS, Neb., June 10.—(Special.)—R. B. Kummer of this city has been granted a patent on an improved turbine wheel for water power. Mr. Kummer was for a number of years proprietor of the Clear Creek mills, just across the Polk county line, and he was here that he studied out the problem which is likely to retain a high degree of efficiency. He has already received several flattering offers from eastern manufacturers to either purchase the patent outright or pay a good royalty to place the wheel on the market. The great feature

of the new wheel is that with one-half the water required for the old wheel nearly double the power can be obtained. Thus streams which were supposed to be useless, not having sufficient water, can be utilized.

PERSECUTED BY POLITICIANS.

County Treasurer Charged with Shortage to Further Populist Ends. BUTTE, Neb., June 10.—(Special Telegram.)—The arrest of Nicholas Sciler, county treasurer, Thursday, charged with misappropriating county funds to the amount of \$5,200, was a shock to the entire community and has been the sole topic of conversation for the last few days. Mr. Sciler is a member of the firm of Sells Bros., the largest general dealers in Boyd county, and his reputation for honesty has never been questioned, but good crops and a falling away from the calamity party made it necessary for the leaders to manufacture campaign thunder and Sells was selected for the sacrifice.

At the building used for a court house is a ramshackle office without safe or vault, it is the custom of the county treasurer to take personal care of the surplus funds. This fact being known, it was surmised that Sells was using county money in his large mercantile business without warning at the latter end of Judge Westover's term of court, State Examiner Simpson, of unsavory fame in connection with the disclosures of Auditor Cornell's office, after an examination of the books, declared that the county treasurer had misappropriated \$5,200. He was arrested and bound over to appear today, which he did and tendered along with his resignation the entire sum of county money due the county from him. This was not on the program of the reformers, but they gave their second wind and bound him over to the October term of court, which will allow them to use the case for all it is worth in the coming campaign. It is the almost unanimous verdict of the people that it will react upon the populist party.

WEST POINT, Neb., June 10.—(Special.)—The following students, attending the State university, have just returned: Kenelm King, Alma Koch, Lily Thompson, Jim Crawford, Ida Schaefer, Grace Losch, Ed Baumann, Fred Kuegle and Jerome Langer.

Violin Horlocker in New York.

HASTINGS, Neb., June 10.—(Special.)—Miss Viola Horlocker, who is under a \$5,000 bond on the charge of having attempted the life of Mrs. C. F. Morey by sending her a box of poisoned candy on Monday, April 10, in New York City with her sisters, Miss Zora and Mrs. Lora Nancy Horlocker, where she has gone to recuperate. A report is current here to the effect that Miss Horlocker's mind is becoming unbalanced and that she was taken to New York to be placed in a private insane asylum. This is not believed, however, as Miss Horlocker is known to be convalescing and is said to be enjoying the sights of New York.

More Charges to Answer.

PLATTSMOUTH, Neb., June 10.—(Special.)—Jacob and Joseph Andrews, who are charged with stealing calves, were arraigned in Justice Archer's court today on two new charges filed by County Attorney J. A. The hearing of the case was set for next Wednesday and the defendants taken back to jail.

Court at Fremont.

FREMONT, Neb., June 10.—(Special.)—In the district court yesterday afternoon Fred Wells pleaded guilty to the charge of selling cigarettes to minors and was fined \$25 and costs. It is the first offense of that kind ever prosecuted here. Gas Smith, a hard looking character, who was charged with assault with intent to do great bodily harm on Baer Sonin, pleaded guilty to assault and battery and got thirty days in the county jail. The case of State against Oscar Kohlsdorf, complainant for horse stealing, will probably be defended by one who has already served a sentence for stealing a saddle and harness at the same time.

Arrested for Theft.

DAVID CITY, Neb., June 10.—(Special.)—For some time Landford May of Perkins hotel has been missing a small sum of money every day from his cash drawer, and quite recently several traveling men have notified him that samples were missing from their trunks. Scott now occupies a cell at the county jail. His preliminary trial will be held in a few days.

Osceloa May Have a Saloon.

The petition contained the names of thirty-two citizen freeholders certifying that the petitioner was a man of 2500 moral character. Mr. Cole used to keep a saloon here. It is thought that the anti-saloon people will make life a burden to the saloon people before the petition is granted.

Rooney, while Watson's interest were looked after by Matt Goring, John Morgan and Stern & Moran. The court at midnight adjourned the case until Monday morning at 9 o'clock.
