Strength and Activity of Yesterday Not Apparent in Wheat.

MANY CAUSES COMBINE TO INJURE TRADE

Oats, However, Holds Up Well, While the Sister Grain is Slow-Provisions Uncertain, Weakness Prevailing.

CHICAGO, June 14:-Wheat today suffered from lack of speculative interest and closed at a decline of about 1/2c. Corn and oats were dull, but closed about 1/2c higher each. Provisions declined about 25c at

The main feature of wheat trading was the general shifting of speculation to the Sentember option. The opening was steady September starting a shade lower at 77400 774c and selling at once at 774c. Cables were firm and higher, Heavy rains were reported in the Black sea country, but it was also stated that the grain in that sec-tion would not be worth cutting. On this statement there was moderate support at the opening, but soon after the market commenced to decline on selling by local longs. A decline to 76%c in September ensued, when a limited covering movement steadled the market for a time, September

steadled the market for a time, September recovering to 76%. Northwest receipts were rather small, owing to the storms in that section. Minneapolis and Duluth reported 434 cars, against 553 last week and 78 a year ago, Chicago receipts were 106 cars, five of contract quality.

The weather was reported much too wet in the spring wheat country and this helped to sustain prices for a time. The scaboard reported 320 loads taken for export, but the cash demand here was slow. Atlantic port clearances were 336,000 bushels. Bradstreet's reported a visible increase of 630,000 bushels. The market became almost stagnant during

reported a visible increase of 630,000 bushels. The market became almost stagnant during the afternoon. Moderate quantities were offered and in the almost total absence of support prices for September sagged to 76½c. The close was weak at 75½c. Corn was rather slow but firm. Large duying of July by a leading commission house was the feature, causing covering by shorts and keeping prices slightly above yesterday's during most of the session. Receipts were 440 cars. Clearances were liberal and the weather in the corn belt was favorable. There was a fair cash demand. The market weakened somewhat in the afternoon with wheat. September ranged from 34½c to 345½c and closed a shade higher at 343-5634½c.

Good cash demand and the small country Good cash demand and the small country

movement made a firm market for oats. Receipts were 192 cars. Weekly crop bulle-tins generally showed anxiety on account from 20% gale to 21% and closed % higher

market for provisions was irregular. The market for provisions was irregular. Some strength was shown at the start on higher hogs and on covering by shorts; later the market turned weak on selling by packers and all the early advance was lost. Cash demand was fair. At the close September pork was 2½c lower at \$8.42½, September lard unchanged at \$5.15 and September ribs 2½c lower at \$4.82½.

Estimated receipts for Thursday; Wheat, 150 cars; corn, 515 cars; oats, 160 cars; hogs, 34.000 head.

Leading futures ranged as follows;

steady prices, while buyers were rather indifferent.

Cows and helfers were in moderate supply
in spite of the large receipts of cattle and
the market on that kind was all right. Desirable lots sold at fully steady prices and
the supply was soon exhausted. The market on bulls and stags was not much
changed, and the same was true of calvis,
There were more stockers and feeders in
the yards than for some time past. As the
supply for a number of days back has been
very meager speculators were pretty fair
buyers, and most of the offerings changed
hands early at good, firm prices. Representative sal s:

HOGS—Yesterday's market was so uneven that it is no easy matter to make comparisons of the market for the two days. For that reason today's market may be best described as a \$2.65 market. The trade was fairly active from the first, as packers seemed to want the hogs, and the big bulk of the offerings changed hands in good season, although the early offerings consisted of 177 loads, with a number reported back. Sulesmen who had fair loads of mixed hogs were able to get \$3.65, and at the same time it was hard work to get any more for good loads. Later trains sold about the same, and practically everything changed hands early. Considering the large receipts, the market as a whole was in good condition.

It will be noted from the table of average prices at head of column that the mark to an average was better than yesterday for the reason that a large proportion of the early sales yesterday were at \$3.696 \$3.692, which brought down the average for the reason that a large proportion of the early sales yesterday were at \$3.696 \$3.692, which brought down the average for the reason that a large proportion of the early sales yesterday were at \$3.696 \$3.692, which brought down the average for the reason that a large proportion of the early sales yesterday were at \$3.696 \$3.692, which brought down the average for the reason that a large proportion at the running of trains to an extent that has caused a good many trains to arrive late, with the result that the days trading has been spread out a good deal.
