The militia is patrolling what was the business section of the town and nobody is permitted inside the lines. MEETING OF ARBITRATORS

Preliminary Session of Counsel in Venezuelan Case—Formal Meeting Thursday.

PARIS, June 14.—A preliminary and informal meeting of counsel engaged in the Venezuelan arbitration took place at the ministry of foreign affairs this morning.

The meeting of the Venezuelan commission will be held in the apartment placed at the disposal of the Spanish-American Peace Commission.

The place where the tribunal will sit is also the one used in the Berlin sea arbitration. This morning the informal conference adopted a series of rules of procedure proposed by Prof. F. De Martens, the umpire in the dispute, who is professor of international law in the University of Petersburg and a prominent member of the council of the ministry of foreign affairs of Russia, as well as a member of the Russian delegation at The Hague.

The hours of session were fixed from 11 a. m. to 4 p. m. and it was agreed to hold five sessions weekly after Prof. De Martens has finished his work at The Hague, which he expects will be about the end of next week.

M. Martin, an official of the French foreign office, was appointed permanent secretary of the tribunal. It is expected that the arguments will be commenced tomorrow, after a brief inaugural address by Prof. De Martens, Sir Richard Webster, the British attorney general, opening the case on behalf of Great Britain.

The correspondent of the Associated Press saw Prof. Martens at the Chatham hotel this evening and asked him in regard to the delay in opening the tribunal. He said: "I have been detained by work at The Hague and the postponement of my arrival here was arranged with the consent of the other members of the tribunal. The proceedings could have been begun and continued last October, but they were postponed at the instance of the Americans, owing to the fact that Melville W. Fuller, chief justice of the United States supreme court, was obliged to attend to official duties at home which occupied him until last month. I shall expect to be compelled to return to The Hague for a few days, but on my return to Paris I will stay with the tribunal until the work is completed."

Questioned respecting the prospects of the peace conference at The Hague, Prof. De Martens declined to say more than that he expected the proceedings would end about the end of this month, with "distinctly practical results."

MONTH MORE OF CONFERENCE After Active Labors Are Completed Will Await Approval of Governments.

THE HAGUE, June 14.—It is now expected that the peace conference will not adjourn before the middle of July, as it is thought the labors of the delegates will not be finished before that time and there is the additional question of the acceptance by the powers of the decisions reached by the conference.

The delegates who desire to see some tangible result accomplished by the conference recognize that if the members are contented with simply transmitting the details of their respective governments the work of the delegates will simply be pigeon-holed in the various chancelleries of Europe and will not be executed. Therefore the delegates have resolved to adjourn their sittings as soon as their work is completed and to submit the result to their respective governments with the request that the delegates be empowered to sign a definite document. It is expected the governments will keep trace of the progress of the work and that they will require about ten days for deliberation on their final decision, which will bring their final adjournment in the middle of July.

CONCESSIONS BY TRANSVAAL Message Received from Pretoria by the European Representative.

BRUSSELS, June 14.—Dr. Leyds, the representative in Europe of the Transvaal republic, received today the following conciliatory dispatch from Pretoria: "The government does not make arbitration a condition of concessions. It will continue to make concessions, even as regards the franchise, independently of Great Britain's acceptance or non-acceptance of arbitration."

LONDON, June 14.—Though the sensational papers are making much of the blue book of the Transvaal negotiations issued last night, in which the British high commissioner at South Africa, Sir Alfred Milner, practically declared it a case of British intervention in the Transvaal beyond doubt, the reply of the secretary of state for the colonies, Mr. Chamberlain, to the petition of the uitlanders removes any misapprehensions. The text shows it did not contain threats, concerning which many rumors were afloat, and demonstrates that there is, therefore, still time for the disputants to arrange a compromise, of which signs are not wanting.

RIOTERS STONE THE CARS Police Finally Arrive and Disperse the Mob—Motorman Injured.

CLEVELAND, June 14.—There has been little change in the street railway strike situation today. Cars have been running at six-minute intervals over the Euclid avenue line and none have been interfered with there. No men are constantly received at the company's barns.

A serious riot broke out at 12:30 at the Cleveland & Pittsburg railroad crossing on Perkins avenue. Some 5,000 men are employed in the great machine and other shops in the range in the restaurant, which occupied the five Wade Park avenue cars, blocking tracks and stoning the cars. The small escort of police was powerless against the mob. J. H. Anderson, a non-union motorman, was struck on the head by bricks and seriously injured. Reinforcements of police finally dispersed the mob and cleared the track.
