**COMMERCIAL AND FINANCIAL** Stagnation Again Pervades Wheat, Yesterday's Advance Disappearing. CONFLICTING REPORTS BRING IT ABOUT

Toward the End of the Session # Feeble Attempt is Made to Strengthen Prices, but Without Avail-Corn Firm.

CHICAGO, June 16 .- Today's session in wheat was marked by the almost total dis-appearance of yesterday's incipient boom, aptember closing at a decline of %c Course grains were fairly steady, corn losing be lower and oats a shade higher, Provisions were heavy and declined 2190

Wheat showed dreided weakness at the start, September opening at from 73%c to start, September opening at from the basis of black basis 90. price of 78%0. The sluggishness of the forsign markets strengthened the suspicion formed yesterday that European crop damformed yesterday that European crop dam-age reports were probably somewhat "x-aggerated. Domestic news as a rule was fully as bearish as the foreign. North-west receipts were libinal, Minneapölls and Dunut reporting 66 cars, against 56 hast week and 77 a year ago. Chicago receipts were 114 cars, 2 of contract quality. There was no improvement noticed in the casa-demand and, as was evidenced by the rewas no improvement noticed in the cash demand and, as was evidenced by the re-cepts, no lotup in the big western move-ment. S-ling on a large scale commenced shortly after the opening and with the ex-ception of temporary intervals kept up throughout the entire session. Many of yisterday's big buyers dumped their wheat back. About it o'clock there was a letup in the liquidation, due to the better tone of closing Liverpool cables, and the Septem-ber price under an increased demand re-bounded to 78%. That was the high point of the day. The demand was zoon satis-fied and the market after noon became ex-tremely heavy under the persistent selling. September finally getting down to 77%. The demand improved somewhat during the late trading on the belief that the market was showing more weakness than the for-eign and domestic crop damage reports warranted. Total receipts at western mar-kets were 73(200 bu, compared with 155000 bu, a year ago. Atlantic port clearances smounted to 73% of and the seaboard. Sphember rallied to 77% and that price was bid at the close. Corn as a whole was firm. The market at times showed some sympathetic weakness with wheat, but prices during most of the

Snow's crop condition estimate of 35 per cent had much to do with the strength. Receipts were increased and elevator people were sellers, but the demand at all times was equal 'o the supply. ## A Modern Malaprop.

A volume, "With a Paleite in Eastern Palaces," by E. M. Merrick, tells amusing stories of many climes. Of the western world was a modern Mrs. Malaprop, pretty, amiable and rich, who sat to the author for her portrait. "She told me," she says, 'that her husband 'hobnobbed' with everybody and told such 'cotton wool' (cock and bull) stories; that a girl she knew was

training to be an 'archdeacon' (deaconess); that she was obliged to part with her coachman because he was such a 'gay Othello'; that she had India rubber 'tiles' put on the wheels of her carriage; that a man she knew was a regular 'marmoset' (martinet) in his own house; and a certain title always descended from uncle to nephew, as they invariably died 'childish.' Among the numerous celebrities whom Miss Merrick met in India was Lord Roberts, whose antipathy to cats gave rise to a little 73. story of metempsychoels. On one of his homeward voyages Lord Roberts 'asked to have the cat removed when he came on board ship,' and a stranger, not knowing who he was, said to Lady Roberts: 'Den't you think that little gentleman over there

must have been a mouse in a former state ?!
