Western Passenger Agents Are Holding Meeting in Chicago This Week.

PROSPECT FOR HARMONY SAID TO BE GOOD

Union Pacific May Join the Association, and This May Elect J. R. Buchanan as Successor to Caldwell,

General passenger agents for the roads with headquarters at Omaha are in Chicago attending a meeting of similar officials from other western roads. This meeting may be the remaking of the Western Passenger association, as it is understood several matters which a few weeks ago seemed insurmountable have been amicably adjusted, and while it appeared then that the association was on the verge of collapse the change which has been affected during the last few days has put a new phase upon the situation. As was announced Saturday, there is every likelihood that the Union Pacific will withdraw from the position it has held during the last two years and become a member of the association. If this is done it is also possible that the Great Northern and the Northern Pacific may also come in. However, the membership of these latter roads is not considered necessary to the successful operation of the association, although with their help the field could be widened.

While it is not certain that the chairmanship of the association will be brought up at this meeting, it is possible, and that brings forward a local interest, for one of the leading candidates for successor to Mr Caldwell will be J. R. Buchanan of this city He will be backed by some of the strongest roads in the association. A few weeks ago it was thought that his friendship for the Union Pacific might interfere with his election to the position, but as that road has had its difficulties adjusted without the aid of a chairman this handicap for Mr. Buchanan is believed to be largely removed. Seven years ago Mr. Buchanan was tendered the place. At that time he could not see his way clear to leave Omaha and he had to decline. Mr. Caldwell was then The action of the association at that time is apt to have considerable influence just now, and may aid Mr. Buchanan's candidacy. But it will take a

nadian Pacific as far as St. Paul. Abandon Double Train Service. ST. PAUL, Minn., June 19.-The Northern Pacific and Great Northern have changed their train service so that hereafter the Great Northern will have a morning train out for Seattle and Washington points and the Northern Pacific an evening train to the coast. The double daily service to the coast on the Northern Pacific and Great Northern is thus abandoned and the roads, by agree ment, have decided to try the plan of sending out their overland trains from St. Paul

Recently the Baltimore & Ohio road has made another change in its operating rules, whereby it has materially extended the runs of the passenger locomotives on through trains. Formerly engines were changed on ful. The new rule has reduced the number of locemotives required by twenty-four which are to be used in other branches of the service. Under this plan the engines have double crews, and make from 7,000 to 8.000 miles a month as against 3,500 to 4,000 of theater-going. under the old method.

Loses His Passes

There is a rumor affoat in the city that the president of a western railroad, who has his headquarters in this city, was recently touched for his pocketbook, contain ing, among many other valuables, a list of passes which would be the envy of a populist politician. How and where the event occurred cannot be learned, for under the strict system of espionage in vogue among those who know the particulars it is impossible to induce anyone to tell the story. There is considerable amusement among other railroad men when the subject is mentioned, and all pronounce it the best joke

About a hundred responees have been received by Mayor Moores to the letters he has sent out regarding a state welcome to the First regiment, and there promises to be a very full meeting of the committee of three hundred in the council chamber Tuesday afternoon. There are some questions to come up for settlement before definite plans can be laid, one of which concerns the preparation which the city of Lincoln has been making to welcome the First.
