WASHINGTON, June 27 .- The president, upon his return to Washington, was promptly acquainted with the situation in the Philippines, as exhibited in General Otis' statement cabled yesterday. He was in conference for a time with Secretary Alger respecting the best method of carrying out General Otis' desire to maintain at least throughout the rainy season an effective fighting force of no less than 30,000 men in the island. In the general's last estimate it is noted that he asks for an "effective" force of 30,000 men. This estimate will oblige the War department to secure more troops. General Otis' sick report and his casualty list makes it evident that provision must be made at once to supply a shortage of about 15 per cent in his force. The officlais are taking into consideration the assurance of the medical authorities that no diminution to this disability rate can be fixed during the wet season, but that the conditions may grow even worse as the season advances. Many of these men will have to be invalided home to the United States, it being demonstrated, particularly in the typhoid cases, that convalescence is rare unless the patient leaves the Philip-Thus, the department will be under the necessity of keeping up a steady flow of recruits from the United States if General Otis' desire is complied with. The recruiting officers' reports indicate an ability on their part to supply 1,000 men a week, more than sufficient, it is believed, to meet General Otis' needs in the future, while as for the present, the department has assembled 5.000 recruits at San Francisco ready for transport as soon as ships can be found.

DREYFUS TARRIES ON THE SEA

Delay in Arrival of Cruiser Sfax Causes Much Speculation.

LIGHTHOUSE TENDER SAILS FROM BREST

Its Conjectured Mission is to Receive the Prisoner on Board-Authorities Refuse to Give Out Information.

BREST, France, June 27.-The delay in he arrival here of the French cruiser Sfax. which left the waters of French Guiana June 10, with Captain Alfred Dreyfus on board, increases the interest in the landing of the prisoner. All sorts of suppositions are current. For the moment attention is centered on the putting to sea this afternoon of a lighthouse tender. Such vessels usually stant in the morning and return in the evening, consequently the departure of the steamer this afternoon has given rise to the conjecture that it has gone to meet the Sfax and that Dreyfus will be transferred on board of it.

The authorities continue to refuse to furnish the slightest information regarding Drevfus to the regular army of newspaper men of all nationalities now gathered here. In the meanwhile the effervescence of yesterday evening has quite evaporated and this evening the inhabitants are calmly promenading the principal square listening o the Marine band.

PARIS, June 27 .- A dispatch from Fayal, Azores islands, says the Sfax passed that point without stopping to coal.

CHAMBER STANDS BY MINISTRY

Deroulede Voted Down in Effort to Secure Revision of the Constitution.

PARIS, June 27 .- In the Chamber of Depties today M. Paul Deroulede, founder o the so-called League of Patriots and member for the Angouleme division of Charente, introduced a proposal for a revision of the constitution with the view of substituting "a popular for a parliamentary republic and demanded urgency for his motion. The premier, Waldeck-Rousseau, opposed

the proposition and asked that the motion be referred to a committee. M. Deroulede requested permission speak, but the president of the Chamber. M. Deschanel, refused to allow him to do so M. Lasies, anti-semite member for the

Condom division of Gers, accused the premier of having recourse to subterfuges and a violent tumult ensued. Several of the deputies tried to speak, but their voices were drowned and the president was compelled to suspend the session. When it was resumed urgency was proposed for M. Deroulede's motion and was defeated by a vote of 397

International Council Meets in London, May Wright Sewall Presiding.

FIRM STAND IS TAKEN FOR ARBITRATION

Lady Aberdeen and Bishop Ireland Plead for Good Will Among Men-Paper Opposing Suffrage is Received with Hisses.

LONDON, June 27,-The International Council of Women, which assembled yesterday in the convocation hall of Church house, Westminster, is divided into five sections, or meetings, which were all crowded teday

Great interest is taken in the political section, which discussed today the "Parlia-Meyer Goldsmith, died Monday in the Johns | mentary Enfranchisement of Women," the vice president of the council, Mrs. May siding.

Miss Susan B. Anthony, one of the American delegates, detailed the progress of the movement in America. The announcement American woman's society opposing female franchise was met by a storm of hisses. Mrs. I. M. Appel of Denver, Joseph and Leon Mrs. Sewall protested against this "intol-Goldsmith of Chicago, Mrs. M. L. Reeder, erance," pointing out that no one was now in Venezuela, Max, Belle, Albert and obliged to attend, but that it was their duty Carrie Goldsmith, who live in Omaha. All if present to listen courteously to all speak the daughters with one exception were with ers. The paper was then read, punctuated

The paper opposing female franchise was written by Mrs. Frances Scott of Massachusetts.

In the professional section, Mme. An toinette Stirling created some excitement by declaring, with much emotion, that she thought the speakers were too hard on the men and adding that women only realized the full value of a husband when the latter In the legislative section Mrs. Kelly read

a paper on the condition of tenement labor in New York, and Mrs. Carty described the operations of the factories and shops act in Ontario and Quebec

Mirs Octavia Bates of Detroit deplored the fact that the profession of barrister was name was Swan. Her mother, father, two out, were the natural confidences of their not open to women. Yet women, she pointed

The remains were shipped to Sioux cine and the church were open to women. In America, the speaker continued, med! but public opinion, she claimed, was not sufficiently advanced to favor women law yers, though the law colleges were open to both sexes and many women, like Miss Helen Gould, who desired to manage their own estates, qualified. The intellectual ad vantages of a legal education, the speaker asserted, more than repaid the outlay. Continuing, Miss Bates said there was need of the development of a public conscience, and then law would give feminine side to marriage and divorce, "now only treated from man's standpoint.

The Countess of Bedford presided at the meeting of the Prisons and Reformatories section, where Mrs. Johnson of Washington described the success of women's reformatories in Massachusetts, advocating a system of trades, whereby women might regain their

self-repscet. Mrs. Bonner of Canada read a paper or 'Paternal Responsibility" and Mrs. Maria Weeke of the United States one on "Education as a Preparation for Life."

Women Stand for Pence.

An immense meeting attended by more than 2,000 persons was held in Queen's hall this evening, the countess of Aberdeen presiding, for the discussion of a resolution proposed by Baroness Von Suttner of Austria calling upon the International Council of Women to do all in its power to advance Letters were read from Cardinal Gibbons citizens of the territory in which they may of the United States, Cardinal Vaughn of reside. Lady Aberdeen then introduced Archbishop determine how far the service should be Ireland, who said: "I come because we extended in Cuba, Porto Rico and the Phil Americans know Lady Aberdeen is devoted ipplies. The appointees will be Spanish to every great and noble work and how un- local residents. In this way the Spanish sparing she is of herself when she can do authorities expect to secure an organiza anything for God and humanity. I come tion in touch with the local Spanish sentialso because the object of the meeting is peace through arbitration.

"Very glad am I to see this vast gathering of women ready to use such means. It is worthy of wem-n to work for such a cause. I believe that in such matters as this they should be admitted on a footing superior to men, because they can and will do more. Men do not have the time and it may be not the tenderness of mind and heart which would induce them to work with the unsparing efforts of women.

Public opinion holds the scepter today This is an age of publicity, when rich and poor, strong and weak, speak out. Let us only work on public opinion in all countries and we shall succeed. What is war before battle but the massing togethr of engines to kill men? What is it in battle but men dealing death blows while the ground drinks blood and corpses lie thick as autumn leaves? What is it after battle but the sending of grief throughout the land which nothing can

assauge? Ireland Decries Bloodshed.

"Should not humanity do all in its power to stop this shame to humanity? Two thousand years after the angels sang out 'Peace on earth' there are wars. Let meetings be held in every nation beneath the sun and let men say they are the patriots of patriots who seek to save the lives of men. Let justice reign and let it go forth from this great city of London tonight, a mes sage to the world, that justice is reigning and that peace universal will be secured. The speech was received with great enthusiasm. Mrs. Mary Wright Sewall, vice president of the council, speaking upon the resolution said:

When the war cloud settled down upon the United States every one asked what would become of the national peace council The press did not suppress its jeers. But we considered the declaration of war a trumpet call to us to be up and doing. We felt a greater need than ever. We never thought war a possibility and were surprised at our mistake. President McKinley accer#1 our appeal. Our action was not an impeachment of our government, but an example to help all governments, an exmple which can only be obtained from women."
