Burlington Right of Way Men Forecast that Road's Building Operations.

BUY PROPERTY IN MORMON CAPITAL

Belief is Growing that the New Alliance-Hartville Branch Will Be Pushed to the Rocky Mountains.

While the Burlington officials in this city refer to the matter as simply a report, there seems to be more than that in the story of the company's intentions to build into Salt Lake City.

CENTRAL PACIFIC FORECLOSURE

Holders of First Mortgage Bonds Bring Action.

SACRAMENTO, Cal., June 30.—A voluminous complaint has been filed in the superior court of this county in the case of P. O. Mills and Oden Mills, trustees for holders of bonds upon the railroad properties of the Central Pacific Railroad company as plaintiffs, against the Central Pacific Railroad company, the United States of America, the Metropolitan Trust company of New York, and the Southern Pacific company as defendants.

This action was brought to foreclose the lien on "Series A" of the first mortgage bonds of the Central Pacific Railroad company, issued July 25, 1895, to D. O. Mills and William E. Barron, as trustees. The par value of all the bonds secured by the mortgage is \$6,378,000. The mortgage covers the properties of the Central Pacific Railroad company from Sacramento to the eastern boundary of California.

BIG SOUTHERN COAL DEAL

Kountze Brothers and the Port Arthur Hatchery the Hatchery.

The long and somewhat bitter controversy between the Kountze brothers and the Kansas City, Pittsburg & Gulf railroad, known as the Port Arthur Hatchery, has at last amicably settled, the hatchery having been buried at Kansas City on Thursday.

The Kountze brothers, it will be remembered, are interested in Sabine Pass on the Gulf of Mexico, where they have expended a very large amount of money in improvements, dredging and so on.

It was with Receiver Pordyce that the Kountzes on Thursday made a deal to build a railroad from the terminus at Port Arthur to Sabine Pass. This means that the Port Arthur canal scheme is to be turned down, the new management of the Port Arthur route not being in favor of old plans and schemes.

This railroad will be fifteen or twenty miles in length. The Kountzes have Shady Point in Texas and they intend to build a short road from that place to the main line of the Gulf coast and shipping the coal to Sabine Pass and from there distribute it to ports in Central and South America, as well as to all principal points in the United States, eventually extending their coal and lumber business all over the world.
