CORNELL STILL HOLDS FAST

Retains the Books and Papers of the Insurance Department.

POYNTER MAKES A DEMAND FOR THEM

Cornell Pays No Attention to the Communication and Continues to Run the Department as He Sees Fit.

LINCOLN, July 1 .- (Special Telegram.)-State Auditor Cornell still adheres to his former decision to retain possession of the books and records of the insurance department of the state until the constitutionality of the Weaver act is established in the courts. While no formal demand for the office has been made upon the auditor, either by Governor Poynter or Insurance Commishold the office. His reason for not turning over the books is that he wishes to be convinced that he will be relieved of all liability if the transfer is made. Auditor Cornell and Governor Poynter held a consultation this morning, but no definite conclusion was reached. Governor Poynter offered to commence a friendly suit in the district court here if the auditor would agree to release the books and records, but this the latter refused to do, remarking that the matter should be settled before the transfer is

Governor Makes Formal Demand. This afternoon a formal demand was made upon the auditor by Governor Poynter for

the books and records of the office. The demand was in writing, but Auditor Cornell refused to read it when presented, saying that he was busy and could not consider it "I have received a communication from

the governor," eaid Mr. Cornell, "but I haven't had time to read it and will not for some time."

Before the formal application was made Governor Poynter visited the auditor's office and informed the auditor that he intended to make a formal demand. This was later given to Commissioner Bryant, who with his deputy, J. G. P. Hildebrand, presented it to the auditor. The demand of the governor follows:

To Hon. John F. Cornell, Auditor of Pub-Accounts for the State of Nebraska: 1 hereby demand of you that you surrender t me, as the insurance commissioner of said state, all records, books, blanks, reports and all other appurtenances in your office, belonging to the state insurance business. which I will receive either at your office or at the room set apart for the insurance department in the state capitol building, as W. A. POYNTER, Governor of Nebraska.

Auditor Cornell is still conducting the insurance department and, although no appropriation was made by the legislature for the work, the insurance clerks are dischargthe state treasurer custodian of the insurance securities, but Treasurer Merserve has his chair and shouted: not decided whether to accept these papers how he would act in the matter. Regarding the receipts for fees received he stated that This he would send them to the different companies and that they could use their own judgment whether to return them to the he would reply in writing at an early date.

Lincoln Local Notes. The Fourth of July will be more generally observed by the merchants of this city this year than for some years past, nearly all of them having agreed to keep their stores closed all day. Nothing in the way of a public demonstration has been arranged for sioner Bryant, it is his evident intention to the Fourth in Lincoln. A large number of people are intending to go to Omaha Tuesday and the prospects are that Lincoln will be exceptionally quiet on that day.

Preparatory Plans for the Exposition of 1901-Some Wonderful Ideas Advanced to Make the Show a Go.

BUFFALO, N. Y., June 30 .- (Special Correspondence of The Bee.)-Five days from today the Advisory Board of Architects will gather at New York and there apportion among the nine members of the board the different buildings which will beautify the grounds of the Panamerican exposition, which will be held at Buffalo during the summer months of 1901. It has been deided that of the principal buildings, not ounting the buildings which will be erected by the government, the states and the countries of Central and South America, here will be nine, and the nine members of the board will have these great artistic piles apportioned out among themselves.

There will be many buildings beside these and it is now probable that the federal government and the state of New York will combine in the erection of a building not before provided for; namely, a Fish and Fisheries building. Within the last few days the matter has been broached by William de C. Ravenal, who is in charge of the division of fish culture of the government commission of fish and fisheries, and he Rosebud reservation in South Dakota. was so impressed with the idea that he immediately went to Albany to consult with the State Fish commission. Such a display would be a very interesting

building to the number already scheduled John O. Rowland of Avoca. it is probable that the total number of buildings on the grounds will total up a couple of score, for it is now known that many of the states of this country will have their own structures, and the countries of South America will have splendid representation. 'Improve on the idea and we'll adopt it,' said the manager, coldly. "Invent a chicken with the stamp attachment so that every egg she lays will be marked without all the trouble of buying the rubber stamp and we'll buy a number of the hens."

That day was a good one for wastronomic advertising, for following the visit of the egg man came a waiter in a club, who exhibited a tiny bit of wood. "It's a butter pat," he said. "Costs only 4 cents each. The idea is to have the hotels and clubs supplied with it, for it stamps on each butter by the populists, free silver republicans and pat the words "Panamerican Exposition." and above that is the advertising emblem. 'It'll make a big hit. Go like wild fire." He did likewise and then the wildest and

fishy blue eyes who called and asked permission to aid the exposition project. "Come in to help ye," said he. "Got something that'll make your old show go like holy smoke. I just want you to put an advertisement in all the papers in the world and in all your prospectuses and on all your cards that I have a medicine which will prevent anybody from ketchin' any disease. Don't cure no disease after you've once got it, but it fixes you so's you simply can't ketch none. Now you know as well as I do that millions of folks don't go away from home in the summer months cos they're afraid they'll ketch some disease. "If they take a dose of this medicine of mine they can't ketch none. Ketch the idee. You just advertise in all your doccyments about the medicine and where my place is and then the people won't be afraid to leave

months. Other advertising schemes as wonderful have been freely submitted and the number of aspiring wheelmen who have asked that the exposition buy gaily decorated wheels and start them across the country have been many, as have been the men who wanted to organize a championship Panamerican Base Ball team to tour and Central America; a championship Panamerican yacht to beat the Columbia and Shamrock, and a champion bicycle rider to

beat Cooper, Bald and the other speed mer-

home. They'll come to the show by mil-

lions; will look me up and git a dose of the

medicine, and then they'll be safe fer six

chants. In other devious and divers manners the exposition is being made famous by loyal men, who do what they can by placing sale the best "Panamerican cigar" ever was; the finest Panamerican ham and sides of bacon that ever grew; the smoothest Panamerican soap that boiled and the best "10-cent Panamerican dinner that ever was served.

Harcourt-Burns. LONDON, July 1.-Lewis Vernon-Harourt, eldest son of Sir William Vernon-Harcourt, and Miss Mary Ethel Burns, daughter of the late Walter Burns of New York, for many years head of the banking house of J. S. Morgan & Co. in this city, were married this afternoon at St. Margaret's church, Westminster. The bishop of Winchester, Rt. Rev. Randall Thomas Davidson, officiated. There were ten bridesmaids. The wedding party included Mr. Joseph Choate, the United States ambassador, and Mrs. Choate; Mr. Henry White, secretary of the United States embassy, and Miss White; Mr. James R. Carter, second secretary of the United States embassy, and Mrs. Carter and Senator Henry Cabot Lodge of Massachusetts and Mrs. Lodge.

Mr. Choate signed the marriage register. The couple received about 700 presents, many of them being of great value,

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases. My son, Charile, was afflicted from infancy

with Scrofula, and he suffered so that it was mpossible to dress him for three years. His nead and body were a eyesight also became affected. No treatment was 'spared that we

thought would relieve him, but he grew worse with this condition was indeed pitiable. I had almost despaired of his ever being cured, when by the advice of a friend we gave him S. S. S. (Swift's Specific). Adecided improvement was the result, and after he had taken a dozen bottles, no one who knew of his former dreadful condition would have recognized him. All the sores on his body have healed, his sain is perfectly clear and smooth, and he has been restored to perfect health.

ITCHING LIMBS

For Three Years. Nights Itohing and Burning Terrible.

Wife Suggests CUTICURA. Uses it. Presto! What a Change.

Feels Like Kicking Doctors for Three Years' Suffering. The itching and burning I suffered in my feet The itching and burning I suffered in my feet and limbs for three years were cerrible. At night they were worse, and would keep me awake a greater part of the night. I consulted dector after dector, as I was travelling on the road most of my time, also one of our city dectors. None of the dectors knew what the trouble was. I got a lot of the different samples of the medicines I had been using. I found them of so many different kinds, that I concluded I would have to go to a Cincinnal begintal before I would get relief. I had frequently been urged to try Cuticura REMEDIES, but I had no faith in them. My wife finally prevailed upon me to try them. Presto! What a change, I am now cured, and it is a permanent cure. I feel like kicking some doctor or myself for suffering three years when I could have used Ciritura remedies.

BABY'S FACE SOLID SORE

My little nephew, John Staunton, was afflicted with the worst sores I over saw all over his body. His head and face at times were a solid scab and he suffered dreadfully. He was a pitiable sight. His father used all the remedies that he heard of, and doctored with all the doctors. He wore a tarcap, also, which did no good, but got no relief until he used the Curriculas (old meet) and Curriculas. used the Currousa (cintment) and Currousa Now he is a clean, healthy child March 5, 1898.
