Worried About the Shamrock.

SOUTHAMPTON, July 13.—The cup challenger Shamrock left dry dock this afternoon and returned to her moorings at Hythe. The crew were not allowed to go ashore for the purpose signing articles, but instead a Board of Trade official went on board the yacht for that purpose. An interesting clause in the agreement concerning prize money gives the first officer $200, the second officer $150 and the crew $140 each, which it is asserted they receive whether they win or lose. The two sailing masters of Shamrock have a private agreement with Sir Thomas Lipton in regard to prize money. Experts are now asking whether Shamrock is not too frail to cross the Atlantic without sustaining damage.

PLAYING FOR THE WHIST TROPHIES

"Droppers" the Winners of the Progressive Fours.

CHICAGO, July 13.—The "Droppers" won the progressive fours contest with a team score of sixteen matches, at 1:30 o'clock this morning at the Whist congress at the Auditorium hotel. The second preliminary of the A. W. L. Challenge trophy contest was completed. The five winning teams enter the finals, which continue today, and which also include the Americana of Boston, who head the list of losers. The second round of the Hamilton finals was also completed.

The score of the progressive fours was: First, "The Droppers," sixteen matches; second, Minneapolis, fourteen matches; third, Chicago Whist ties Berwin, with twelve and a half matches each.

The score of the second preliminary in the A. W. L. Challenge trophy contest was: Nashville, 162, against Scranton, 151; Sioux Falls, 157, against Grand Rapids, 153; North Shores, 174, against Americans of Boston, 172; Athenaeums, 171, against Chicago, 166; St. Paul, 163, against Walbrook Ball, 127.

The score in the second round of the Hamilton finals was: Cleveland beats Hoyer of Racine by four tricks, Toledo beats Oaks of Austin by eight tricks, Buffalo beats Philadelphia by seven tricks, Chicago Duplicate beats Indianapolis by two tricks.

In the second special game for women the winners were Miss Allen and H. H. Wells with a score of—8, 7-12.

There has been more or less gossip about the new officers and the location of the next congress. Vice President B. L. Richards of Rock Rapids, Ia., will be, it is said, the next president. For the vice presidency the names most mentioned are Weems of Brooklyn and Whelan of Baltimore. The probabilities seem to point to Weems.

At the second business session the treasurer's report, which was of a satisfactory nature, was referred to the committee on finance.

The report of the committee on laws was deferred for a year and the committee continued, with instructions to report at the next congress.

An important point relating to the contests for the Hamilton club trophy was a resolution introduced by ex-President Barney that this trophy should be contested for only by the six most representative teams, which number should include the last winner of the trophy.

Ex-President Elliott introduced, as a resolution, the letter of Fisher Ames, which urged the division of the country into four sections, the best team in each section to have the privilege of contest for the coveted champion emblem. Both resolutions were referred to the committee on resolutions, with instructions to report tomorrow.

AMERICANS ON ENGLISH SOIL

Yale-Harvard Athletic Team Has Its First Practice at Southampton.

BOYS SHOW UP IN EXCELLENT CONDITION

English Athletic Sharps Admit the Yankees Are Promising Lot and Will Give Good Account of Themselves.

(Copyright, 1899 by Press Publishing Co.)

BRIGHTON, Eng., July 13.—(New York World Cablegram—Special Telegram.)—A most cordial welcome has been extended to the Yale-Harvard athletic team since its arrival in England. The newspapers, athletic authorities, college men and English sportsmen generally are doing their utmost to make the visit of the Americans here a pleasant one.

The Yale-Harvard team arrived here from Southampton today and did its first practice on English soil at Preston park. They are all in excellent condition, but Trainer Lathrop of Harvard and Trainer Copeland of Yale thought it advisable to confine the work of their charges to short runs on the soft turf. This precaution was taken in order to run no risk of "cracking" muscles or tendons that might have been relaxed during the voyage. After the day's training the team attended Barnum & Bailey's circus. The Americans were greeted with their own national air and a series of college melodies. While English athletic sharps are confident of the success of Oxford and Cambridge against the visitors, they admit the Yale-Harvard men are a promising lot and will give a good account of themselves.

It is not likely that at this late date any adverse action will be taken against Burke and Quinlan of Harvard. The question of their eligibility to compete is settled so far as the four universities are concerned and it is now in the hands of Secretary Charles Herbert of A. A. A. for final decision. Mr. Herbert has not been overfond of American athletes since the signal defeat of the London Athletic club team by the New York Athletic club in 1895. Mr. Herbert was in partial charge of the English team at the time. He met Burke while in America and needs no official advice as to his status.

To bar Burke and Quinlan at this late date would unpleasantly mar the success of the dual meet and in view of the fact that the secretary of the American Athletic union of America has vouched for all the American athletes there is not likely to be any trouble. All English sportsmen here hope this will be the outcome.

RAIN AN INHARMONIOUS ELEMENT.

Eastern Tennis Players Aggrieved at Postponement of Semi-Finals.

CHICAGO, July 13.—Play in the Western Championship Tennis tournament closed today with a quarrel. A postponement on account of rain of the semi-final round of doubles, which is one of the most important matches of the week, called forth complaints from players and spectators and may cause a rupture in the tournament. Sectional feeling entered into the matter and as the decision favored western men the impartiality of the tournament managers was brought into question.

Two matches in doubles were but barely started when a drizzling rain set in, which grew heavier as it progressed. Two sets were played, both going to the eastern teams. When time was called for the fourth set Referee McClelland called a halt, claiming the courts were not in condition for play. With the chances in their favor for winning the eastern players entered a vigorous protest, claiming the courts were no worse than when the previous sets were played, and demanded that the match be finished. It took half an hour to finally decide the matter. The rain continued during that time and sustained the referee in his decision. Hackett and Allen accused the local management of stopping the match to save the western men, who were decidedly off in their play after the game started.

Bond and Collins, while admitting that it looked as if they were afraid to continue, fearing defeat, declared the grounds were unfit for fair playing and asked the referee to postpone the match. The teams were evenly matched and before the rain played line tennis and furnished as pretty a contest as has ever been seen in a western tournament. The easterners took the first two games. After their nervousness wore off the western pair took the lead by winning three straight. The next two games were divided, and Collins and Bond ran out the set. The second set brought the best work of the day and was won by Hackett and Allen. The eastern men won the third set with ease.

Semi-finals, doubles: Hackett and Allen against Bond and Collins, 4-6, 6-3, 6-1, unfinished.

Play will begin tomorrow in the fourth round of singles. All the matches postponed from today will be played before the doubles. The unfinished contests in doubles will also be played off.

Racing on English Turf.

LONDON, July 13.—At the third day of the Newmarket second July meeting today the Reach plate of 103 sovereigns was won by Douglas Baird's brown colt Arder. Tod Sloan rode C. F. Dwyer's gray filly Peaches, but was unplaced. Fifteen horses ran the last five furlongs of the Banbury mile. The betting was 6 to 1 against Peaches.

A handicap plate of 100 sovereigns was won by H. Barnato's bay mare Sweet Story. Sloan rode the prince of Wales' Eventail, but was unplaced in a field of seventeen. The betting was 13 to 8 against Eventail.

In the race for the Midsummer stakes P. Lorillard's Dominie II., ridden by Sloan, beat Lord Dunraven's Morgante. This event is of 500 sovereigns, added to a sweepstakes of 10 sovereigns each for starters. The betting was 25 to 1 on Dominie II.

Canadian Tennis Tournament.

QUEEN'S ROYAL, Niagara, July 13.—The Canadian tennis tournament has already reached the finals. National Champion M. D. Whitman won from Wright of Boston in the semi-finals in two close sets. The finals will be played tomorrow afternoon and Whitman's opponent will be the winner of the Fisher-Paret match.

Considerable progress has been made in the handicap singles, and the four low-mark men, Whitman, Fisher, Wright and Little, are still undefeated. Play in the doubles begins tomorrow morning with an entry of sixteen teams.

Changes in the Shamrock.

(Copyright, 1899, by Press Publishing Co.)

LONDON, July 13.—(New York World Cablegram—Special Telegram.)—The Shamrock showed so stiff in its trials that Fife docked it at Southampton yesterday and removed a quantity of lead from the keel. A prominent yachting authority says he regards this as a serious development, making him much more doubtful of the Shamrock's chance. It is believed Fife was too impulsive. He has altered all his big boats soon after launching and seldom has effected an improvement.

LOUISVILLE, Ky., July 13.—A decree was entered in the United States district court today on mandate from the United States court of appeals ordering the sale of the property of the Kentucky and Indiana Bridge company, besides other claims. Empty Cars Cars Go Into the River.

CHICAGO, July 13.—A train of nine empty passenger cars plunged into the river from the Northwestern railway Kinzie street bridge today. The conductor and brakeman saved their lives by jumping, the locomotive staying on the track. The train was backing into the yards to carry a crowd of excursionists to Elgin when the accident occurred.

Dye House Employes on a Strike.

NEW YORK, July 13.—A large portion of the employes of the dye house of the Battery Worsted mills at Passaic went on a strike today for an increase of 30 cents a day in wages. They have been receiving $1.26 a day. The employes of the worsted mills number about 2,000 and they all threaten to go out with the strikers. A large force of police is at the scene guarding the mills.

PACKING PLANT IS CLOSED

Trouble with Labor Causes a Kansas City Concern to Suspend Work.

KANSAS CITY, July 13.—Schwarzschild & Sulzberger's local packing plant was closed today by the local management rather than grant a second advance in wages to its 200 butchers and their helpers. One thousand men are out of employment. It has been a union house, and only Monday last the men were given an increase in wages, which, according to the company officials, brings them up to the union scale. The men, however, it appears, were dissatisfied with the raise, and rather than grant a second increase the house has closed. An official of the company said today that the men would be given a few days' time in which to consider their proposition, and then unless they chose to return to work new hands would be employed. In the meantime live stock will be shipped to New York for slaughter. The scale paid the butchers is said to be that paid by other local houses.

A member of the Butchers' union, who was one of those dismissed from Schwarzschild & Sulzberger's, said this afternoon that the union would probably make similar demands at the other Kansas City packing houses for a raise in the scale of wages. The butchers' demands on Schwarzschild & Sulzberger were for what is called the scale of 1893. This schedule is in use at local packing plants, but it seems now that they want something more than the 1893 schedule, as is claimed by the Schwarzschild & Sulzberger company. There seems to be a lack of unity in the ranks of the butchers. According to packers the butchers will not stand by the agreements of their committees.

The room is used as a kitchen and also contains the oven. The stock and fixtures were almost wholly destroyed in the main room by the smoke and water, though the flames were squelched before doing serious damage to the main building. The losses were nearly covered by insurance.

Private Pawnbroker in Trouble.

H. Berlinsky unintentionally cornered the trouble market and got himself sent to jail by transacting a pawnbroker's business for private gain in his employer's store and under his employer's name. Berlinsky works for Aaron Wolf, 1211 Douglas street. Tuesday a stranger in the city, Tom Evans, a miner from Indian Territory, visited Wolf's store to pawn his watch. Berlinsky was behind the counter. The watch was left for $2.50 and Berlinsky, instead of recording the transaction, paid the sum out of his own pocket and kept the watch. The next day the time piece was sold to a pawnbroker at Eleventh and Farnam streets. Thursday evening Evans returned to take his watch out of pawn. The receipt was presented to the proprietor, who was unable to find any trace of the loan and was at a loss to account for the receipt. When Berlinsky entered the store an hour later he explained the affair, confessing to have sold the watch. He was arrested by Detectives Jorgeson and Heigfeldt.

Church to Be Reopened.

After being closed for upwards of two years the First Universalist church will be reopened next Sunday. The difficulty has resulted from the impossibility of securing a minister who was willing to remain permanently with the parish. Rev. I. M. Atwood, president of St. Lawrence university of Canton, N. Y., and superintendent of the Universalist church throughout the country, stopped over in the city yesterday on his way from the Universalist meeting at Kansas City for the purpose, as he expresses it, of investigating the waste places. He hustled among the members of the old congregation and managed to drum up a crowd large enough to insure success when the ball was once started rolling. Last night he addressed some advice to the congregation and promised to secure for them a pastor by next fall. In the meantime Mrs. Mary Gerard Andrews will occupy the pulpit commencing next Sunday.

Painters' Union Repudiated.

The Painters' union No. 110, the organization that has caused the recent disturbances among the painters of the city, was repudiated by the Building Trades council at the Thursday evening meeting. The union was organized under the laws of the Baltimore Painters' and Decorators' association. Credentials were presented to the council and were rejected.

Three delegates were obligated, J. W. Pollock and H. Ashmussen, representing the Sheet Metal workers, and Peter Jacobs of the Electrical Workers' union.

The council passed a resolution demanding that all union men be not allowed to work for the school board until the board complies with the instructions of the city council to employ none but union men.

SOUTH OMAHA NEWS.

Some time ago Building Inspector Dunscombe called the attention of the Board of Education to the need of suitable fire escapes on the different school buildings. At the time this communication was read no action was taken, but it is understood that the board proposes to carry out the recommendations of the inspector when the regular repairs are made this summer. Inspector Dunscombe asserts that one long platform fire escape is needed at the High school, while five stair escapes are needed at the Brown Park school, and four at the Third ward school. It is understood that no ladders will be used, but iron steps with landings at the different floors, so that children of all ages can be accommodated in case of a conflagration. The building inspector estimates the cost of these fire escapes at $2,000.

While a great many people are of the opinion that the present High school building is unsafe, it appears from the figures given that only one fire escape has been ordered for the building. This fire escape is to be erected at the east end of the building and will be so constructed with platforms and landings that all of the rooms having but one exit can be emptied without difficulty. Inspector Dunscombe has looked over the ground thoroughly and he asserts that with the kind of fire escape he recommends the High school building can be made practically safe as far as exits are concerned. As for the school buildings not mentioned it is not deemed necessary to place escapes on them at this time as the exits are free and open and there need never be a congestion of pupils no matter what the excitement. On the Brown Park and West Side buildings, however, the number of escapes ordered will have to be erected if the law and the wishes of the inspector are complied with.

Druggists' Picnic.

The druggists of the city will picnic at Riverside park on Thursday, July 20. Arrangements are now being made for a grand time, and it is expected that all of the druggists, with their families, will be able to attend. Out of the goodness of their hearts the druggists have granted permission to their clerks to attend the festivities after the stores are closed at night. This means that the clerks will get around in time to catch the homeward-bound carryalls. At the mee
