Fear of Rust and Light Receipts Cause a Rally on Chicago Market.

DIMINISHING NORTHWESTERN RECEIPTS

Corn is Moderately Active, but Somewhat Depressed by Continued Liquidation-Oversupply Hogs Wenkens Provisions.

CHICAGO, July 20 .- Fears of rust and light receipts caused a rally in wheat today, September closing at an advance of 500 Corn and outs closed a shade higher. Pork

declined 597%c, lard 2%; and ribs 5c. Diminishing northwest receipts and unexpected strength at Laverpool started wheat strong. September opened 14974c higher at 70199770%c. Longs were disposed to take profits, however, and the price soon slipped off to 70%c. The decline was checked by reports of damage to the spring crop by a hot wave in the Dakotas, closely followed by a heavy rain. The bears tried to get back former holdings and as competition was keen September rose quickly to 71%c. Realizing during the last hour, however, caused by Beerbohm of this year's yield in Rou-mania of only 25,000,000 bu,, compared with mania of only 25,000,000 bu, compared with 56,000,000 bu, last year, helped to sustain the market. Chicago received 118 cars and Minneapolis and Duluth 306 cars. Primary western market receipts were 918,000 bu, compared with 441,000 bu, last year. Atlantic port charances of wheat and flour capacity of the compared with 441,000 bu, cash demand slow. Corn was moderately active, but somewhat depressed by continued liquidation, induced largely by fine weather and excellent crop reports. A moderate advance was scored near the end in sympathy with wheat. Receipts, 433 cars. September opened 15c higher at 32½c, declined to 32c advanced to 32%c and closed with solers at

An early drive by scalpers caused a slump in oats, but the loss was fully regained on covering. Receipts, 160 cars. September opened unchanged at 19½@19%c, declined to 19½c, advanced to 20½c and closed at 19½c. An oversupply of hogs weakened provisions. About half the decline was recovered on buying by packers, September pork opened 7½@12½c lower at \$9.1009.15, sold sparingly at \$9.10, advanced to \$9.20 and closed at \$9.1509.17½. September lard opened 5c lower at \$5.25½, rose to \$5.57½ and closed at \$5.55. September ribs opened 7½ @10c lower at \$5.1505.17½, advanced to \$5.22½ @5.25 and closed at \$5.20.

MOVEMENTS OF STOCKS AND BONDS.

There was an Improvement in the Tone of Speculation in New York.

NEW YORK, July 20.—Today's stock market continued marrow and professional today, but there was an improvement in the tone of the speculation. In the late market a rather active buying movement set in and prices rose to the top level of the day, gaining a point or over as compared with last night's prices in many cases. There was an early reaction, which was encouraged by the violent slump of 22 points in New York Air Brake and an extreme drop of 5 points in Consolidated Gas. There seemed to be an entire absence of commission house buying, and London, although prices of Americans had been advanced there, refrained from operating here.

The course of the foreign exchange market with reference to the easier money conditions abroad was closely watched, and when sight sterling and cables were seen to be yie-ding it afforded considerable relief from apprehension of gold exports. The fact that the Bank of England refrained from advancing its rate of discount was taken as evidence that the threatened money stringency is about over there. Money worked easier in New York, but continued above the rates prevailing at interior points. There was some growth of a con-There was an Improvement in the nued above the rates prevailing at interior clus. There was some growth of a con-ction that money was not to become cheap

viction that money was not to become cheap for a considerable period yet, owing to the needs of the very active trade and the coming movement of the crops.

The heavy increases of banking deposits at some of the large financial centers of the country are now understood to be due to the great combinations of industries and the resulting readjustments in business methods which have, it is believed, reduced resources at some smaller points in a degree corresponding to the increase at the great centers. There was some continued uneasiness also over evidences of unrest among wagecarners. The strength of the local traction stocks helped to dissipate this selling.
