Wheat Declines a Full Cent and Closes at the Bottom in Chicago.

LARGE SHIPMENTS CAUSE THE SLUMP

Corn Advances on Buying by the Shorts-There is Little Trade in Oats-Provisions Are Firm.

CHICAGO, July 21.-Wheat declined a full cent today and closed at the bottom. Large shipments from Argentine caused the slump. Corn and oats lost %6%c and provisions closed unchanged to 25c higher, the latter in pork. Wheat opened easy and the lower at 70%c for September. Liverpool was slightly higher, but receipts were large and crop prospects good, September sold off immediately to 70%c. Argentine ship-ments for the week were reported at 1,314. 600 bushels, as compared with 15,000 bushels last year. A continental demand was reported-not large-but still a demand, and predictions of showers in the northwest following other predictions of more favorable weather caused some buying, on which September rallied to 714c. Spring wheat, on which all speculative eyes are set, was reported damaged in Wasnington. The demand was soon filled in the pit and after holding for a time around 71c, September started upon an irregular decline, which ended only with the adjournment of the board. Puts at 704c served to check the slide only temporarily. Receipts at primary points were \$15,634 bushels, compared with 317,438 bushels a year ago. Duluth and Minneapolls reported 441 cars, compared with 481 last week and 37 a year ago. Local receipts were 113 cars, seven of contract grade. September rallied to 71%c. Spring wheat, on

ceipts were 113 cars, seven of contract grade.

Corn advanced early on buying by shorts. September opened unchanged at 3243256 and advanced to 33543256, but the gain was lost in sympathy with wheat. The weather was reported favorable and receipts were again liberal, Chicago receiving 577 cars, with primary western receipts of 762,000 bushels, against 395,000 bushels a year ago. Argentine shipments exceeded last week's and Danubian shipments were 455,000 bushels, all of which aided in teh decline. September opened at 3253256, sold between 31543156 and 3253256 and closed at 31523156 bid.

There was very little trade in oats, July closing at a slight advance. September opened steady and slightly under yesterday at 1956230c and closed 4c off at 1956. The weakness of wheat was the principal influence exerted. Local receipts were 171 cars, Snow's report said the crop this year was larger and better than expected.

Provisions were firm early with a 10c advance in hogs. The edge was taken off the market, however, by liquidation, 25c over yesterday, at 49.20; September lard and September ribs ruled duil, closing at \$5.55 and \$5.20, respectively.

HOGS-The market opened this morning to more than steady and with some packers HOGS—The market opened this morning no more than steady and with some packers talking a little weak. The first sales, however, were generally steady with yesterday—that is, \$1.75404.20. From the way the market was yesterday it looked early as if sellers would do well to get steady prices. Later on, however, under the influence of better reports from Chicago, the market picked up and closed 5c higher. There was also a good shipping demand, which helped to strengthen up the market, so that the trade became active and the most of the hogs sold early. There were quite a good many sales at \$4.25404.25 and as high as \$4.30 was paid for good butcher weights. It will be noted from the table of average prices that while a part of the decline yesterday was recovered the market is still considerably below Wednesday's mark, though better than on Tuesday. One week ago today the average price paid for all the hogs in the yards was only \$4.65. Reprehogs in the yards was only \$1.05. Representative sales:
