Some of the members of the diplomatic body have unofficially attracted the attention of some of the officers of the Navy department to the peculiar attitude in which they are placed by the action of the New York reception committee. That committee, they represent, has addressed notes to the representatives of all foreign governments inviting them to send one or more naval vessels to participate in the reception of Admiral Dewey upon his arrival at New York According to the strict rules of international intercourse it is said the foreign governments cannot properly take cognizance of any invitation addressed directly to them by a municipality, or, as in this case, a purely local committee. As some of the governments invited would like to accept the invitation they are somewhat embarrassed under these circumstances, and it is believed will be obliged to await some action by the Department of State in this matter.

LONDON, July 21.-The newspapers here are printing extraordinary stories regarding Admiral Dewey and his crew. One of the papers says that although the crew of the Olympia is a motley collection of English. BOUNDARY DISPUTE KEPT SECRET. Authorities Give Out No Information Regarding Alaskan Line.

WASHINGTON, July 21 .- Senator Fairbanks of the Canadian high joint commission had another conference with Secretary Hay and Commissioner Kasson today after he went to the White House for a talk with the president. The moves in the Alaskan boundary dispute, which is now the sole matter occupying the attention of the commission, have been guarded with the utmost secrecy. Neither Senator Fairbanks nor Secretary Hay was willing to say anything definite about the negotiations, but it was intimated that no new proposition has been submitted by Great Britain and that the immediate business of the American side is to study the essential features of the plan embodied in the British note recently transmitted to Ambassador Choate. The com missioners now in Washington have had the advice of the coast and geodetic survey officials regarding certain geographic features under consideration and Senator Fairbanks also has been able to tell Secre tary Hay some things gleaned by personal observation of the country around Lynn

Long before this every man, woman and child in Peoria, Ill., his home, was familiar with his powers as an orator and with his keen wit. INDIANAPOLIS, July 21.-The first sunrise prayer meeting of the Epworth league envention was held at 6:30 this morning in Monument place. The scene was inspiring and with the singing served to attract hundreds of people going to work, who extended the line of congregation a block distant to Washington street.

The regular program of the morning was devoted to department conferences, which were held in Tomlinson hall, Epworth tent an opera house and four of the churches. A meeting of the state cabinet of Illinois was held this morning to meet a committee from Peorla, where the state convention will

The reception committee worked all night last night with tireless energy endeavoring to register the names of arriving delegates, but despite this vigilance a large number of delegates have escaped the registration book and it is not known definitely how large the attendance is.
