Good Demand from Shorts Caused a Rally in Onts-Large Receipts of Hogs Lowered Provisions.

CHICAGO, July 26 .- Apprehension of damage by the hot, dry weather prevailing throughout the country strengthened wheat liquidation. Pork lost 12/30 lic, lard 507/20

and rBs 714c, Wheat started strong at 71%c and gradually rose to 71%c, an advance of %c over yesterday's close. The strengthening influences were strong Liverpool cables, con-tinued light receipts and unfavorable crop advices from the northwest, where hot winds were said to have inflicted a good deal of injury on growing wheat. After the deal of injury on growing wheat. After the first buying rush was over, however, trade became dull and September sagged back to 714c. The decline was helped by weakness at Paris and the alleged splendid outlook of the French crop. While reports of dam-age to spring wheat were very numerous, yet there were enough promising a good crop in the aggregate to make traders cau-tious. The lack of inquiry for cash wheat was another reason for the majority of traders electing to await further develop-ments. The range amounted to only be during the entire session, with the trade of a professional character and nine-tenths of the of a local character. September closed at 71%c. Chicago received 121 cars, eight of which were contract grade. Minneapolis and Dimuth got 3%, compared with 476 the cor-responding day last week and 119 a year ago. The aggregate at western primary markets was 729,000 bu, aggainst 1,000,000 bu, last week and 65,000 bu. has year. Exports of wheat and flour from Atlantic ports equaled 226,000 bu. Reports of possible damage from heat and fox of rain strengthened corn. Receipts, 605 cars. Primary receipts were large and clearances rather light. September opened a shade higher at 32632%c, sold sparingly at 32c and advanced to 32%c at the close. A good demand from shorts caused a rally in outs early, but this was all lost on later profit-taking. Receipts, 215 cars. Septem-ber opened a shade lower at 19%c. 990,000 at the yards weakened provisions. Selling on stop-loss orders was again a feature. On the break packers took hold freely and part of the decline was recovered. September op-clind to 35.35 at the close. September ribes at \$3.3565.37%; rose to \$4.00 and de-clined to \$5.35 at the close. September for box op-need 19%d15% lower at \$5.1005.12%, sold at \$5.35%5.17%. Was a violent break of S4 in American Malting preterred and 2% in the common, which completed the unsettling of the market. Prices drifted away to the lowest of the day and were not much affected by a spurt in the late dealings in Lake Erie & West-ern, which rose on the common 1½ and in the preferred of 3 points. American Car priferred was also marked up 1%. New York Central was decidedly heavy all day and lost over a point net. St. Paul, Min-neapoils and Sault Ste, Marle common was conspicuous for a rise of 1% and the pre-ferred advanced a point. The money market was inclined to firm-ness and there was some calling of loans which necesssitated a shifting, though no great difficulty was found in securing ac-commodations, Much doubt is still felt as to the extent of the demands which will be made upon New York to move the cross. Discounts in London were further advanced and the Bank of England continued to buy gold in the open market, besides receiving consignments from Germany. Sterling ex-change in New York responded with a fractional decline. The Southwestern railroad mortgages showed some strength in sympathy with stocks, but otherwise bonds were dull and rather heavy. Total sales, par value \$2,655,-000. United States 38, coupon, declined ½, but the new 48, registered, advanced ½ and the old 48, registered, % in the bid price. Tha Commercial Advertiser's London financial cablegram says: The markets here were stagmant today, except for the continued booming of Westralians. Ameri-cans were forgotten, being 6 per cent and half extra for the new stamp duty. On some stocks even 7 per cent was demanded. Rates on foreign stocks were also excep-tionally stiff. The explanation is the large amount of money withdrawn on account of the Westralian boom. The bank bought £43,000 gold in bars and £50,000 in German cont. The week's inflow was only £765,000 and the expectation here is that the bank will raise its minimum discount rate to-morrow to 4 per cent. The following are the closing quotations for the lea

#### Wool Market.

Wool Market. BOSTON, July 25.—The American Wool and Cotton Reporter will say tomorrow of the wool trade: The wool market continues strong and there is still u good volume of business in progress. Manufacturers, how-ever, have not purchased during the past week quite as freely as previously, al-though the transactions of the week aggre-rate more thun an average med's husiness week quite as freely as previously, al-though the transactions of the week aggre-gate more than an average week's business, amounting to over 7,000,000 pounds. One features in the situation is the fact that the buying is almost wholly for consumption, speculation being less of a factor in the trade than for several weeks. The larger portion of the business done during the last week has been done in territory wools, as usual, although there was a good demand for fine Australian wool, but, as has been previously observed, the market is pretty well cleaned of this class of wool. The sales of the week at Boston amounted to 6,509,000 pounds domestic and 722,000 pounds foreign, a total of 7,521,000, against a total of 4,855,000 for the corrisponding week last year. Sales since January 1, 1899, amounted to 157,000 pounds against 55,933,810 pounds last year at this time. ST. LOUIS, July 28.-WOOL-Best grades, quiet and firm, others slow; prices un-changed.
