DEMOCRATIC CAUCUSES TONIGHT. Gold and Silver Bugs Will Wrestle

The democratic caucuses tonight promise to be the warmest held in years if all reports are to be credited. It will be a contest between the 16 to 1 wing and the Jeffersonian club faction that is desiring to bring the democrats with gold tendencies back into the fold. The Bryanites, as the 16 to 1 Bourbons style themselves, are not willing to hold out the hand of reconciliation to the gold bugs and are determined to select only delegates that are loyal to the white metal. Narrowed down the fight will be practically between the followers of Chief of Police Bixby and City Treasurer Brooks Reed. Bixby has aspirations to be the member of the state central committee from this district and Reed has another man picked out for the place. The primaries will be held at the following places:

ORDINANCE FOR HOUSEMOVERS

Telephone, Telegraph and Electric Light Companies Oppose It.

Born-To Mr. and Mrs. Charles Rain, a SAY IT WOULD INVADE THEIR RIGHTS

Claim that Expense of Cutting and Mending Wires Should Be Borne by Housemovers Themselves.

The passage of the "housemovers" ordinance or at least that portion of it regarding the removal of wires and poles to permit the passage of buildings in course of removal will be opposed by the corporations affected. The Telephone, Telegraph, Motor and Electric Light companies all contend that the passage of the ordinance as now framed would be an unwarranted invasion of their rights granted by and under the authority of the fanchises given them by the city to maintain pole lines necessary to conduct and operate their business.

All four companies are a unit that they should not be called upon to bear the expense of cutting and removing their wires to accommodate the housemover. This expense, they all claim, should be borne by the housemover or the party owning the house being moved. As to the time of day at which the wires should be moved or cut to permit of the passage of houses being moved the Motor and Electric Light companies differ. Manager Dimmock of the Motor company contends that his company cannot be compelled to cut its wires during the time that ts trains are in operation, as to do so would seriously inconvenience the public, whose interests would thereby suffer. The cutting of the company's wires would necessitate Jack Shields, arrested on the charge of stealing jewelry belonging to his wife, was released yesterday morning. Mrs. Shields failed to file any information and the police as a further and stronger reason Manager As a further and stronger reason Manager Dimmock calls attention to the fact that his company is engaged in the carrying of the United States mails and that the municiby the Kaw notifies the police they did not of a house being moved the wires of his company shall be cut or removed, providing J. B. Louie, the aged father of A. Louie, the Broadway restaurateur, is suffering from severe injuries received from a fair representation of the party moving or ownrunning and providing further that the expense is borne by the party moving or owning the house.

Manager Nichols of the Electric Light company holds that his company is under contract with the city to furnish lights for of his recovery. Even if he survives he will be a cripple for the remainder of his and to aid the police of the city in protecting its citizens and their property. He holds the corner of North Eleventh street and Avenue E, indulged in a family row at 2 to cut any of the lines supplying lights durfor the reason that the lighting of the city during the hours of the night is of more importance to the public generally than is the possible inconvenience of the individual passenger of the street car company. Further, Mr. Nichols says the frequent cutting and rejoining of the electric light wires means a source of permanent expense from the fact that the joins offer an increased resistance to the current and the greater number of joins in a line the greater the cost

of maintaining the lights on that circuit. Manager Nicoll of the Western Union Tele-We have bargains every day at our store. Here are a few prices: Coffee, per lb., 5c; matches, per package, 5c; prunes, lb., 5c; rice, lb., 5c; potatoes, per bu., 25c; Diamond C soap, 12 bars for 25c; 18 lbs. best granulated sugar, \$1.00; cantaloupes, lc eaca; watermelons, 8c each; Dr. Price's baking powder, 35c. All kinds of fresh meats and spring chicken; D. S. pork, 6c lb. Full weight and full measures guaranteed. Our the whole country. The mere expense of cutting the wires or temporarily removing them is a small matter when compared to the inconvenience and loss that may result to the company. Like the other local managers of the corporations affected by the proposed ordinance he is not disposed to embarrass or hinder the housemovers in the prosecution of their business. He contends, however, that as the cutting of the wires is for the benefit of the housemover solely all expense connected with the same should be borne by the party benefited.

Manager Atkins of the telephone company is not worrying very much about the matter as he feels that the passage of such an ordinance would not affect the rights of his company. The ordinance dated October 8, 1888, granting a franchise to the Nebraska Telephone company contains the following

"Whenever it shall be necessary for any authorized person to move along or across said streets or alleys any vehicle or structure of such height or size as to interfere with any poles or wires so erected, the company using and operating such wires shall upon twenty-four hours' notice in writing, served upon the agent or manager by such person so authorized, and payment of the actual cost thereof, temporarily remove such poles and wires from such places as style in New York City. The girls are well chamber; Second precinct, police patrol must necessarily be crossed by such vehicle or structure.'

> He does not believe that the city can abrogate this right of the company to demand payment of the expense of cutting or removing its wires by passing another ordinance making it obligatory on the company to do the work at its own expense.

Two Women Want Divorces. Two divorce suits were commenced in the district court yesterday. Mrs. Minnie Kennedy asks the court to dissolve the ties which bind her to George W. Kennedy, whom she married in this city January 13, 1897. Mrs. Kennedy says her husband has been anything but a loving helpmate and that on the contrary he has continually beaten, choked and otherwise mistreated her. She asks that she be awarded the custofy of their only child, William, aged 11/2 years.

Mrs. Mary Kain is also tired of being cruelly used and seeks a permanent separation from W. S. Kain, to whom she was married less than a year ago. They were married in this city August 23 of last year. Mrs. Kain alleges that her husband, who swore to love, honor and cherish her, has done nothing but the contrary. According to her petition he has used her as a punchingbag and has frequently knecked her down She put up with the abuse until one day two weeks ago he drew a butcher knife from his pocket and threatened to cut her throat. He failed to carry out his threat, however, but after knocking her down with a blow in the face, as she alleges, he deserted her and has since stayed away. She asks the court to restore to her her maiden name of Mary Howells.

Must Erect Fire Escapes. No steps have been taken by the city authorities to enforce the "fire escape" ordinance and it is understood that none will be until the return of Alderman Atkins, the chairman of the council committee on fire and light. Chief Bates of the fire department has been making investigations and recently visited Omaha for the purpose of observing the system of fire escapes in vogue on the large buildings there. Alderman Shubert of the fire and light committee has also been giving the matter some attention and he says there is no intention of allowing the ordinance to become a dead letter. During the summer months there is little risk of any of the large buildings catching fire and on that account, he says, there is no immediate necessity for pressing the enforcement of the ordinance. Every building that comes within the ordinance, however he says, will have to be fitted with fire escapes and the owners of such buildings, although they will be given every latitude possible, will have to comply strictly with the provisions of the measure.

DARING ROBBERY IN IOWA

Burglars Knock Depot Agent Insensible and Then Blow Open the Safe-\$475 Taken.

FORT DODGE, Ia., July 28.—(Special Telegram.)-The operator at the Illinois Central station at Dyersville was beaten insensible by robbers last night at midnight. After beating him he was carried and put in an empty box car, where he lay for several hours unconscious. The safe in the depot was blown open and its contents of over \$475 was taken by the robbers. The operator is unable to give any description while he was at his work and knocked him insensible with several hard blows from a sandbag. This is the most daring robbery that has taken place on the line for long time.

Thomas Week, Wanted on a Charge of Criminal Assault Upon Little Girls, Under Arrest at Oklahoma City.

DES MOINES, July 28 .- (Special Telegram.)-The fire insurance agents of Iowa met in secret session here today and organized, with Henry French of Sioux City as president, and Joel Tuttle of Des Moines, secretary and treasurer. The meeting was strictly an executive session. Newspaper men were tabooed. After the sessions had closed the secretary was instructed to give out no names of officers or agents in attendance. The purpose of the organization was stated to be entirely social, and to send delegates to the national meeting. The reason of the insurance men for their careful secrecy is said to be fear of a collision companies, such as overhead writing. For ficers of the organization that the public know nothing of the nature of the organization, or of its personnel.

Thomas Meek, the school teacher who is wanted here on a charge of criminal assault, is at present in the custody of Sheriff grocery, Stout, and will be returned to Des Moines and incarcerated in the county jail tonight He was arrested in Oklahoma City by orders from the sheriff's office here. Meek was prominent in this county as a school teacher Monona County Teachers' institute opens and at one time was a candidate before the tendent of schools.
