Even should enough cash be placed into the police fund this month to meet the July salaries the fund next month will be completely exhausted and there will be no possibility of paying the salaries otherwise than by the old system of warrants on the general fund. These the city employes, owing to the pending litigation, will find considerable difficulty in cashing except at a large discount.

It takes close upon \$5,000 a month to meet the salary list of the city officials and employes. The payroli of the fire department is \$1,155, that of the police department averages \$1,200, while the regular city officials draw \$666 every thirty days. The engineer's department costs \$150 a month for salaries, and the city electrician draws \$90. Every three months the aldermen and city physician get their pay, which amounts to \$526.50 per quarter. The judge of the superior court Judge Aylesworth has so far this year only received one installment. The county also pays him \$1,000 a year.

Light on Alaskan Boundary.

SAN FRANCISCO, Aug. 1.-John Zachert, mining expert of this city, claims to posess information which he believes will have an important bearing on the Alaskan boun-dary dispute. Zachert declares that the old Russian boundary is defined by monuments placed at short intervals, and that enclosed in each is a chart of the Russian possessions. He is of the belief that the duplicates of the charts are on file at St. Petersburg. Zachert says that an expedition would have little trouble in finding and fol-lowing up this boundary line of monuments

and that the charts would prove of inestim-

able value in settling the dispute between

this country and Canada.

Demands of Messenger Boys. BOSTON, Aug. 1 .- The striking messengers of the Boston District Messenger com pany assert the company has but six boys at work today. Two of these boys were as-saulted during the forenoon, one of them being so roughly handled that he was taken in an ambulance to a hospital. One of the assallants was arrested. The strikers presented a bill of grievances to the compan today demanding 21/2 cents per message, that ten hours shall constitute a day's work and that they be permitted to buy their forms instead of renting them from the com-

The State Livestock Sanitary commission has extended the quarantine against all of the states east of the Mississippi river and Minnesota, Iowa, Louisiana and Arkansas west of the river. This is a continuation of the recent quarantine against Illinois on account of tuberculosis. This new order of the board is far-reaching and without precedent in the state. No other commission has taken the precaution to look out for tuberculosis which might be imported from other states.

Since Bailie Waggener became the edico as to what Colonel Engersoll left, the of the Athison Champion that paper has been man said he did not believe anybody knew skinning the ward politicians alive and roasting the tax dodgers to a brown. Mr Waggener says through the Champion: 'tax dodger' in this city is more numerous than the 'ward politician.' An examina-tion of the personal tax roll of this city presents a revelation and discloses the fac that more than 50 per cent of those who pre tend to pay the tax at all are "tax dodgers. The personal property of this city of alkinds for taxation is less than \$500,000. Th fire insurance on personal property alone exceeds \$3,000,000 and this does not include money, stock, bonds or mortgages. There are wo firms in the city who carry stocks worth more than the valuation of all the persona property for taxation. There is more than \$500,000 loaned out by residents of this city and secured by mortgages on Atchison county farms."
