CZAR IS WELL SATISFIED

Peace Conference Comes Up to the Expectations of Its Promoter. LAYS THE FOUNDATION FOR DISARMAMENT. Crucities of War Mitigated and Probability of Resort to Arms Reduced to a Minimum as the Outcome of Deliberations.

ST. PETERSBURG, Aug. 3.—The Official Messenger today publishes a government communique reviewing lengthily the result of the Hague Peace conference. After referring to the sympathetic reception the progress accorded the czar's "magnanimous appeal for peace," it proceeds: "The results of the conference have fully come up to the expectations of the government. It has been found necessary for the conference to postpone a definite settlement of the complicated question of the suspension of armaments until fully elucidated by the different governments. Nevertheless, the lighting of military burdens is already admitted by unanimous resolution to be urgently desirable for all nations. On the other hand, the labors of the conference will doubtless exercise influence in regulating the customs of war and stopping cruelties. The various states have agreed to use all their resources in favor of the maintenance of peace and the abolition of war. It is now an established fact that mediation, which hitherto depended on the good will of the states interested, can henceforward be offered by a third power on its own initiative." The communique concludes: "Without impairing the sovereign rights of the individual states the results afford a fresh basis for international peace. The necessity for a solution of the czar's proposals is admitted by all the powers and the march of events will indicate the means to be employed in securing the welfare of mankind and the full attainment of the objects in view."

CHURCH OWNS THE GOOD LAND

Oregon Volunteers Express Their Opinions on Philippine Matters—Country is Rich. SAN FRANCISCO, Aug. 3.—With a view to obtaining reliable information regarding the agriculture and other wealth-producing possibilities of the Philippines, the Call has interviewed a large number of the Oregon volunteers whose long stay on the islands afforded them excellent opportunities for observation. Most of the troops believe that the land of the Philippines is well adapted for American agriculture with the exception of the cultivation of wheat, but they add that nearly all of the agricultural land, and certainly the best of it, is in the possession of church authorities and would have to be purchased by intending settlers. The troops of the Oregon regiment are almost to a man in emphatic opposition even to the suggestion of making the natives of the Philippines citizens of the United States, although the opinion seems to prevail that American labor laws could be advantageously put in operation on the islands. As for Americans working in the Philippines, the soldiers declare that it is utterly out of the question. The heat is too intense and the climate generally too unvarying. The Philippines, they say, are the last lands on the earth for poor men to seek with a purpose of improving their conditions.

JIMINEZ'S FRIENDS IN ARMS

Insurrection in His Favor Occurs Near Santo Domingo and Many Generals Join Standard. CAPE HAYTIAN, Hayti, Aug. 2.—It has just become known that an armed insurrection has broken out at Lavoga, a town seventy-eight miles northwest of Santo Domingo, in favor of Jiminez, who aspires to the presidency in succession to the late President Heureaux. Later advices from the Dominican republic indicate that the revolution is growing in strength. At Santiago de la Cruz 500 well armed men have risen under the command of Paseo and General Pires, who is very influential in those districts, has joined the insurgents, with several other officers, each commanding fairly important forces.

NEW YORK, Aug. 3.—Chairman Foster of the Dewey Association committee said today that a letter had been received from the president of the Pennsylvania Railroad company promising to comply with the wishes of the committee in regard to the decoration of the company's property. The company promises to decorate the end of their pier on the Jersey side in a similar manner, so that there will be an appropriate display on both sides of the river on the occasion of the celebration.

MAKE WAR ON THE SHEEP MEN

Four Horsemen Kill Large Number of Sheep and Wound the Herders. CHEYENNE, Wyo., Aug. 3.—Northwestern Colorado is the scene of a war between sheep and cattle men. On Monday last four horsemen carefully disguised, both as to person and their horses, rode into some large flocks of sheep which were being grazed along Two Mile creek, about twenty-four miles from Sterling. The men shot and killed 150 sheep and badly crippled twenty-five more. It is reported also that two sheep herders were badly beaten.

GOLD OUTPUT OF AUSTRALIA

Roberts, who is in New York, estimated the gold output of Australia for the present year at \$7,000,000 in excess of that for 1898. He said: "Australia will doubtless continue to have trade obligations to settle with England. Since the prospects point to a continuance of the balance of trade between this country and Europe being in our favor it is my

IDLENESS BRINGS ON VICE

Cuban Youth Deprived of Restraining Influence Crowd Police Dockets. PRESS RESENTS INTRUSION OF NEGROES. Alleged Proposal to Import Three Million Colored People Regarded with Hostility—Cromwell's Duties to Be Lightened.

HAVANA, Aug. 3.—El Diario de la Marina publishes a letter today, which says that the condition of the Cubans has become very bad. A large number were deprived of their parents by the war and have been left without support or guiding influence. Naturally in many cases they fall a prey to vice, as is shown by the very large proportion of young persons who figure as criminals in the police dockets. The writer of the letter suggests the establishment of homes for waifs. These he would have connected with suitable tracts of land, where the children could be brought up out of harm's way and could be taught to till the soil.

BOYCOTT MOVE ON THE WANE

Big Consolidated Lines Gradually Recovering Their Lost Ground. CLEVELAND, Aug. 3.—Absolute quiet reigned throughout the city last night and today. Street car service was maintained last night on the Union street line, which passes through one of the most turbulent sections of the city with trouble. The military force is being rapidly withdrawn and by the close of the present week the last company of soldiers will probably be ordered home.

STRIKE OF BUILDING TRADES

Disagreement of Brickmakers May Precipitate Gigantic Walk-out of Allied Crafts. CHICAGO, Aug. 3.—As a result of the brickmakers' strike all the building trades in the city may walk out. This would precipitate a general strike against the employes and employers Chicago has known. It has been a battle to the death between the Building and Trades council and the Central Association of Contractors, made up of those operating in all the different building trades. The strike was under negotiation even prior to the brickmakers' strike, but since that time it has received more serious consideration and to such an extent that there will be a meeting Saturday of the members of the association to consider the advisability of ordering the lockout.

CLOSED TO BELGIUM BEEF

Action is Supposed to Be Aimed Against Importers from America. WASHINGTON, Aug. 3.—Official letters received here from representatives of the United States in Germany bring many details concerning the recent action in that country looking to the exclusion of beef imported into Belgium from the German markets and leave little room for doubt that it is done for the purpose of preventing the indirect introduction of an American product. The letters state that proclamations have been issued by the authorities of the Prussian provinces of Aachen, Dusseldorf, Cologne, Ludwig, Schlewig, Dantzic and Gumbinnen and also in the grand duchies of Alendburg and Mecklenburg and by the ministry of Alsace-Lorraine against the admission of beef slaughtered in Belgium. The subdivisions of the entire Belgium territory of Germany are affected and it is deemed impractical to introduce any Belgian beef into the empire.
