

GETS AFTER TRAMP DOCTORS

State Board of Health Proposes to Regulate Itinerant Physicians.

MEASURES TAKEN TO PREVENT FRAUD

Each Applicant for Licenses Must Sign an Agreement Swearing that He Will Not Act as an Itinerant.

LINCOLN, Aug. 3.—(Special.)—The State Board of Health at a meeting held at the State Capitol today passed an important resolution directed against itinerant medical practitioners who may happen to apply for licenses to practice in Nebraska.

The passage of this resolution of the Board of Health for the first time has placed itself on record as being against this class of physicians, and according to the provisions an applicant for a license must sign an agreement swearing that he will not act as an itinerant physician.

This particular class of medical practice is strictly prohibited by the laws of the state, but while the Board of Health has always been opposed to granting licenses to physicians who move about from place to place the subject has not received the consideration it justly deserved.

Another resolution passed by the board today provides that hereafter licenses granted nonresident physicians shall be held until the applicant opens an office at some specified place in the state.

According to this resolution all applicants must also state where they intend to practice. It is thought that with these two resolutions there will be less difficulty in the future with the itinerant class of practitioners.

The following were given certificates to practice medicine in the state: J. G. Mohr, Hastings; J. D. Anderson, Iras P. Harlan, Auburn; John W. Warner, North Platte; A. M. Eard, Lincoln; James L. Stewart, Loomis.

Official confirmation of the promotions recently made in the First regiment was received from General Hays, a list of all members of the regiment who were mustered out at Manila has also been received at the adjutant general's office and is as follows:

GOVERNOR WELCOMED TO SUMMER SCHOOL

Great Crowd Headed by Bicyclists Act as Escort and Company of Distinguished Rough Riders Salute Their Colonel.

OCEAN GROVE, N. J., Aug. 3.—Governor Roosevelt of New York was the guest of honor at the Ocean Grove summer school tonight, when he delivered an address upon "Practical Politics and Decent Politics," before an audience of 10,000 people.

The audience tonight was so extraordinarily enthusiastic that Governor Roosevelt was obliged to beg the people to moderate their cheering.

At Ocean Grove he was met by a great crowd, and 1,000 bicyclists escorted him to his stopping place. In front of the house a company of boys dressed as Rough Riders saluted him to his great delight.

The audience tonight was so extraordinarily enthusiastic that Governor Roosevelt was obliged to beg the people to moderate their cheering.

Governor Roosevelt spoke on "Practical Politics and Decent Politics." He said, in part: "It is idle for the mass of good citizens to try to set themselves apart as not responsible for our political shortcomings."

In the audience the speaker was exactly what the people allow them to be. He represented the people—perhaps the vice, perhaps the virtue, perhaps the indifference of the people.

This does not in the least keep in mind that every politician, above all every successful politician, tends to debase himself by his great delusions and his bold and decent men who are not far sighted nor cynically indifferent than ever.

But in blaming the politician do not forget the terrible wrong to be done by permitting his existence. Again, do not fall into the mistake of thinking that we shall ever make politics better by hysterics in any shape or form.

It is a shame to us as a nation that we should have tolerated in a city like New York an administration against which it is necessary to say that the ruin are cleared away, and the temple of justice and honesty restored in their places.

We shall be greatly benefited, as will also the nation, if in the Philippines we retreat before the savagery instead of organizing a suitable government, which shall guarantee justice to every one and an increasing measure of liberty to those who show themselves worthy of it.

The world shows that the wrong done by the present administration is not a matter of proportions and is more elastic than any other kind of wrong and of this we shall be guilty if we fail to do our task thoroughly.

Just at the moment the nation is face to face with a duty that calls for the best of our attitude in the Philippines. We put our pick into the rotten foundations of government, both in the East and West.

We must see to it that the ruins are cleared away, and the temple of justice and honesty restored in their places. Now, if we are worth our undertaking, now if we are worth our place among the great nations of the earth, we must see to it that the ruins are cleared away, and the temple of justice and honesty restored in their places.

It will require the merest fraction of strength, provided only we choose to exert that strength. If, however, the people let themselves be intimidated by the administration as they did last winter when they refused to put the army on a proper footing so as to give permanence and organization to our military forces, we must thank if the war lingers with difficulties and dangers increased.

What the people have to do is to resolve to elect a president to the full in seeing that the outbreak of savagery is prevented once for all and what is even more important to see that these new tropic islands are not given to the hands of the people of the United States.

Governor Roosevelt spent the night at Vice President Hobart's summer home at Norwood.
