tion and a sharp drop in foreign markets pushed wheat to a new low level today, September closing weak at %Who decline from yesterday. Corn was steaded by good shipping inquiry and closed slightly higher. Oats closed irregular, a shade lower to 160 higher, Provisions declined sharply, closing 71/0121/2c lower.

Opening prices for September wheat showed a decline of h@4c from yesterday, starting at 68% 268%c, and that proved to be the high point of the day. Interest in the market, which has been slack for several days, was, if possible, even duller than yesterday and the market for the greater part of the session kept within a range of %c. The weakness at the start was due to a decline at Liverpool of %d since Friday. This was double the decline in the local market since that day and, coupled with the continued absence of foreign inquiry for American wheat, kept prices on the down grade during most of the day. It was apparently the prevailing opinion that it was a hopeless task to attempt to buil the market while there is so little demand for wheat abroad and what little buying was done was against puts, to which price (6% 6% 6%%) the market declined shortly after the opening. There was scattered selling by the northwest and by local commission houses, but outside interest was slack. September longs were inclined to transfer their deals from that month to December and buying of the latter against sales of September had a tendency to widen the spread between those months to the advantage of the carriers. Broomhall's figures of the European visible indicated a large increase and was a bearish feature of the morning's trading. Bradstreet's figures, however, showed a decrease of 1,267,000 bu, and for a time this steadled the market, causing a rally in September, which had in the meantime declined to 68%c, to about 65% 65%c, but no substantial support was forthcoming and prices soon sagged again. New York reported export sales of 10 boatloads. Not a bushel was placed from here. Northwest receipts were 199 cars, against 2% last week and 49 a year ago. Chicago receipts were 116 cars, 12 of contract grade. Atlantic port clearances amounted to 370,000 bu. A slightly better feeling developed near the close, shorts being fair buyers at the bottom, and the market rallied slightly, closing the steadler. The market was weak at the corn was fully as dull as wheat, but much steadler. The market was weak at of the session kept within a range of %c. The weakness at the start was due to a

om, and the market railied slightly, closing but, 681/2018/40.

Corn was fully as dull as wheat, but much steadler. The market was weak at the start, partly in sympathy with wheat and on the favorable crop conditions, but the strong cash situation sustained prices. There was vigorous selling of September at times and the more distant futures showed the most strength. Receipts were liberal, 562 cars, but indications were for a lighter movement, as country acceptances showed the most strength. Receipts were siberal, 562 cars, but indications were for a lighter movement, as country acceptances have been light for some time. September ranged from 30½@30½c to 30½c and prices closed a shade higher at 30½c.

Oats were dull and irregular. The feature of trade was the demand for May, which was sharp enough to result in a ½c advance in that option. The cash demand was excellent, 150,000 bu. being worked here. Receipts were large, 538 cars. September showed some sympathetic weakness with wheat. It ranged from 19½@19½c to 19½c and closed a shade lower at 19½@19½c.

Provisions were high throughout the session. Packers were free sellers, apparently on the belief in a freer hog movement, and substantial support was lacking. The market tended steadily downward and was devidedly weak at the close. At the close September pork was 12½c lower at 38.35, September lard 10c lower at 35.27½ and September ribs 7½c lower at 35. Leading futures ranged as follows:

Changes in Available Supplies.

NEW YORK. Aug. 8.—Special cable and telegraphic advices to Bradstreet's show the following changes in available supplies as compared with the last account:

Wheat, United States and Canada, east Rockies (Liverpool Corn Trade News), increase, 533,000 bu.; afloat for and in Europe, decrease, 1,800,000 bu.; total supply, decrease, 1,277,000 bu.

Corn, United States and Canada, east of Rockies, decrease, 1,780,000 bu.

Oats, United States and Canada, east of Rockies, increase, 594,000 bu.

Among the more important increases reported to Bradstreet's not given in the official visible supply statement are those of 311,000 at Chicago private elevators, 36,000 at Louisville and 50,000 at Fort Worth.

The principal decreases are those of 410,000 bu. at Manitoba storage points, 100,000 bu. at northwestern interior elevators and 1,-Changes in Available Supplies. at northwestern interior elevators and 1,-107,000 bu, at Ogdensburg.

The aggregate stock of wheat held at Portland, Ore., and Tacoma and Seattle de-creased 218,000 last week.

lessly Within a Narrow Range. NEW YORK, Aug. 8.—The stock market was a dull affair for the greater part of today, drifting within a narrow range. Some strength was shown by a few isoluted stocks throughout the day under influence which was not disclosed by any published news. This persistent strength in some spots seemed to arouse the apprehensions of the bears in the last hour of the mar-The manner in which prices were marked

spots seemed to arouse the apprehensions of the bears in the last hour of the market.

The manner in which prices were marked up in the late dealings indicated a good deal of a scramble by the shorts to cover their contracts and swakened more appearance of animation and strength than has been seen in the market for some time. The higher prices for Americans made in London were without much effect and they were for the most part nominal and London sold from 12,000 to 15,000 shares here after the opening. Strength kept cropping out at new points as the day progressed.

There was early strength in Anaconda and a few of the specialties, but a period of reaction followed under realizing in Tobacco and Kansas City, Pittsburg & Gulf. Then the Minneapolis & St. Louis stocks rose 5½ and 3½ points respectively. There was a late movement in the coalers, which lifted them from 1 to 2½ points with a notable effect on the whole. Stocks showing notable gains were Consolidated Gas, 4½ points, and Pacific Coast second preferred, 2½ points, Tennessee Coal, Colorado Fuel, People's Gas, Brooklyn Transit, Steel and Wire, American Linseed Oil preferred and a few less prominent stocks advanced a point.

A very strong upward movement in Sugar from 169½ to 162% was the decisive influence in the late strength of the market, which closed active and strong at net gains in nearly all cases. The tone of the money market was called rather easier, though rates were not quotably changed. The hardening tendency of London discounts still continued, but the money rate at Berlin was a fraction lower and sterling exchange there eadvanced, showing relaxation of the tension at that point, notwith-standing that the Bank of England continues to make demands upon Berlin for gold. Sterling exchange here continued its downward course and confidence grows that gold will come from abroad if an emergency here demands it.

The free offering of funds from outside sources in the New York money market increases the belief that small demands will be made upon New

SHEEP—The best way to understand the condition of the sheep market at this point is to read the most discouraging reports sent out from Chicago since Friday of last week and note the slump in prices at that point. Sheep that were forwarded from here sold in Chicago way below what was bid for them here and this market has been higher hight along than Chicago. This week, however, the receipts at this point have been larger and buyers have demanded a concession to correspond with the decline at Chicago. Sellers, as a matter of course, have been slow to take off so much at one time and the result has been a very slow market. This morning it seemed that buyers were determined to wait until sellers got their ideas down before trying very hard to do business and in consequence very little trading took place before midday. It will be noted that quotations are way lower than last week.

Quotations: Prime native wethers, \$3.80@4.00; fair to good grass wethers, \$3.80@4.00; fair to good grass wethers, \$3.80@4.00; fair to good grass wethers, \$3.80@4.00; fair to good spring lambs, \$5.00@5.25; common spring lambs, \$4.00@4.50; feeder wethers, \$3.50@3.60. No.
