Some Complaints of Unsatisfactory Threshing Returns - Provisions Are Very Erratic and Prices Tend Downward.

CHICAGO, Aug. 9.-This was a day of covering by shorts in wheat and the re-Buit was an advance of 1/4 1/2 in September and almost as much in the distant futures. Strong cables, disappointing threshing returns and expectations of a bulmb govern ment report were factors. Co-ree grains were also strong, corn and oats each advancing about %c. Provisions lost an early advance and closed 214@10c lower.

Aided by an entirely unlooked for ad-vance of 1/6/3/d at Liverpool and by some bullish domestic news, wheat started strong at an advance of about 4c, September at 68%@68%c. During the first hour there was considerable buying by outsiders through commission houses and covering by local shorts September advanced steadily to 69%c before the turning point was reached, Besides the strength at Liverpool buyers Besides the strength at Liverpool buyers had to help them small northwest receipts, Minneapolis and Duluth reporting but 121 cars, against 237 last week and 85 a year ago. A good many reports came in from the northwest of heavy rains retarding the ripening of wheat and harvesting. Some complaints of unsatisfactory threshing returns were received. The cash demand showed signs of improvement, bids for hard winter being ½c better than yesterday in some cases. There was the usual amount of realizing on the advance and a reaction during the morning carried the price back to 68%c, but during the afternoon the market again became strong and most of the original advance was recovered. Snow's crop report estimated a drop of about 5 per cent in the government report tomorrow on the condition of spring wheat. This would suggest a crop of about 257,000,000 bu. Shorts covered quite generally and the market showed considerable strength. Total primary receipts were 535,000 bu. Atlantic port clearances of wheat and flour aggregated 154,000 bu. Chicago receipts were 148 cars, 22 of contract grade. September advanced to 594,069%c shoully before the close, but reacted on profit taking to 59%c.

Corn was strong and quite active, Sympathy with wheat was a factor, but the main reason for the strength shown was the continued excellent cash and shipping demand and the small country offerings. Receipts were light, 288 cars. Competition was sharp for the little corn offerings. Shorts covered freely and a good advance was scored. September ranged from 30%c to 51%c and closed %c higher at 31%c.

There was an improved trade in oats and the market was strong from the start. There was some suggestion of September manipulation and this and the small stocks and good shipping demand caused free covering by shorts. The selling was in the way of realizing and by scalping longs. Receipts were 24 cars. September ranged from 19%6094c to 20%c and closed %c higher at 19%600c.

Provisions were erratic. The market opened steady and unchanged. Sympathy w had to help them small northwest receipts, Minneapolis and Duluth reporting but 121

New York Money Market.

NEW YORK, Aug. 9.—There was not much in the stock market today. The market sold off at the opening on realizing and on mae heavy tone imparted by sympathy with London. Sales of securities for London account continued today on a moderate scale. The call money rate in London, nevertheless, dropped a fraction today and sterling exchange in Paris advanced, but in Berlin declined. There is a renewal of anxiety over the Transvaal question, which had its effect in foreign stock markets and New York Money Market.

Metal Market.

NEW YORK, Aug. 9.—METALS—The market did not change much today. Copper was in good demand, but sellers were conservative in view of conflicting reports and rumors from the west. SHEEP-Receipts were the largest of any day so far since grassers began coming. The market on sheep was just about steady, but lambs were safely 25c higher. The but lambs were safely %c higher. The market, however, was far from active for the reason that sellers were holding on for pretty stiff prices, while buyers were not quite ready to put on all that was demanded. Before the close, however, considerable business was transacted. The sales below will show the kind of prices paid.
