COLUMBIA AN EASY WINNER

Perfect Weather and Large Crowd Some of the Propitious Features.

NOT A GENUINE TEST OF SUPERIORITY

Defender is Radly Handled and Fa vorable Opportunities Are Overlooked by Its Crew-Good Time Made.

NEWPORT, R. I., Aug. 9.-The run of the New York Yacht club from Gardiner's bay to the port today, a distance of fiftythree miles, was full of interesting brushes. It is no disparagement to Columbia to say that its defeat of Defender by over twentytwo minutes was due more to bad judgment and bad luck of the latter, which left it in a soft spot, than actual superiority.

The day itself was perfect, for the sky was cloudless and the air was full of life and vigor. A huge fleet of steam yachts watched the sailing craft start and accompanied them over the most of the course and all Newport saw the finish at Brenton's Reef lightship, the cup defender of 1893,

made a mistake in getting too near the Fisher Island shore, so that when the wind did come around Columbia caught it half an hour shead. It was at this time, as the boats passed the entrance to Fisher Island sound, that Columbia made the great gain that gave it such a lead.

The race was a grand one from 2:45 o'clock on. At that time Defender took in its spinnaker, Columbia soon following suit. Away ahead more than five miles in the lead were Vigilant and Colonia. The latter yacht jibed to starboard off Narragansett and dropped astern just as they both passed the old oup defender, Volunteer.

Smartly the crew of Vigilant took in the spinnaker before reaching the lightship. Then they 16bed it and like an arrow i shot around Columbia's bow. It crossed the finish line just fifty-five seconds ahead of the schooner and finished first of the fleet. Columbia swept across the finish line at 4:24:30, taking in its spinnaker a few sec onds before reaching is. It was just twentyone minutes and three seconds ahead of Detender.

According to the official figures Columbia wins by twenty-two minutes, twenty-five seconda

ternational Cyclists' union, under the auspices of the Camadian Wheelenen's association, opened today on the Queen's park track. The weather was beautiful, fair and not too warm and there was but a slight wind, not heavy emough to interfere with the riders. Ten thousand people saw the races, filling the grandstand and obeachers and overflowing the rails along the track. There was only one world's championship event on the card, the one-mile, and it felico to Tom Summersgiil of the Leeds Athletic club, England, who won it in a bruising finish from Earl Peabody of Chicago and John Caldow, the Scotch champion. Of the other men from across the water Cherry of England was frozen out at the first trial heat, finishing second to a local rider named Boisvert. The same fate befell George of South Africa in the second heat. Goodson, the Austrasian champion, perished in the second semi-final, being beaten out by Peabody. Tailliander, the Frenchman, was also left in the same heat.

The three men in the final made a loafing race of it, no one desiring to cut out the pace, Peabody was in front with Summersgill in second place and Caldow trailling. They kept this position until the back stretch of the last round, when Caldow moved up and the three men came into the stretch practically abreast. Then it was that Summersgill let himself loose, He got a lead of haif a length and succeeded in holding it from Peabody, the same distance in front of Caldow.

The most important professional event was the half-mile. C. R. McCarthy of St. Louis, Nat Butler, Herman, the Canadian rider: McCarthy of Toronto, Major Taylore and Angus McLeed of Toronto were the six men who got into the final. There was a hair-raising finish between McCarthy of St. Louis and Major Taylore. The latter got into a pocket in rounding into the stretch and though he made a great rush he was beaten out by McCarthy. It was only a matter of inches. The decision was so close that a part of the crowd on the stand back of the wire refused to accept it, claiming Taylore ha

TROTTING MEET AT FORT ERIE. mmense Crowd Turns Out to Some Close Finishes.

BUFFALO, N. Y., Aug. 9.—The biggest crowd of the Grand circuit meeting assembled at the Fort Erie track this afternoon, about 5,000 being there. When the unfinished 2:20 trot was called first on the card Lockwood, trainer of George Carney, who had won two heats on Tuesday and protested against the postponement, later driving a heat by himself and claiming the race, decided to contest with the others, contemplating an appeal to the Board of Review if he failed to win. The judges said they would expel him if he did not show up and ignored the solitary heat business of Tuesday evening. In the pooling there was some uncertainty owing to the peculiar conditions, but Carney sold favorite. After being beaten in a close finish by Venus II in the second heat, Starter Walker was compelled to send the bad acting Venus away to a bad breek in the final heat. With nothing in the way Carney stepped off the heat and closed the incident.

There was a spirited fight for the money between Dare Devil, from the Village Farm, and Gayton in the 2:10 trot. It looked like Gayton in the final heat, but a break in his gear tangled him up and in a torrific spurt Geers came up with the Devil. There was nothing to the pace but Hai B and Snow won looking about at his party. card Lockwood, trainer of George Carney,

west this morning, there was little prospect of any windward work during the day. As usual, the sloops were sent off first, with the schooners following five minutes later, with the Columbia and Defender were held back fifteen minutes to give them plenty of room to maneuver for the line.

South Dakota Lad Flags a Train and Averts a Terrible Disaster.

HE IS OFFERED A COURSE OF EDUCATION

Black Hills College.

Teachers Who Are Overrunning South Dakota Have an Interesting Adventure Near Spearfish-

DEADWOOD, S. D., Aug. 9 .- (Special.)-For the last three days the Northern Hills have been overrun with the teachers, county superintendents and others from the eastern part of the state who came on the excursion to Hot Springs. To a large per cent of the visitors it was the first trip west of the Missouri river and very few of the party had ever been in a mining country. On Saturday afternoon ninety-three of the excursionists went down to Spearfish on the Burlington, returning the following morning. On the way down into Spearfish canyon resides at Terry. The train stopped and it was learned that the excursionists had had

a very narrow escape. A rancher in the valley had attempted to ross a railroad bridge on horesback and his horse had fallen through the ties and could not be released with the help available. The boy had seen the accident and his first thought was the flagging of the approaching passenger train.

Made Much of the Boy. When the facts were learned by the excursionists the boy became the hero of the day. He was made to stand out a short distance from the train and kodaks were suspend asked him to remove his hat in order to get a better view of his face, he remarked: 'Can't, pard; my hair ain't combed.' President Brown of the State Teachers

association made a fitting speech for the occasion, much to the embarrassment of the boy. He was presented with a crisp \$10 bill, which at first he refused to accept On the train was Dr. Daniels of Madison, this state. He was taken with the looks of the lad and, calling him aside, offered him a course of education in the Madison Normal free of all cost. The lad wanted to think it over, and when the train stopped at a station on the way home he boarded it and told the doctor that he would accept his proposal. Had the train not been flagged there would undoubtedly have been a terrible railroad accident. The lad will start for Madison as soon as he can get

At Spearfish the excursionists were met by citizens in carriages and all were given a ride over the city. Many of the teachers are so well pleased with the Hills that they have avowed their intention of coming ou here to reside permanently.

Among the guests of one of the hotels groups gather after the midnight hours. Tuesday evening was Erik Skram of Copenhagen, secretary of the lower house of the the heavily loaded train was flagged by a fold purpose of organizing among his counof the principal American cities for the twotrymen an American branch of the society and becoming familiar with the customs of the citizens of the United States.

The more progressive people of Denmark, Mr. Skram says, have observed that Danes who have emigrated to America have prospered. Those who remained at home wish to learn the secret of their success; they wish to introduce into the Danish systems of trade, education, etc., a little of the American activity.

Speaking of the purpose of his visit and its result Mr. Skram said: "We have known a little about the Americans through those of our countrymen who

have settled here and become citizens. We from all quarters. When one of the ladies know that you are progressive, and, as the rising generation in Denmark is made up of young men of progressive ideas, they wish to become familiar with your systems. thinking that perhaps we can learn a great deal from you.

"Then we do not want the Danes in this country to forget their nationality. We want to have a brotherhood of Danish people all over the world, and we are starting and Baltimore. in by extending the Danish society of Denmark to America. I have visited the big cities of the west and intend to stop in all the important places of the east to interest my countrymen in the society project and to inspect the industrial and school systems. "There are a great many ideas regarding schools, particularly the grammar schools, that we can introduce with profit in Dennan's estate quicker than our youth. They are fitted for business pursuits and profesplons quicker. They are taught in more practical ways, and I intend to try to have American methods copied extensively."

Colonel J. J. Dickey, with Theodore N. Vail of Vermont, C. E. Yost, E. M. Morsman and A. J. Day is Taken Up in Showing Frequency of Robberies in the "Tenderloin."

Victims Are Louth to Testify, Owings to the Publicity it Would Involve-Sensations Promised.

NEW YORK, Aug. 9 .- Almost all of the testimony elicited at the meeting of the Mazet legislative investigating committee today was for the purpose of showing how frequently men are robbed in this city while paying visits to the "Tenderloin," the "Bowery" and other sections of the city where

Mr. Moss had difficulty in obtaining witnesses for today's session. The men who Denmark Parliament and president of the had been the victims of these sort of crimes Danish society. Mr. Skram is making a tour appeared decidedly averse to appearing before the committee and telling about it. Two hundred and fifty subpoenas had been issued for men who had been robbed by women. Not a quarter of these men could be found. Neverthless Mr. Moss was able to put witness after witness upon the stand and secure account after account of robberies alleged to have occurred in disorderly houses in this city. Occasionally the witnesses un-der oath told of facts which appeared to show collusion between the police and the female robbers. Mr. Moss announced that similar testimony with variations would be produced before the committee tomorrow. The variations, it is understood, refer to an

investigation of the opium dens of the city Lewis Picker told of a burglary at his residence. The detective assigned to the case told him that the stolen property had probably been taken to Hester street and if his suspicions were correct there was no good looking for it.

Picker made a search for the goods and thought he had traced them to a place in Bayard street. He watched the place for sometime and saw many wagonloads of goods being taken from it. The goods were addressed variously to places in Kentucky

Mr. Moss said that he had issued 250 subpoenas for persons whose names appeared as complainants on the police blotters. The subpoena servers had failed to find many of the witnesses at the addresses given. Counsel said he agreed that it was not pleasant testimony for men to have to give in public and did not think it necessary to add more to the statements already made. mark. American boys seem to grow to Mr. Moss had a record of the arrests of women for robberies in the Nineteenth precinct since January 1, 1898. There were 160 in number and the amount of their depredations came to about \$28,000. He also read a list of seventy-nine houses in the precinct which were resorts for thieving prostitutes and where robberies had occurred and arrests made. Only nine of these places were on the book of suspicious places. Mr. Moss said the precinct book showed. only eleven places described as resorts for prostitutes and thirty-three houses suspected

of being disorderly. Adjourned until tomorrow.

> The famous Food Delicacy Grape-Nuts.

Searching for some palatable, easily prepared dish for breakfast, it is like an in-

spiration to come across Grape-Nuts. No cooking is needed. The food can be served instanter with a little cream or milk and the taste is that of the delicate crisp sweet of grape sugar, to be seen glistening on the small granules.

This grape sugar is produced from the starchy parts of the grains and is crystalized and deposited naturally during the processes of manufacture. The taste of Grape-Nuts is most captivat-

ing. Don't let it lead you to eating more than 4 to 5 teaspoonsful. The food is condensed and great volume is
