Broadway Athletic club for twenty rounds at 125 pounds, and Referee Johnny White declared the bout a draw. The club house was crowded to its utmost limit, nearly 5,000 persons being present. Dixon at times was wild and he frequently overreached himself, using poor judgment as to distance. Santry went right to his man and from the very beginning showed that he meant to fight without adopting sprinting tactles. Tom O'Rourke, Tom Sharkey and Charley Miner were Dixon's seconds, while Johnny Gorman, Charley Burns, and Jack Quinn were Santry's. In the opening round Dixon was the ag-gressor with honors about even. A left swing from Dixon in the second landed on Santry's eye and the Chicago lad fought back viciously, driving his right to the body, and at close quarters bringing it up to the head. George was wild, but he man-aged to get his left hard to the wind and also swung it to the head, landing too far back to do damage. In the fourth the old cut over Dixon's left eye was reopened with a right swing from Santry and the latter paid attention to this throughout the re-mainder of the fight. From this to the end of the nineteenth round it was a ding-dong contest with Dixon mainly on the ag-gressive and Santry blocking very cleverly. Dixon forced and rushed but neither had any decided advantage at the finish when the gong rang and the men had shaken hands. Tommy Sullivan of Brooklyn and Jimmy Devers of this city met in the preliminary.

BRADSTREET'S REVIEW OF TRADE. Favorable Feature is the Reports Re-

garding an Immense Corn Crop. NEW YORK, Aug. 11.—Bradstreet's tomorrow will say:

Crop reports and probabilities have constituted an important contribution to gen-eral trade and business advices this week. Among the unquestionably favorable features have been the reports regarding the corn crop, government estimates pointing to a yield of probably 2.200,000,000 bushels. a heavy increase over last year and almost within touch of the record total of 1896 Spring wheat indications apparently Dear

increase and decrease as compared with the | mands on New York for assistance, the mat. ter being emphasized by the fact that con-siderable amounts of money from other citles are said to have been loaned in New York this week. The further decline in exchange referred to elsewhere and the probability of gold im-ports as soon as the autumnal grain export

money rates as an obstacle to a further ex-hibition of bullish speculation. Conse-

quently the firmness of time money, which has been held at 4½ to 5 per cent, has had considerably less influence, though in con-

servative quarters the necessity of caution is urged in view of the high prices of se-

curities and the probability that money will command permanently better rates.

London was hardly a factor in this market

except so far as the action of its money market influenced the financial situation

here. The foreign transactions in our stocks were about equally divided between

buying and selling and amounted to little.

Activity on the part of commission houses was restricted, indicating that the public's

share in speculation is rather unimportant, though toward the end of the week there

but which sell at a high figure.

Police Stop the Fight. SIOUX CITY, Ia., Aug. 11.—"Australian Billy" Murphy and Patsy Magner of Yank-ton. S. D. met before the Sloux City Athletic club for a fifteen-round battle to-night, but the fight only lasted one and one-half rounds, breaking up in a row. The police interfered and arrested fighters, backers, etc. In the first round Magner used foul tactics and Murphy also began to rough it. In the second, when the police interfered, the men were fighting like dogs on the floor of the arena. The bout was supposed to be a boxing match for points. A big crowd of sports witnessed the affair.
