

FIVE NEW REGIMENTS

Still More Recruits to Be Enlisted for Service in the Philippines.

WAR DEPARTMENT TO NAME COLONELS

All Officers Under that Rank to Be Selected by Government of States.

NEBRASKA'S QUOTA FOUR AND MAY BE SIX

It Depends Upon How Creditably Governor Poynter Makes Recommendations.

FIRST TEN REGIMENTS MORE THAN FULL

Old Fort Omaha May Be Selected as a Rendezvous for One of the Proposed New Organizations.

WASHINGTON, Aug. 15.—(Special Telegram.) Plans were completed today for the enlistment of five additional regiments to be known as the Thirty-eighth, Thirty-ninth, Fortieth, Forty-first and Forty-second infantry, which are to be recruited for service in the Philippines...

It is understood that the colonels for three of these regiments have been selected and that the names of two officers are now under discussion for the remaining regiments. Governors of states have been called upon to indicate those who are best fitted of those in the state militia to take the positions of rank under the colonels and as soon as these returns are made the rosters of officers will be made up.

It is said that officers having had service in the Philippines will be selected over those having no service in either Cuba or Porto Rico, on the theory that they will be better taken up work where they left off when mustered out with their regiments.

Nebraska Will Probably Get Four. Nebraska under these conditions cannot fall to receive as its quota less than four regiments, probably a major and captain, two lieutenants, and about twenty privates.

Nebraska's quota is four regiments, but the splendid achievements of the First Nebraska, the Prairie state might receive six designations of line and staff.

It has been determined to continue recruiting for these new regiments at the close of the month. Today showed a record of enlistment of 13,464, or 364 over the authorized strength of ten regiments.

Standing of the Ten Regiments. Returns show that 444 men were enlisted yesterday. The following is the standing now of the ten regiments: Twenty-sixth Infantry, Plattsburg Barracks, N. Y., Colonel Rice in command, 1,423; Twenty-seventh, Fort Sill, Okla., Colonel J. M. Bell, 1,434; Twenty-eighth, Camp Meade, Lieutenant Colonel Leonard, 1,404; Twenty-ninth, Fort McPherson, Colonel Hardin, 1,077; Thirtieth, Fort Sheridan, Ill., Colonel Gardner, 1,345; Thirty-first, Fort Thomas, Ky., Colonel Pettit, 1,451; Thirty-second, Fort Leavenworth, Colonel Craig, 1,134; Thirty-third, Fort Sam Houston, Colonel Hare, 1,084; Thirty-fourth, Fort Logan, Lieutenant Colonel House, 1,503; Thirty-fifth, Vancouver Barracks, Lieutenant Colonel Plummer, 914.

W. B. Price of the auditor's office, Lincoln, Neb., is in the city on private business connected with the interior department. Mr. Price said that ex-Governor Holcomb would be the nominee of the fusion forces in Nebraska for the supreme judgeship. He confessed that there was a good deal of opposition to Holcomb from unsuccessful officeholders, but said that the people were with Holcomb.

Report from Watson. WASHINGTON, Aug. 15.—The secretary of the war received the following from Admiral Watson today: Escaped Spanish prisoners report Gilmore and thirteen other Americans, eight sailors and five soldiers—confined at Yigan July 27. Four sailors were in the hospital with sore legs. Gilmore is well treated. Supplies sent by Admiral Nease were received.

Believed to Be Safe. WASHINGTON, Aug. 15.—The signal office of the War department has no information about the grounding of the cable ship. It is believed to be safe in the bay.

Transport Hooker Fast Around. MANILA, Aug. 15.—The United States war ship Baltimore and Concord have made an unsuccessful attempt to tow off the United States transport Hooker (formerly the Panama), which grounded in the north channel off Corregidor island a week ago.

Thirty-First Ordered to Manila. CINCINNATI, Aug. 15.—The Thirty-first regiment, which has been fully recruited for service in the Philippines, is ordered to Manila, Francisco September 15, thence on the transport Grant for the Philippines.

Reports Are Exaggerated. CHICAGO, Aug. 15.—P. F. Price of Richmond, Va., for nine years a missionary in Shanghai, China, who is spending a brief vacation in Chicago, said today: "The railway concessions and buildings you hear of in China are mostly on paper. It will be years before the people will allow railroads to be built to any extent. The popular superstition is so strong against them that the mandarin do not dare to authorize the building. China is awakening, but very slowly."

TALK OF MORE VOLUNTEERS. Report that Five Additional Regiments Are to Be Recruited for Philippines.

NEW YORK, Aug. 15.—A special to the Herald from Washington says: Orders are expected within a few days directing the organization of five new volunteer regiments for the Philippines.

While a final decision on the matter of enlisting still more troops has not yet been made, the fact that Secretary Root is already considering the question of officers for the regiments indicates the strong probability that they will be organized.

Secretary Root is determined that the full campaign shall end the insurrection and that General Otis may have no excuse for falling back, he has been ordered to leave for San Francisco as large an army as conditions may show is necessary.

The recruiting for the ten new regiments continues, although they have their comple-

LANGTRY WINS HIGH RANK

Marriage Announced with De Bathe, Who Has Baronets in Store.

ECONOMY MUST RULE FOR SOME TIME

Youthful Consort of Jersey Lily is Disinherited, Though He Will Eventually Come Into His Patrimony.

(Copyright, 1899, by Press Publishing Co.) LONDON, Aug. 15.—(New York World Telegram—Special Telegram.)—The secret of Mrs. Langtry's wedding with young Hugo de Bathe, who is only 28 years old, was so well kept that the happy couple had to give it out themselves today in self-defense, as their journey to the Carlton hotel the last four days was exciting much gossip.

Old General de Bathe, father of the bridegroom, disinherited his son in favor of his second brother, though Hugo must in due course of time get the baronetcy and Langtry will finish up as Lady de Bathe. Her husband is left with a young Sir Robert Peel, the fresh sincerity of De Bathe's passion awakened a responsive note in the Jersey Lily. His people never fancied his father's intention a week before.

De Bathe has been paying his addresses for some months. He was desperately in love with the young Sir Robert Peel, the fresh sincerity of De Bathe's passion awakened a responsive note in the Jersey Lily. His people never fancied his father's intention a week before.

SAMOAN COMMISSIONER'S REPORT

Abstract of Its Conclusions Appears in Koloische Zeitung at Berlin.

BERLIN, Aug. 15.—The Koloische Zeitung publishes what is described as the substance of the report of the Samoan commission.

According to this abstract the future government of the Samoan islands is to consist of a governor and a council of three members to be elected by the three powers, Germany, the United States and Great Britain. The commission favor the nomination of a native ruler as governor. The governor will appoint all officials and have power to punish or pardon state offenders.

His signature will be necessary in the enactment of laws. The legislature will consist of the governor and council, three members to be elected by the three powers, Germany, the United States and Great Britain. The governor will annually convene an assembly of natives to deal with domestic affairs.

This body will sit at Mullohu, but not longer than the month of January. The chief justice will be a native. The chief justice will be a native. The chief justice will be a native.

The high court of justice will have cognizance in the first and final instance of all questions of law. The chief justice will be a native. The chief justice will be a native.

COUNCIL FIXES THE BLAME

Testimony is Heard Bearing on Death of Fireman from Electric Current.

REDELL AND SCHURIG OFFER GOOD ADVICE

Provisions of an Incomplete Ordinance Have Never Been Enforced—Recommendations for the Future Protection of Firemen.

The city council listened Tuesday night to different versions of the responsibility for the deaths of the four firemen in the Mercer fire from that returned by the coroner's jury. According to the instructions of the council the chief of the fire department and the city electrician made reports on the deaths and on measures to be taken to prevent the repetition of such fatalities.

While the two officers differed as to the exact circumstances of the accident, they agreed substantially in their recommendations. Chief Redell, in his report, advanced the belief that the fatalities were due to the contact of the turntable ladder with the wires of the electric lighting circuit, which were highly charged and imperfectly insulated.

His recommendations included the placing of all damaged wires underground in the business portion of the city, the purchase for Hook and Ladder company No. 1 of a modern hook and ladder with insulated handles and the enforcement of the ordinance requiring the attendance of linemen of the electric light and power companies when they stop.

Chief Redell explained that even with a hook and ladder with insulated handles the men would not be entirely safe from electric currents, for common ladders would sometimes convey electricity. He placed his main reliance on the placing of damaged wires underground. Incidentally, he called attention to the fact that the fire department was trying to get along with apparatus which had been discarded when he first entered the service and that the engines and wagons had not been painted in four years.

CONDITION OF THE WEATHER

Forecast for Nebraska—Showers Wednesday. Fair weather Thursday.

Table with 4 columns: Hour, Temperature at Omaha, Fair weather, and Thursday. Rows include 5 a.m., 8 a.m., 11 a.m., 2 p.m., 5 p.m., 8 p.m., 11 p.m.

ATTACK IS PASSING

Senator Hayward Stricken by Apoplexy is Apparently Recovering Slowly.

FAVORABLE SYMPTOMS ARE MANIFESTED

Patient Will Occupy Brownville Residence While Attack is Serious.

SEIZURE IS BEFORE DELIVERY OF SPEECH

Great Excitement Among a Large Audience at Woodmen's Picnic.

HIS FAMILY ARRIVES IN A SPECIAL TRAIN

Three Physicians Are Constantly at His Beside and Everything Possible is Being Done for the Sick Man.

BROWNVILLE, Neb., Aug. 15.—(Special Telegram.)—United States Senator M. L. Hayward was stricken by apoplexy at 11:30 a. m. today and is still very ill from its effects.

At 7 p. m. the family physician, Dr. E. M. Whitten, said: "Senator Hayward is more comfortable at present. His temperature is 100 and he is eating 22. His condition is still critical, but I think he will recover. We have some hopes of removing him home tomorrow, but it is very doubtful. As yet there are no indications of clot on the brain or paralysis, which accompany a stroke, but it is not too late for such indications to appear and paralysis may follow."

"I think the stroke is probably the result of the physical changes experienced on his recent trip to the mountains, where he found the rare air did not agree with him and he was forced to return home. I have been his physician twenty-five years and he never had a similar stroke before. He had a strong, robust constitution. This attack might have been caused by over-heating or over-exertion, mental or physical."

At 11:25 p. m. the senator was resting easily with no material change.

Day's Program Interrupted. Senator Hayward was one of the speakers billed at the Modern Woodmen picnic held at this place. There was a large crowd present and Senator Hayward was seated on the platform chatting pleasantly with friends. He was not complaining of any indisposition and appeared to be in good health and spirits.

The time had arrived just after 11 a. m. for him to deliver his address and he was just on the point of rising from his seat when he was seen to grasp as if seeking for support and then fall to the platform. As the large audience realized that something serious had happened to him there was great excitement, but there were some cool heads among those present who realized that something must be done quickly.

Dr. Gaitner and Crane, who were present, made their way to the stricken man. Under their instructions the Woodmen formed a line around the place where he lay to keep the crowd from surging in and shutting out the air, and the doctors themselves set to work to revive Mr. Hayward. This proved a most difficult task and it was almost two hours before the patient showed any decided signs of reviving consciousness.

Patent Efforts Rewarded. Shortly after 2 o'clock he had revived sufficiently to be able to talk some and the doctors had strong hopes of the senator's ultimate recovery. He was removed to a place where he could have better care and made as comfortable as possible under the circumstances.

In the meantime the family of Senator Hayward had been notified and a special train from Nebraska City brought his wife, his son, Captain William Hayward, and the family to Brownville. On the arrival of the train a consultation of physicians was held and it was the opinion that while the condition of the senator was serious there were good grounds for hope of his ultimate recovery.

He was able to converse briefly, and in answer to a question as to his desire that he be removed to his home in Nebraska City, and it was the opinion of the physicians that this could safely be done by evening and arrangements to that effect were made.

Later in the afternoon more unfavorable symptoms manifested themselves and it was decided to abandon the attempt to remove him. He is at the home of Richard Opelt and is as comfortably situated as he could be if at his own residence. While the senator had not relapsed into unconsciousness, at a late hour this afternoon he was decidedly weaker.

The doctors did not abandon hope of his recovery, but admitted that their patient was in a most precarious condition and not strong enough to withstand a serious relapse. All three of the doctors are constantly at his bedside, and everything that can be done for him.

Patent is Recovering. NEBRASKA CITY, Aug. 15.—(Special Telegram.)—A bulletin from Brownville received at 8 p. m. states that Senator Hayward is resting easily and is believed to be out of danger. He has full control of his mental faculties and appears to be gradually recovering from the effect of the paralytic stroke. His wife and Dr. Whitten of this city are at his bedside. If he is thought able to stand the trip he will be brought home tomorrow morning.

Senator Hayward suffered a similar attack while in Wyoming last week, which was brought on by ascending to too great an altitude in the mountains. He was unconscious for some time and as soon as he had partially recovered was hurried back home by his physicians. He has since complained of weakness and very reluctantly undertook the trip to Brownville today.

LINCOLN, Aug. 15.—(Special Telegram.)—Congressman Burkett left tonight for Brownville to be present at the bedside of Senator Hayward. The news of Senator Hayward's sudden illness was received here with many expressions of regret.

Strikers to Return to Work. CHICAGO, Aug. 15.—After an enforced idleness of three weeks all the South Side brick yards will resume work tomorrow in accordance with an agreement drawn up today between representatives of the manufacturers and a committee from the strikers. The workmen secure no new concessions and return to work under precisely the same conditions that they left. White President Carroll of the Building Trades council will not concede that the strike was lost or that he is unable to mention any material gain.

IBK Money for Dewey Reception. NEW YORK, Aug. 15.—The resolution appropriating \$150,000 for the Dewey reception was passed by the board of Aldermen by a vote of 53 to 2.

ROLL OF BILLS TAKES WINGS

Woman Entrusts Companion with Eleven Hundred Dollars and Returns to Find Him Flown.

C. L. Howard and wife of Denver registered at one of the prominent hotels of Omaha August 10. The next morning the woman left the city for a visit to Iowa. The man claimed to have received a telegram calling him away and he left with his valuables stored in the safe and that was the last seen of him.

Last Friday the woman appeared at the hotel and asked for her husband. He was not there and she was unable to find him. Then she went to the police and told a tale of woe. She said she had been married to Howard for three years and they were living in Omaha, N. Y., where she saw an advertisement in a newspaper stating that Mr. Howard wanted to hire a housekeeper. She was not living with her husband, who is a wealthy man, and she decided to apply for the position.

She was accepted at once and began her duties. Later on Mr. Howard began to pay her some attention and he proposed marriage. She was willing. He suggested they go out to Dakota where she could get a divorce. They started on the trip west and were known as Mr. and Mrs. Howard wherever they stopped.

When they arrived at Cleveland, O., she told Howard that as long as they were to be married, she might as well give him her money and jewels to care for, so she gave him \$1,100 and a quantity of jewelry. When they arrived in Omaha she said she would go over to Elliot, Ia., to visit with some friends and later join her husband here so on their way to Dakota. But when she came back Mr. Howard had flown and the woman is out her money and jewels.

Detectives were put on the trail, but the fugitive had made his escape and has not since been heard from.

MORE WHITECAP OUTRAGES

Governor Mcweeney of South Carolina is Appointed To Assist in Suppressing Them.

ATLANTA, Ga., Aug. 15.—A special to the Atlanta Journal from Greenwood, S. C., says: The sheriff of this county, Dr. Williams, Governor Mcweeney for aid to assist him in suppressing whitecap outrages, which began here a week ago. Tonight the governor sent word that he would be in Greenwood tomorrow with Attorney General Bellinger to make a personal investigation of the situation.

For more than a week a gang of so-called whitecaps have been whipping negroes nearly every night. The section is largely tenanted by negroes, who rent from white people.

Monday night a week ago the whipping began. Negroes who were visited and the inmates taken out and beaten. Several nights last week this was repeated and a wide territory has been covered in this manner by the whitecappers. The negroes are said to be in a state of terror and many spend the nights in the woods and the camps. Negroes seek the protection of their white landlords, but they are not allowed to enter the night in Greenwood and none of them have returned.

The negroes are afraid to give information and certain white men have been threatened if they take action against the whitecappers. Senator Tillman and Congressman Lattimer of this district are both here attending the wheat growers convention and it is believed they will assist the governor in his investigation.

MOST UNIQUE EXPERIMENT

Hudson City, Ala., to Be Populated and Governed Entirely by Negroes.

BIRMINGHAM, Ala., Aug. 15.—A special to the Age-Herald from Anniston, Ala., says: By a vote of 99 per cent of the registered voters, Hudson City decided today to be the most unique city in the United States, in that it will be the only exclusively negro town in the country. Today's election was by the order of the probate court to decide whether or not the town should be incorporated. Incorporation was carried unanimously, the only vote being cast against it. The town is located three miles from Anniston and has 400 population, all negroes, and contains 100 houses, three churches, a school house, several stores and no saloon. At today's election the entire town turned out, men, women and children, and they voted right and not a drop of whiskey or the least disorder was in evidence. Following the incorporation will be the most unique experiment in town government ever made in Alabama. Within five days the municipal election will be ordered and the negroes will select city officials, everyone of whom will be colored.

FAMOUS ORATORS TO COME

Chicago Religious Fall Festivities Will Be Notable in Many Particulars.

CHICAGO, Aug. 15.—Bishop Samuel Fallows of the committee on religious exercises of the Chicago fall festival stated today at a meeting of the general committee of the festival that if plans he had formed were carried out the world's most famous pulpiter orators will preach in Chicago on October 8, when the festival will close.

Famous churchmen from every state in the union, as well as from Europe, will be invited to come. According to the plan already received from a number of noted preachers of both Protestant and Catholic movements of Ocean Yards, Aug. 15. New York—Arrived—Noordland, from Antwerp; Prinz Regent Luitpold, from Bremen; Kaiser Wilhelm Der Grosse, from Bremen; via Cherbourg and Southampton; Cyprie, for Liverpool; Servia, for Liverpool.

Boulogne—Arrived—Maasdam, for Rotterdam; via Cherbourg and Southampton; Liverpool—Sailed—Aurania, for New York.

DEWEY FEELS MUCH BETTER

His Staff Officers Receive Callers for Him Yesterday Afternoon at Livorno.

(Copyright, 1899, by Press Publishing Co.) LIVORNO, Aug. 15.—(New York World Telegram—Special Telegram.)—The governor, mayor and general staff of the city of Livorno returned calls this afternoon, Captain Lambertson and Flag Lieutenant Brumby receiving in place of Admiral Dewey, who, although indisposed yesterday, but much better today, but did not rise till late.

LEGHORN, Aug. 15.—(New York World Telegram—Special Telegram.)—The Olympia leaves Monday evening next and arrives at Nice on Tuesday morning.

DROUGHT IS BROKEN

BOMBAY, Aug. 15.—Rain has fallen in many districts of the dependency of Bombay, but the crop prospects are far from satisfactory. The crops are withered and the transpiration of the soil is rapid. Some districts have received practically no rain, and the cultivators are selling their cattle at two rupees each.

ANOTHER AMERICAN FIRM FAVORED

GIASGOW, Aug.
