**5c, 7 1/2c and 15c yard**

## GANG HUSTLING FOR SCOTT

Fanning, Moise and Company Still Working to Effect His Nomination.

## CONTEST PROMISED FROM SOUTH OMAHA

Charges that Enzor Won His Fight by Louisiana Methods—Would Not Let the Opposition Vote.

Judging by the expressions of Omaha democrats the principal business to be settled by their county convention Monday is to decide whether the party is to be content with Charles Fanning's judicial aspirations. There seems to be no controversy in regard to the policy of the Douglas county delegation in reference to the other places on the judicial ticket, and Scott's candidacy is about the only question that is discussed by the prospective delegates and party leaders.

As the complexion of the delegate convention now appears it seems certain that the question whether a judicial delegation favorable to Scott shall be selected will be bitterly contested. On the face of the returns a majority of the delegates are opposed to him, but to offset this the gang has the advantage of being able to utilize all the pressure the state house administration can bring to bear and it is anticipated that Charles Fanning, Walter Moise and the other members of Scott's steering committee will be supplied with all the money that can be used to bring reluctant delegates into line. The barrel is said to be located in a local department store favored by Scott.

## HOLD AN OPEN AIR MEETING

Gathering of the First Ward Republicans Under the Canopy of Heaven Proves Most Satisfactory.

The Young Men's Republican club of the First ward held a rousing meeting last night in Kessler's garden, Sixth and Woolworth streets. The innovation of holding the meeting in the open air was a most satisfactory one. Speeches were made by Hon. Lee Estelle, republican candidate for the judicial bench, John Butler, Ernest Saut, Dr. W. H. Hanchett, A. E. Walkup, Peter Back, C. C. Kenworthy and Samuel Scott, and all enthusiastically endorsed the candidacy of Charles Elgutter for the republican nomination for county judge. Mr. Elgutter also addressed the meeting. John Holt, candidate from the Fifth ward for county commissioner, was one of the speakers, and said that he was in the ring for the nomination notwithstanding the fight being waged against him. He stated that last spring when the Fifth ward club was organized the executive committee endorsed his candidacy for the commission, but that now, owing to opposition, there was a disposition to throw him overboard. Mr. Holt said that he now had on his fighting clothes and by the aid of Providence and the republicans of Douglas county he intended to fight for his political aspirations.

## BIG MEETING IN THE NINTH

Republicans of the Ward Reorganized for a Vigorous Campaign.

That the republicans of the Ninth ward are not lacking in interest in the pending campaign was indicated by the big crowd that turned out at the meeting of the ward club last night. The meeting was for the purpose of reorganization for the campaign and the hall was filled to the doors. There was a lively but good-natured fight over the selection of a president, and H. P. Stoddard was elected against S. C. Huntington, the retiring president, by forty-five to thirty-five votes. The other officers elected were George C. Thompson, vice president; C. F. Robertson, secretary, and Jonathan Edwards, treasurer. Short addresses were made by D. M. Vinhaber of the Fourth ward, candidate for county judge, and by Fred B. Bryant and Charley Unit of the Ninth, who want the support of the ward for county treasurer and sheriff respectively.

## DUN'S REVIEW OF BUSINESS

Work Delayed in Cramp's Shipyard Because There is a Lack of Steel.

## GREAT EXPANSION OF THE HOME DEMAND

Prices of Cotton Goods Are Rising—Wheat Advances About 1 Cent During the Week—Corn Firm—Failures for the Week.

NEW YORK, Aug. 18.—R. G. Dun's Weekly Review of Trade will say tomorrow: This advance has proved in the industrial and specialties. The week began with a break in American steel and wire, caused by the fact that a synopsis of the statement presented by the company to the stock exchange did not come up to anticipations as to earnings. On the other hand, Tennessee Coal developed great strength and rose to 2 1/2 on manipulation, together with reports that the bank dividends on the preferred stock are to be adjusted and the common placed on a dividend-paying basis. American common selling up to 126 and Continental Tobacco common to 50 1/2 on the statement that the two concerns had agreed on manufacturing together with reports of strength, which, however, they did not retain.

whole, although for what it is somewhat smaller than appeared in July. Failures for the week have been in the United States 156, against 154 last year, and in Canada 24, against 17 last year.

## BRADSTREET'S FINANCIAL REVIEW.

Essential Condition of Money Market Reflected in Stock Speculation. NEW YORK, Aug. 18.—Bradstreet's Financial Review tomorrow will say:

A somewhat easier condition of the money market has been reflected in stock speculation by the prevalence of a moderately bullish sentiment. The trading has been narrow and professionals are still mainly responsible for the activity. The bears have shown some aggressiveness, particularly in connection with traction stocks, while bullish tendencies have been most conspicuous in the low priced railroad shares or certain industrial.

London has not been a factor, though the financial situation there has improved, the Bank of England showing a good increase in cash and reserves. The Berlin money market, on the other hand, is undergoing another slight disturbance in interest rates, which has been caused by the fact that the German government has issued a new loan of 100 million marks.

The weakness of the exchange market and the irregularity has prevailed in the industrial and specialties. The week began with a break in American steel and wire, caused by the fact that a synopsis of the statement presented by the company to the stock exchange did not come up to anticipations as to earnings. On the other hand, Tennessee Coal developed great strength and rose to 2 1/2 on manipulation, together with reports that the bank dividends on the preferred stock are to be adjusted and the common placed on a dividend-paying basis.

American common selling up to 126 and Continental Tobacco common to 50 1/2 on the statement that the two concerns had agreed on manufacturing together with reports of strength, which, however, they did not retain. American Smelter was higher on the report that the strike at their Colorado establishments had been settled. Brooklyn Rapid Transit was a feature, breaking to 10 1/2 on the statements that there were dissensions in the management. The president, Mr. Rossett was to resign in consequence of the results of his course during the strike and that the current net earnings were decidedly adverse to an assumption about side dividends. The decline support was forthcoming and prices rallied to 11 1/2.

Consolidated Ice, an inactive industrial, distinguished itself on Wednesday by making a 1 1/2 point decline, from which it rallied when support appeared. Sugar was more than usually irregular, falling from 14 to 15 1/2 and rallying only to sell off again.

## BRADSTREET'S REVIEW OF TRADE.

Situation is Gathering Strength as the Summer Wanes. NEW YORK, Aug. 18.—Bradstreet's tomorrow will say:

The trade situation gathers strength as summer wanes. Reports of expanding fall demand arrive, accompanied by very cheerful advice as to the outlook in most parts of the country. In manufacturing lines production appears to be at a maximum and the price situation remains most of its old strength. Notable in the matter of added strength are most of the cereals and iron and steel in many forms.

The impetus given to wheat prices by the government report of last week has been further reinforced by less favorable crop advices from other countries, notably India,

the strongest dog, and from this year have argued its terrific effects on the body of a human being. While this statement is undoubtedly true, it is somewhat misleading. In order to commit suicide by smoking, the dog would have to consume 400 strong cigars one right after the other. He could put himself out of the world much more easily by eating the pills.

Whatever the ill effects of tobacco when used to excess, in moderation it acts on an adult as a tonic and stimulant. It is claimed that after the thirtieth year its use prolongs life and preserves the mind by lessening the bodily functions of waste and repair.

Experts say that for smoking, tobacco is one of the least injurious substances known. Compared with other well known vegetable substances used for the same purpose, tobacco is very mild. Opium, without doubt, is most fearful in its effects, for the drunkenness it produces ultimately unbalances the mind. Next to opium in power are certain kinds of grasses, notable among which is hemp, which causes intoxication and anaesthesia.

## MADE MILLIONS IN THREE YEARS.

Fortunate Investment of a Hundred Dollars Brought Great Wealth.

"At the Hotel Imperial is a man who has become rich in mining speculations in Washington within the last three years, reports the New York Tribune. His name is James Clark. He told the story of how he did it. "A little more than three years ago," said Mr. Clark, "I was the manager of the War Eagle mine, near Rollin, B. C. I had always had the idea that there was plenty of gold in the Comwall reservation in Washington state, and one day I decided to make an investigation. I gave two of my workmen \$50 each and started them out prospecting. A hundred dollars was a large sum with me then, but it made me a rich man and it made the prospectors rich men too. They discovered gold in large quantities and I immediately organized the Republic Gold Mine Milling company. There were 1,000,000 shares of stock. The two prospectors and I had a fourth interest each. The same day of the shares we disposed of at 10 cents a share, although we had a hard time doing it. When operations were finally begun we had splendid success. Three months ago we sold 300,000 shares of stock to a Montreal syndicate for \$5,000,000. We now have a cyanide plant and all the modern improvements and the stock is worth \$4.50 a share. In addition to the Republic mine, my investment gave me a fourth interest in the Lone Pine, Surprise and Peril mines, in the same district, all of which pay very well and have glorious futures.

"That \$100 was the best investment I ever made in my life. Mining is a fine thing when you have luck. It is literally 'finding money,' and you usually find it in large hunks, too, when you find it at all. There are mighty few businesses nowadays which will enable a man to make a fortune in three months. Beyond all doubt, Washington state is fabulously rich in mineral deposits. Mining has become the mainstay of the state and agriculture has been compelled to take a back seat."

## BUCKLEN'S ARNICA SALVE.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Kuhn & Co.

## COUNTY FOUR HOUSE BURNS.

BIG RAIDS. Brock, Aug. 18.—The county poor house at Stanwood was burned last night. The fire started in the insane ward. Adolph Murrin was burned to death. Many of the forty inmates of the main building narrowly escaped.

Irritating stings, bites, scratches, wounds and cuts soothed and healed by DeWitt's HAZEL SALVE—a sure and safe application for tortured flesh—Beware of counterfeits.

It has often been quoted that a grain of nicotine, administered all at once, would kill
