A deadly quiet has settled over Omaha unfortunates who, because of stress of business or other equally embarassing conditions, are compelled to endure the "dog days" of August at home, spend their evenings in the cool and beauty of the exposition grounds. Teas and dinner parties with the requisite etiff collar and dress suit hold no alluring charms. In a few plain for the entertainment of the "strangers within her gates."

Recipe for a Summer Vacation. A picnic or two, A trolley ride, railroad trip.

A railroad trip,
A country drive,
Mix well with dust and summer fun,
Add languor, humor, ice and fun,
Verandas, moonlight, a bicycle run,
With pretty phrases, dilute to taste
This heavy compound, but do not waste
The palling sweets in its adorning;

A rather ridiculous society article in to-day's World-Herald speaks of a \$250 sealskin jacket that some society woman might wear this winter that should be worn by some woman not in society. It makes no difference who the woman may be, the greatest number of White Russian soap wrappers secures the valuable prizes. And the \$250 seal jacket, made-to-measure, fit guaranteed, goes to the woman having the largest number of wrappers to her credit, but they must be wrappers from the best soap made-White Russian-remember that.

### SOUTH OMAHA NEWS.

The scandals incident to the recent democratic primaries has called attention to the new law governing the holding of primaries which go into effect after the next regular registration of voters. This law was framed by Senator Van Dusen and is intended to protect primary elections and also to punish offenses committed thereat. All persons who are legal voters shall have the right under this law to participate in primary elections, but shall be subject to

such political qualifications as may be prescribed by law or laid down by the committee. In order that none but those affiliating with and being members of any political party shall participate in any primary election a system for the registration of such persons has been provided. Supervisors of registration will note in books to be provided for the purpose the political party which the applicant for registration affiliates with. In this way it is hoped that the packing of primaries may be obviated, at least to a great extent. In all primary elections held under this act the officers for each election district shall consist of two judges and one clerk and their duties and responsibilities eight weeks' visit in Kansas City and Ex- shall be precisely the same as those legally appointed and regularly qualified officers of regular state elections. These primary offimercantile agency of Lincoln, is spending | cers are to be appointed by resolution passed by a majority vote of the members of the regularly organized and constituted committee or governing authority of the political party holding such primary election. Before entering upon their duties these judges and clerks shall be required to take the same oath required to be taken by officers of regular state elections. Officers for primary elections must be selected at least ten days before primary elections are held. The provisions of this law apply to all primary elections held for the purpose of

nominating candidates for state, county, district or municipal officers. As the regular registration must first be made before this law goes into effect the first opportunity given to work under the new provisions will be next spring, when a mayor, city treasurer, city clerk, police judge and four members of the council are to be elected.

Complaints About Salvation Army. Complaints are frequently made by busiless men about the Salvation army meetings which are held at the corner of Twentyfourth and N streets. The meetings tract a crowd and the street is blocked clear out to the car track, leaving no room for vehicles to pass. Yesterday Chief of Police Carroll stated that hereafter he proposed to confine these meetings to etreets on which there are no car tracks. Captain Mr. Rush is now serving his sec- Roshan of the local corps is to be requested to stop holding meetings on the corner mentioned and if he complies with the request all will be well, but if he does not Chief Carroll says that he will then be compelled to take steps to see that he does. Business men object to the crowds blocking the sidewalks, streets and doorways for an hour or more every evening and several complaints have been made to the police about the matter.

Farmers' Telephone Company. Thomas E. Parmelee, vice precident, and T. H. Pollock, general manager of the Plattsouth Telephone company, called on General Manager Kenyon of the Stock Yards company yesterday in reference to extending the lines of their company to the Ex dies, the rose, the pansy, the marguerite change building. It was stated that this ompany is erecting lines for the benefit of the farmers in Case and Sarpy counties and an office at the live stock exchange is greatly desired, as it will give the country people an opportunity of keeping in close ouch with the market. Mr. Parmelee also explained to Mr. Kenyon that his company had connections in Iowa and Misseuri. No arrangements for the opening of an office were made, as the Plattsmouth company has no franchise to enter the city or string wires along the streets or alleys.
