Judge Macy of Harlan was in the city resterday on his way to Audubon, where e goes to try some cases for Judge Green. Judge Macy will preside over the August term of district court here, which opens Tuesday of next week. The civil and criminal calendar promises to be unusually heavy. On the civil docket there are a large number of divorce cases and there are over thirty cases to be presented to the

Mike McGrail, the "gintleman with brogue" arrested Saturday night for creating a disturbance in a Broadway restaurant, was up before Acting Police Judge Vien yesterday morning. Mike proved to the satisfaction of the court that he did not know the difference between a sirloin and an ordinary steak and that the reason of his refusal to pay for the higher priced arti-cle was because he thought the waiter was trying to fleece him. The court discharged

Some evilly disposed person is playing havoc with Fred Lamb's coffection of animals and birds at Fairmont park. Saturday night one of his wild geese was killed by being knocked on the head, and Sunday night a big Muscovy duck that had been in the park for five years, was treated in a similar manner. One night last week the cage in which the wolf was kept was cage in which the wolf was kept was broken open and the animal set at liberty. Mr. Wolf is thought to have made for some corn field, as he has not been seen or heard of since. Lamb is ve Lamb is very much worried over

When the case of William Brooks and Elmer Sayles, charged with vagrancy, was called in police court yesterday, the prose-cuting witness, Officer Callaghan, who made the arrest, was not on hand. He was pa-trolling his beat and he was notified by telephone to appear in court. Justice Vien declined to wait, however, and discharged the defendants. The police feel much chagrined over the action of Justice Vien as five minutes after he was notified the officer was in court. Brooks and Sayles have engaged an attorney and deny that they are vagrants. They threaten to bring suit against Officer Callaghan and his pondsmen for alleged false arrest.

The "friendly proceedings" against the ten barbers who kept their shops open on Sunday were tried before Justice Vien yes-Sunday were tried before Justice Vien yesterday morning with the result that an acquittal was had in each case. The costs amounting to \$5.85 in each case were taxed up to the county. The fight among the barbers over Sunday closing has now cost the tax payers several hundred dollars, and the end is said to be as far off as ever. "Friendly" informations charging Fred Klepfer, a barber at the Metropofitian hotel, with keeping his shop open on July 16, 23 and 30, and August 6, were filed in Justice Vien's court yesterday morning. The hearing in the four cases is set for Thursday.

Graves, lower grades; Josephine M. Shea, higher grades. Gunn School—Lizzie Bohn. Woodbury School—Annie DeGroat. Clark School—Laura McFadden.

The report of the finance committee on teachers' salaries presented by Chairman Stewart recommended a reduction in the remuneration of the principals. The report in part was follows:

Your committee has made no change the salaries of last year of any of the teachers, excepting a few instances, other than that provided by the established rule

"It has been the practice of the board to pay the principals of schools an additional salary; the amount of such addition has been ascertained as your committee under stands it, by the following rule: Five dol-

first two rooms of a building, and a dollar per room additional as compensation more than the regular tacker.

than the regular teacher. "This rule was established before the practice obtained of furnishing a substitute for the different principals for one half day, permitting the principal to de vote the other half day to the matter of visiting the rooms of her building and examining reports, etc.

"Under the rule, such teacher would no be entitled to full pay as teacher, would be entitled to one-half pay as teacher, and full pay as a principal. Thus the district is paying in the case of six-room buildings, \$41.50 for the services of the prin cipal only, and in such instances your committee has allowed in this report the principal full pay as teacher, but has allowed nothing additional as compensation for acting as principal. And in the case of a six-room building, the salary, instead of being

"Your committee is unalterably opposed to such a multiplicity of teachers in small buildings. It would take a strong argument to convince it that this is not a useless extravagance of the people's money and no benefit whatever to the pupil. In fact a number of complaints have been presented to committee from parents, based on the fact that their children are furnished one teacher one-half of the time and another the other half the time, which they deem unprofitable and unadvisable in the case of young children. The committee believes in day in these small buildings for the princi- \$1,000,000. pal to do nothing other than act as principal of those buildings, your committee feels this depot-the Illinois Central, the Sloux that it has been more than just when it City & Northern and the Pacific Short line. places the salary at full pay as teacher, as | The other roads have their own depots in if they had taught the full day.

"Your committee has reduced the salary in one or two instances as compared with last year, as the teacher was evidently by some oversight, drawing more salary than the rule allowed.

"Your committee has no recommendation whatever to make as to the salary of the supervisor of grounds and buildings as it is of the opinion that this office has the virtue of ornament rather than that of necessity, and it is in favor of abolishing the office entirely. If the wisdom of the board should not concur in this view, the committee prefers the board should fix the amount round-house and on reaching Avenue G of the salary that will be attached to the stepped off. He failed to notice another enoffice.

"The salary of the janitors are left the same as they were last year, with the exception that your committee has added \$5 per month to the Twentieth Avenue salary, making it \$70 instead of \$65. This is a very large building and there will be two sessions of kindergarten in it, and your committee believes that it is just to this janftor to raise the salary to that amount, as it only equals the salary of the janitors of buildings of like size and fixed at \$70." President Sims opposed the reduction of

the salaries of the principals, but a motion to restore them to the same amount as paid last year was lost and that portion of the committee's report adopted. Member Cooper, of the finance committee, moved that the position of assistant to the principal be abolished, but on being put to the vote he failed to carry his point. Stewart followed up his report of the

finance committee with a motion that the office of supervisor of buildings and grounds be abolished, but the majority o fthe board was against him and the motion was lost. Several changes in the report as to salaries were made before it was finally adopted, among the principal changes being the raising of the salary of Miss Boesche o fthe high school faculty from \$70 to \$80. The committee had raised it from \$70 to \$75. A motion on the part of Member Moore to raise it to \$90 failed to carry. The recommendation of the committee that the salary of Professor Thomas of the high school faculty be raised from \$85 to \$100 was unani-

mously concurred in. On recommendation of the teachers' committee the following were elected teachers: Miss Nellie Hepford, Miss Mable Robinson, Miss Edyth Thomas, Miss Laura Mc-Fadden and Miss Edith Joseph, Miss Ethel Shepard was elected directress of the kin-

dergarten department. The additional bond of Treasurer Davis signed by C. R. Hannon, J. D. Edmundson, Ernest E. Hart and John Bennett was submitted and approved. The additional bond was required by the board, owing to the sale of the new high school bonds. Treasurer Davis' original bond was in the sum

of \$100,000. Monday, September 11, was fixed as the date for the opening of the school year which will be of thirty-eight weeks with one week's vacation at Christmas and one week's vacation some time in April next. The resignation of Prof. Y. G. Barnwell of the High School faculty was received and accepted.

The bids for the supply of coal for the enuing year were opened but action was postponed until next meeting. Well's Academic Arithmetic and Keeler & Davis' Studies in English Composition

were adopted for use in the high school on recommendation of the committee on text Member Cooper reported that Contractor Wind was unable to get the material for the new school at Cut Off on the ground owing to the site chosen being surrounded water. The board decided to go over the

ground this afternoon with a view to selecting some other site if possible. T. A. Brewick was elected supervisor of grounds and buildings on the eighth ballot, the other candidates being E. R. Fonda, the present incumbent and L. R. Joseph. His salary was fixed at \$50 per month.

DEATH OF MRS. MARY J. HAWORTH.

Funeral to Be Held Tomorrow Afternoon from Family Residence. Mrs. Mary J. Haworth, wife of E. H. Haworth, died yesterday morning at her home. 1018 Fourth avenue, aged 45 years. She had been alling for several months, but her about ten days ago. Besides her husband, a son, George D., and two daughters, Mrs. Lena Matthews and Miss Nellie Haworth, are left to mourn her loss. The son is now in the Philippines serving with Company L. Fifty-first Iowa.

The funeral will be held Wednesday afternoon at 4 o'clock from the family residence. Rev. George Edward Walk, rector of St. Paul's Episcopal church, will conduct the services and interment will be in Fairview cemetery. Mrs. Haworth was born in Circleville, O.

and was married to Mr. Haworth July 15, 1880, at Adelphi, O. She had been a resident of this city since January, 1883. Mrs. Haworth was a member of Harmony Chap-ter No. 25, Order of Eastern Star.

CURE SICK HEADACHE.

Business Portion of Colorado City is Utterly Destroyed.

LOSS ESTIMATED AT TWO MILLION DOLLARS

Violent Wind and Dry Timber Render Work of Firemen Fruitless-Dynamite is Used to Clear

Path in Front of Flames,

CRIPPLE CREEK, Colo., Aug. 21.-Fire has utterly destroyed the business portion of the city of Victor, causing a loss estimated at \$2,000,000. Beginning shortly after noon, the fire raged until evening, consum ing everything in its way. It had its origin, it is thought, in the Merchants' cafe, adjoining the Bank of Victor on the corner of Third street and Victor avenue. A strong wind from the south fanned the flames and in a few minutes all the surrounding houses were afire.

Help was summoned from Cripple Creek, but the town had been built in the early days of the camp and was of pine timber for the most part and burned like tinder. Efforts were made to stop the progress of the flames by blowing up buildings in their path by means of dynamite, and all afternoon the hills have echoed with the explosions, but the effort was in vain.

The fire claimed the Bank of Victor, the postoffice on the corner of the street, crossed Third street and followed the row of blocks between Third and Fourth streets to the north, taking the Victor Banking company, the Western Union Telegraph company's office and the office of the Colorado Telephone company, the Hotel Victor on the opposite side of Fourth street and the three great shaft houses of the Gold Coin Mining company and its ore bins, among the largest in the Cripple Creek district.

From there the flames were swept northward by the half hurricane which was blowing and never stopped until they had taken the entire Florence & Cripple Creek depot and the fine new depot of the Midland Terminal road at the head of Fourth street. All the buildings between these are a total loss the flames were so rapid in their progress that nothing could be saved.

Flight of the Citizens. The scenes of the great Cripple Creek con-

flagration were duplicated. Hurrying before the roaring flames went men, women and children, carrying what they could snatch from the flames, racing for their lives. The crash o fbuildings torn asunder by dynamite and the crackle of the flames as they consumed the dry buildings hastened their flight and the pall of smoke added a terror to the spectacle. A special train was placed at the command of the city by the Florence & Cripple Creek railroad, and three companies of firemen, with apparatus, were rushed to the scene. They worked all afternoon in a vain endeavor to stay the march of the flames.

The residence portion of the city has suffered comparatively little, but the business portion is paralyzed and suffering is bound to follow. The burned area may be thoroughly designated as the space between the head of North street and Victor avenue, extending from the Gold Coin mine buildings on the west to a point near Second street and down Third street almost to Diamond wenue. It is thought at this hour (6 p. m.) that the fire can be prevented from spreading any farther. The loss has now reached

The first house was built in Victor in October, 1893. In July of the following year the city was incorporated, and six years later it contained 10,000 people. That is about the population now.

HARD COAL \$5 TON COLE'S ORIGINAL HOT BLAST

With 14 tons of \$4.00 soft coal or \$5.00 worth of fuel will duplicate the CLEANLINESS, EVEN HEAT, BASE HEAT and FIRE HOLDING QUALITIES of any hard 205 retailed in city of Council Bluffs last year.

I used a No. 180 Blast this winter. Burned 5½ tons of soft coal in heater and cook stove and didn't use over half of it in heater. Fire has not been out since last fall and grates have not been cleaned. Have always used a No. 7 base burner before and burned about three tons of hard coal and two and a half tons Rock Borings coal to do the same work. Heated four rooms and open hallway. Can hold a steady, even heat; rooms and paper just as clean as with my Radiant Home. The lowest temperature I had in the morning last winter was 58 degrees. winter was 58 degrees, G. A. HARDY, 708 Seventh St.

COLE & COLE.

Council Bluffs, Ia.

Men who go out fishing in an open boat in the midst of a blinding storm and enjoy it, must be strong and healthy and are pretty sure to live to a ripe old age. Unfortunately, the rush and hurry of modern business life will not permit the average man to take frequent outdoor exercise.

In lieu of a life spent partly in the woods and on the water a man must find some and on the water, a man must find some kind of medicine to tone up and invigorate him and incite the vital organs of his body to the faithful performance of their normal functions. Dr. Pierce's Golden Medical Discovery is the only thoroughly effective medicine for this purpose. Its principal action is upon the organs that feed the blood, the stomach, the large intestines and the liver. It facilitates the flow of the digestive juices in the stomach and the production of healthy chyle in large quantities in the large intestines. It invigorates the liver and purifies and enriches the blood. When the blood is rich and pure the old, inert tissues throughout the body are torn down and replaced by new and him and incite the vital organs of his body are torn down and replaced by new and healthy flesh tissues and nerve fibers. If a man's blood is filled with the rich, pure elements of health, he can get along with a scanty amount of exercise. Disease germs can gain no foothold in his system.

can gain no foothold in his system.

"I had catarrh for several years and then the grip and also had a hemorrhage from the lungs," writes Mr. T. J. F. Brown, of Sands, Watanga Co., N. C. "I had the best medical attention, but it could bring only partial relief. I had more hemorrhages. I took twenty-five or thirty bottles of medicines, but continued to have spells of bleeding. I commenced taking Dr. Fierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I used eight bottles and have been able to do any kind of labor for more than twelve months. I owe my life to Dr. Pierce's medicines."
