COMMERCIAL AND FINANCIAL

September Liquidation the Feature of Wheat Trading Yesterday.

16

RAINS IN NORTHWEST ALARM THE SHORTS

Corn is Weak, Especially for Septem-

ber-Oats Firm, Considering the Decline in Other Grains-Provisions Very Dull.

CHICAGO, Aug. 22 .- September liquidation was the feature of wheat trading to-It was heavy enough to cause a deof %c at one time. Renewed rains in the northwest alarmed shorts and resulted in the recovery of all but %c of the feeline. December was firmer and closed Sac higher, Country liquidation cut %c off the price of corn. Oats held up well and closed about %c higher. Provisions made unimportant changes both ways.

Some weakness was shown at the opening in wheat. Both the September and December options opened about %c lower and showed a declining tendency. The weakness was not so much the result of bear news as of the general apathy of trading. Speculators appeared to be in the market more from a sense of duty than from the hope of securing profits or saving losses, and the first half hour's trading was re-markably smail. Then a pronounced Sen-tember liquidation movement set in, which lasted well into the afternoon, and which resulted in widening the spread between the September and December optilons to 2% 60342. A good deal of the selling of Sep-tember was done by the northwest, ap-parently against liberal country receipts, and though primary receipts continued to be smaller in amount than those of last year, expectations of an increase had some effect on local speculators and broadened the liquidation. news as of the general apathy of trading

liquidation. Attention was also directed to the rela-

the Houldation. Attention was also directed to the rela-tively greater weakness of wheat at New York than here. There were some bids for cash wheat here, but prices were about Xe out of line as a rule, and little busi-mess was done. The seaboard reported only moderate engagements for export. Clearances were 750,000 bu. Minneapolls and Duluth receipts were 250 cars, against 208 last week and 574 a year ago. Chicago re-celepts were 124 cars, four of contract grade. Total primary receipts were 524,000 bu. against \$53,000 last year. During the after-moon the tone of the market changed. The September price had been forced below put figuros and the tendency to cover shorts was strengthened by reports of renewed rains in the northwest, and by foreign ad-vices that the drouth in India was worse than ever. September liquidation ceased and the market took on considerable strength late in the session, resulting in a recovery of nearly all the early loss. Brad-street's reported fifty-two loads for ex-port. This helped in the advance. Sep-tember opened at 73% 673%, c declined to 73% c and reacted to and closed at 73% c, an advance of %c. 90c@\$1.00. APPLES—Per bbl., \$2,00.

December opened at 73% 073% c. declined to 73% c and reacted to and closed at 73% c. an advance of % c.
 Corn was weak, especially so for Sep-tember, in which there was a good deal of important liquidation. Elevator people and receiving houses generally were sellers against liberal country acceptances. West-ern crop advices were favorable and local freeceptic were large, 618 cars. There was a good rally from the bottom on covering by shorts and in sympathy with the late firmness of wheat. September ranged from 20% 03142 c, and closed ½ c lower at 31% c. December closed unchanged at 23% c.
 Cats were firm, considering the decline in other grain markets and the unfavorable liberal. The cash demand, however, was good, and this was influential enough to hold the speculative market steady. Trad-fing was narrow all day. September closed ½ c to 19% 0200c. December closed ½ cligher at 19% 0200c. December closed ½ changed but little. The tendency during

OILS-Unchanged. -MOVEMENTS OF STOCKS AND BONDS.

Fierce Contests Range Between Op-

posing Speculative Interests. NEW YORK, Aug. 22-A fleres conflict raged all day today between opposing speculative interests on the Stock exchange. The industrial specialties were the chosen field of battle and the most violent contest raged about Brooklyn Transit, as has been the case for many days past. This stock showed evidence of support at the opening of the stock market and got at one time over a point above last night's clos-ing level. In face of this support and a rally in International Paper from its se-vere loss of yesterday the bears turned their attention to other stocks which seemed for the moment to offer a more vulnerable point of attack. Sugar dropped almost immediately 21 on account of the cut of the price of refined sugar by the company and the meeting of it by competing concerns. Steel and Wire favorably on the application of the listing committee of the Stock exchange to act favorably on the application of the com-pany for the admission of the stock to the listed department of the exchange. Latgr in the day Manhattan and Consolidated Gas were added to the objective points of the bears. All these stocks were so severely handied test raged about Brooklyn Transit, as has

ears,

All these stocks were so severely handled

All these stocks were so severely handled as to check very materially the disposition to buy railroad stocks, which showed itself in continued force during the early hours of the trading. Much has been hoped by the friends of Brooklyn Transit from the publication of a statement of the com-pany's finances and estimates of earning power under the recent consolidation. The statement when published proved to be obscure, and the estimates were so far from satisfactory that a perfect deluge of stocks for both accounts was poured upon the market, carrying the price down by successive stages to ½ above par, an ex-treme drop of nearly 6 points. Only the most determined support checked the de-cline at that point, enormous individual blocks being taken before the raily was ef-fected. BLUEBERRIES-Per 16-qt. case, \$1.600 p.65. PLUMS-California, per crate, \$1.35@1.50. CALIFORNIA PEACHES - Freestone,

ORANGES-Mexican oranges, \$4,5075.00, LEMONS-California fancy, \$4,2564,50; choice California, \$3,7564.00; Messina, fancy, 35.0905.20, BANANAS-Choice, crated, large stock, per bunch, \$2.5002.75; med:um-sized bunches, \$2.0002.25.

blocks being taken before the raily was effected. The stock was lifted again to 102% and closed at 102%. The demoralization in Brooklyn Transit was shared in lesser de-grees by Sugar, which dropped an extreme 5%: Manhattan, which jost at one time nearly 4 points, and Steel and Wire, com-mon and preferred. Federal Steel, People's Gas and Metropolitan Street Rallway, which declined from 1 to 2 points. The extreme weakness of the specialties was ignored for a time in the railroad list, where there were early advances in Den-ver & Rio Grande, Norfolk & Western, the Reading stocks, Baltimore & Ohio and HIDES-No. 1 green hides, 7½c; No. 2 green hides, 6½c; No. 1 saited hides, 9c; No. 2 saited hides, 8c; No. 1 veal calf, 8 to 12 lbs., 10c; No. 2 veal calf, 12 to 15 lbs., No. 3 TALLOW, GREASE, ETC .- Tallow, No.

When the orthogeneous and the second preferred, the latter rising over 2 points. The continued and violent decline in

Brooklyn Transit caused sympathetic de-pression throughout the market, earlier gains being mostly wiped out and a num-ber of standard railroad stocks, including gains being mostly wheed out and a num-ber of standard railroad stocks, including the grangers, dropping a point or over be-low last night's prices. The rate for call money rose to 4 per cent late in the day, probably not without manipulation, but quickly yielded to 36, near which it had ruled nearly all day. The final rally in Brooklyn Transit afforded relief to the whole market and losses were partly re-trieved, the most active specialties recov-ering from 1 to 2 points. There was a notable advance late in the day in the Norfolk & Western stocks after the common had reacted a point with the general list. These stocks show net gains of 2% for the common and 14 for the pre-ferred. London sold about 20,000 shares on balance in this market. The bond market was active, but changes were small and irregular. Total sales, par value, \$2,678,000. United States bonds were unchanged on bid quotations.

New York Dry Goods Market.

New York Dry Goods Market, NEW YORK, Aug. 22-DRY GOODS-Demand for staple cottons well sustained and fair business done today. Heavy brown sheetings and drills strong, sellers reserved on all leading brands. Print cloths in-active, firm; odd goods also firm and fair demand, Bleached cottons in good request. Fancy woolens and worsteds for mens wear in good demand and firm.

California Dried Fruits.

California Dried Fruits. NEW YORK, Aug. 22.—CALIFORNIA DRIED FRUITS—Quiet; evaported apples, common. 7½c; prime wire tray, 8¼@8½c; choice, 8¼@3c; fancy, 9@9½c. Prunes, 3¼@ Sc per lb, as to size and quality. Apricots, Royal, 14c; Moor Park, 14@15c. Peaches, unpeeled, 11@11½c. the light loads changed hands in good sea-son. The feeding was a little weak on heavy packing hogs, as Chicago reported a weaker market and the trading was not very active at first. The packers were a little bearish and it looked for a time as if the market would be casier on that kind. Still pack-ers evidently wanted the hogs, and when the trading was once under way the move-ment was reasonably active and the pens were cleared in good season. The prices paid were just about the same as prevalled yesterday, as will be noted from the sales given below.

Manchester Cloths and Fabrics. MANCHESTER, Aug. 22 -- Cloths and yarns firm, witht demand light. The ad-vance in Liverpool has checked business.

Populist Propounds Pertinent Query OMAHA, Aug. 21.-To the Editor of The Bee: "Did you see Walter Moise?" If all Bee: "Did you see Walter Moise?" If all of Dr. Carl Louis Perin's predictions are on iven below. It will be noted from the table of average a line with the one in which he foretold the re-election of Mr. Poynter we certainly prices above that the hogs today did not sell very much different from what they sympathize with those people who patronize

4

the doctor. Every man who takes any interest in the game of politics knows that Poynter's chances for succeeding himself are as one to infinity. He was nominated in the first place by a mere accident and was not accepted by the democrats until he assumed the role of a sycophant and went before their convention and told them that he was the son of parents born in Kentucky and was naturally opposed to prohibition. The compact entered into between Poynter and the whisky men, as far as Poynter is concerned, has been lived up to religiously. Never since Nebraska has been admitted into the union has a governor been so completely controlled by the rum element as The power, not behind, but actually in

the chair is "CoTonel" (God save the mark) Walter Moise, the king pin of the gambling and whisky element of the city f Omaha.

"Did you see Walter Moise?" This is the question put to every candi-date for a position from Douglas county by Governor Poynter., What do you religious people, you prohibitionist, you populists for principle think of a governor who is so completely in the hands of this whisky king that no applicant for given consideration unless he has the endorsement of King Alcohol Moise? I know what you think, and what is the a good farmer was spolled to make Nebraska's poorest governor up to date, and say that is saying a whole lot. When Mr. Poynter vetoed the bill appropriating \$2,000 investigate state officers and their methods of doing business, what was he afraid of? Was he afraid that the populist management of our state affairs would not stand the light of day? From recent developments it would seem that that was the conclusion reached. The idea of ("Nebraska's best governor") Mr. Holcomb putting \$21.80 per month for forty-eight months of the people's money down in his broadcloth that he was not entitled to is nothing more than you could horn & Missouri Valley. Of course I don't say that he used them, but you can Pr draw your own conclusions. 3 00 3 50 3 60 3 65 JOHN BARRETT.

Minneapolis Wheat and Flour.

United States bonds were unchanged on United States bonds were unchanged on bid quotations. The Commercial Advertiser's London financial cablegram says: The markets here were harder in tone today. Paris was tranquil and Transval developments bet-ter. Americans were fairly active, but of irregular movement, closing at the best of New York support. The features were Bal-timore & Ohlo (on Berlin buying), Denver & Rio Grande issues and Northern Pa-cific. Foreigners also rallied. Spanish 4s were 55%, Tintos 443, Anacondas 1111-16. The bank bought £150,000 gold in bars and £19,000 in German coin. Silver is still weak on American sales. The bottom is thought to have been reached. Advance in Writing Paper.

NEW YORK, Aug. 22.—It is reported that both the American Writing Paper company, the corporation recently formed by the consolidation of many writing paper concerns, and the independent mills will before long raise the price of writing paper. The coarser grades, it is understood, will be advanced 1 cent a pound and the price of the finer cent a pound and the price of the finer grades will be correspondingly raised a little later. The advance is attributed to the increased cost of raw materials.
