Season.

Henceforth visitors to the Grand Plaza, Lake Manawa, will have to be content with satisfying their thirst with "soft" drinks, as in future the resort will, under the orders of the court, have to be conducted on the temperance plan. SALARY CUT THE CAUSE OF PAIN Teachers Object to Suffering a Reduc-

The action of the Board of Education in making a general reduction of the salaries of the principals in the different schools of the city is not meeting with popular favor. The general feeling is that the principals, whose duties are manifold and arduous, were not being paid any higher salaries than they earned and that to reduce them was

poor policy on the part of the board. Those of the principals seen yesterday declined to discuss the matter beyond expressing a hope that the board would rescind its action. The salary list as fixed by Chairman Stewart of the finance committee is already causing many heartburnings and the teachers who expected but failed to receive increases which they con sidered they were entitled to are feeling hurt. The fact that one teacher in the kindergarten department was given an increase of \$10 while others in the same de-

The list as amended at the meeting Monday night shows that fifty-two teachers received increases, while fourteen, the majority of whom are principals of buildings, suffered reductions. The total increase in the salaries amounts to \$327 per month, while the decreases amount to \$107. Motor Company Misses Money.

When Cashier Brown of the motor company went to check up his accounts Monday he discovered that three sacks containing \$84.29 the receipts turned in by three conductors, were missing from the safe. The conductors coming off their runs make their returns and deposit their receipts tied up in little cacks in a chute leading to the safe in the office of the cashier. The supposition is that the chute was plugged and that the money was left within reach of the person who had planned to steal it. The theft was not reported to the police until yesterday afternoon and the officers of the company are doing a little private de tective work on their own account.

SIOUX CITY, Aug. 22.—(Special.)—The property of the Sioux City Terminal and to the Trust Company of North America, trustee, for the sum of \$1,250,000. The only other bidders were Mason, Lewis & Co. bankers and bond buyers of Chicago and Boston. This firm bid up to \$1,245,000 and then stopped. The bidding for the trust company was done by its president, Edwin S. Dixon of Philadelphia, and William Mason of Chicago of the firm of Mason, Lewis & Co. was his opponent.

Mr. Dixon said the future of the property wos uncertain, but he is of the opinion that the holders of the bonds would and operate the property to the best advantage possible.

He indicated that he understood J. J.

Hill of the Great Northern would like to have the property and had been making some steps toward its purchase. However, he said that this was only gathered from indirect sources. So it may be assumed from Mr. Dixon's remarks that the valuable terminal property is on the market, and any day Sloux City may learn of its sale to some railway company or syndicate of capitalists.

The sale of this property under foreclosure proceedings in the United States court and to be conducted by Warwick Hough of St. Louis, master in chancery, was advertised to take place at 10 o'clock this morning from the west steps of the county court house. The fact that men were to be on hand who could bid millions naturally attracted quite a crowd of sightseers.
