Demand Exceeds Supply of Bessemer Pig and Iron Product-Most Heavy Contracts Are for Next Year's Delivery.

NEW YORK, Sept. 1 .- R. G. Dun & Co.'s Weekly Review of Trade will say tomorrow: The astonishing feature is the magnitude of demand, notwithstanding prices which would ordinarily check it. In products directly consumed by individuals the larger employment and better wages of the Working force give explanation. Efforts to meet the demand call for more stores, manufactured the demand call for more stores, manufacturing works and machinery, and facilities for transportation as if every man's wages were in part diverted to build up the nation's machinery of manufacturing and distribution. The occasion promises quick profits, the building is largely for the future and it goes on in spite of unusual prices.

Demand exceeds the supply of Bessemer pig, again raising the price for that and anthracite to \$22.50, southern foundry to \$18.20 at Pittsburg, with heavy sales; gray forge to \$19, and southern at Chicago to \$20.65, with local coke at \$21. Structural shapes were advanced \$5 per ton a week ago, cut nalls 25 cents per keg this week, plates \$2 per ton, common bar iron to \$1.87% at Pittsburg and local steel 10 cents, with large Mexican orders placed for pipe and good orders for bridges at Chleago.

Few works can promise delivery before
December, and most of the heavy contracts placed have been for next year's delivery. Recent advances in boots and shoes and leather do not prevent large business and hides have slightly risen at Chicago. Ship-ments of boots and shoes from Boston were 5.7 per cent larger than in any other year to date, 14.1 per cent larger in August than in any other year and 24 per cent larger than in 1892. Buyers press for early delivery. Manufacturers refuse many orders and some already have contracts farther ahead than they wish. Leather is a little stronger with a heavy business.

Sales of wool have been modedrate, 6,

828,700 pounds for the week, and for five weeks 42,005,890, of which 35,459,290 were domestic, and when the last great speculation was in progress sales in the same weeks of 1895 were 57,669,292 pounds, of which 89,118,987 were domestic. Some hesitancy in buying by manufacturers is attributed to current prices and in quarter-blood washed fleeces and in unwashed and combing and light some concessions have been made, so that the average of 100 quotations by Coates Bros. is about 20.33 cents, against 20.40 cents August 1. Mills have strong de-mands for goods and the clay worsteds have further advanced. In cotton goods the de-mand exceeds the supply and many kinds have advanced, although the material has declined.

The cotton year ends with spot quoted at

6 cents. The crop has surpassed all others and, with commercial stocks here and abroad and mill stocks about 600 bales larger than a year ago, the actual consump-tion of American cotton seems to have been about 10,500,000 bales, so that a crop of 10,000,000 bales would leave stocks about where they were a year ago if consumption should remain the same. There is prospect of increased consumption, but also of a yield exceeding 10,000,000 bales.

Wheat has declined, mainly because reports of injury in the northwest have been

discredited, and the exports from both coasts have been for the week 3,010,010 bushels. against 3.785,759 last year, and for the five weeks 16,114,685 bushels, against 16,875,835

The western receipts have been 19,513,47-bushels, against 20,320,585 last year, indicating in recent weeks some disposition on the part of farmers to hold their grain. The enormous exports of corn, 20,802,129 bush-els, against 10,999,483 in the same weeks last year, and the western receipts 19,722,109
bushels, against 19,620,787 last year, are not to be forgotten and have caused a decline
of 1 cent in price.

Mercantile Community Faces Bustness Situation with Confidence.

NEW YORK, Sept. 1 .- Bradstreet's tomorrow will say: With an exceptional business already booked for the latter portion of the year the mercantile community faces the trade situation with confidence, testified to by both very firm prices and with quotations in a number of lines showing further advances. The most conspicuous exception to

this is found in cereals, which are weak and declining. Lower prices for wheat, corn and oats point to speculative liquidation of tired holders, who, with confidence in the future of prices have weakened under unsatisfac tory foreign demand, larger receipts and concessions were recorded, owing to the the near approach of expected heavier crop unfavorable aspect of the Transvaal dismovement. Corn crop prospects, though less rosy, stilf point to a full yield. Cotton, too, has weakened slightly, chiefly because of a good rain at the south, though Texas crop advices are still unsatisfactory and rather than of active bearishness in the stories of permanent damage are forthcommarket at large. The fact that Trade reports would seem to indicate that next week begins with a holiday has also a good part of the productive capacity of a tendency to diminish business and to rethe country is already engaged for the first

Sympathetic strength is evinced by other classes of material, among the materials adall markets, steel billets, rolled from and steel, tin plates and nails.

From the manufactured textile trade exceptionally good reports come. August witnessed a general gain in the prices of cotof the list whenever the room traders at-

Scarcity of material and backward dehvery of same are reported by cloth manufacturers in many points north, east, west

Among other textiles strength is specially notable in hemp and sympathy with London, whence come reports that Philippine shipments will shortly cease. Increased strength has been imparted to hides and leather this week by the launching of the leather this week by the launching of the trials and specialties like Consolidated Gas new upper leather combination. Boot and that any considerable swings were seen, alshoe manufacturers are actively employed, though on Friday the Vanderbilt properties ut the margin of profit is reported to be showed strength and activity based on the xceedingly small owing to competition.

Lumber retains all its old activity and The fact that the crops are safe and rail-

in some lines manifests new strength as regards prices. The refined sugar war apparently still continues, one result being the stimulation of consumption to a notable extent. A good business is doing in tobacco at most markets, special activity be-ing reported from manufacturing centers in steel and iron group of securities, some rep-Florida, whence it is reported that the next Cuban crop will be a very large one. industrial lines the situation is reported very satisfactory. Employment is general and strikes and labor troubles are conspicuous by their absence.

The 2:10 pace for \$3.000 was easy money for William Mc. He took it in three straights and was never forced. The heats were turned in 2:08½, 2:07½ and 2:06½. In the first heat Colbert led the bunch to the three-quarter pole. William Mc came up fast on the outside and won easily. His time for the third quarter was 0:31 and the last half was done in 1:00 4-5. The second was a procession all the way around, with William Mc in front. In the stretch Colbert and Eyelet made interesting work in their scramble for second. Eyelet won the place by a short head. William Mc led all the way in the third. Colbert spurted from the three-quarter pole in the fourth. Tomorrow is the last day of the meeting. Totals \$ 24,987,929 14.1 BRADSTREET'S FINANCIAL REVIEW. Cup Challenger is in Proper Trim to Receive Owner and Designer.

NEW YORK Sept. 1.—Captain Archie Hogarth, the Shamrock's sailing master, and his assistant, Captain Wringe, have timed their work so well that the yacht, which arrived here August 18, after an ocean passage of some fourteen days from the Clyde, was ready today in its racing rig, and in a new coat of green paint, to receive its owner, Sir Thomas Lipton, and its designer, William Fife, who arrived by the Campania.

The Shamrock did not leave its anchorage today, some of the crew being engaged in Receive Owner and Designer.

The Shamrock did not leave its anchorage today, some of the crew being engaged in painting the dock, or rather the canvas which covers the steel deck. Others of the crew painted the yacht's hull, and during the afternoon all hands were put to work scraping and cleaning the spars stored on board the lighter Ulster, the latest acquisition to the Lipton fleet.

David Barrie, Lipton's American representative, said today that the mooring buoy for the Shamrock had not been put down at Sandy Hook, but it was probable that the yacht under William Fife's direction would go down the bay for a trial spin on Saturday.

Brooklyn, 7-5; Cleveland, 2-1. BROOKLYN, Sept. 1.—Brooklyn took both games today, making fourteen straight from the Clevelands in the season. Cleveland made a strong bid for the first game, Hughey mystifying the local sluggers during six innings. Then with the score 2 to 0 against them, the leaders piled up five runs and won out. The second game was cut short to allow the Clevelands to catch a train for Cincinnati. McJames was invinci-

Soldiers to Play Ball.

This afternoon the Young Men's Christian Association Base Ball team has agreed to stand up before nine doughty warriors, the pick of the First Nebraska, and wage battle for supremacy on the base ball diamond.

After the battle of Manila and before the opening of hostilities with the insurgents a base ball league was formed and a series of games planned between nines representing the various volunteer regiments. The series was not finished, owing to the outbreak of hostilities, but up to that time the nine of the First Nebraska had won and held easily the second place from the top, with a very good chance of winning the Soldiers to Play Ball.

Batteries: Buffalo, Baker and Diggins; but one and that one the Brewers ran away with. The line-up of the teams will be as follows, and the first game comes off sider it a most wonderful medicine—quick this afternoon: Denver. Green.....

silver trophy from their fellow scrappers from Oregon, who were then in the lead. Since that time, however, the Mauser bullets and disease have done their work and several of the men that tossed the sphere in the Philippine Islands will not again be able to represent their regiment on the base bail field. Their places have been filled with others and the aggregation will be a strong one.

On the other hand the Christians are playing better ball than at any previous time this season. Abbott, Crawford, Creigh, Jeffries, Hoagland, Whipple, Sprague and Tracy are all in the best condition and Davidson and Stryker have both proven themselves pitchers of good speed and with a well selected stock of curves.

Through a misunderstanding it was stated yesterday afternoon that membership tickets of the Young Men's Christian association would not be honored at the park. This was a mistake. Tickets will be good for admission as usual. Newmeter and Hickey; Fremont, Fulmer and Eads.

John Kendrick was hit by a foul tip while standing near the bleachers in the second inning, and his injuries are very serious. The ball struck him on the left cheek bone laying open the bone for a couple of inches and giving his system a severe shock. He was taken to town and his wound dressed. It will be some time before he fully recovers.

The habit of constantly knitting the eye-brows is nearly always caused by defect've eyes. There are many bright, genial people, who appear cross and gloomy on account of wrinkling their foreheads. If the eyes are carefully looked after when the habit first appears, the trouble can be easily removed. Glasses will correct the defect, remove the strain and rest the eyes. I will tell you just what is the trouble. If you do not I will not sell them to you at any price.
