yesterday. The decline in September was quite marked, but deferred futures had some outside support and resisted the influence of the lower cables and heavy primary receipt prices, for over two hoursholding close to opening quotations. The market during that time, outside of short periods of activity in September, was exceptionally dult. The strength of December was mostly artificial, as a good deal of changing was done selling September and buying December. That December did not advance was due to the selling by shorts and though price changes were narrow the general feeling to the selling by shorts and though price changes were narrow the general feeling to the selling by shorts and though price of the selling by sell even at that figure. Under December, with elevator people apparently willing to sell even at that figure. Un to within about thirty minutes of the close trading was the dullest in weeks. Toward the end of the session more activity was shown. The seaboard reported a good export demand, with about fity lads engaged. The northwest markets, previously rather weak turned firmer local shorts, not satisfied with their position, in view of the slubbornness of December became quite firm near the close, with prices gradually advancing. Northwest receipts were 1.02 cars, against 821 hast week and 1.099 a year ago. Chicago receipts were 1.32 cars, 11 of contract grade. Total primary receipts were 1.245,000 bushels, against 1.245,000 bushels a year ago. The northwest predicted heavier receipts next week. Atlantic port clearances of wheat and flour aggregated 439,000 bushels. Argentine shipments were liberal, 1,00,000 bushels, which was given as one of the reasons for the wakness in foreign markets. The northwest promised an increase in stocks of about 1,190,000 bushels, which indicated a visible increase of over 1,500,000 bushels, December renged from 20%c to 25%c and closed %c bigher

Leading futures ranged as follows:

Wool Market.

BOSTON, Sept. 15.—WOOL—The Commercial Bulletin tomorrow will say: There has been a busy booming market for wool this week, and the actual sales have approximated nearly 10,000,000 pounds. The buying has been done mainly by the American Woolen company and other large consumers, but there has been also a good representation of the smaller buyers. The buying too has been for consumption, not on speculation, and prices are correspondingly firmer. As the time for the London auctions next Tuesday draws nearer the consumers look for an advance in prices, and it is the desire to anticipate this that has carried sales to such an enormous figure

this the desire to and part that has carried sales to such an enormous figure this week. Another buil card is the published statement of the American Woolen company that 90 per cent of the output of its mills has been disposed of and the goods taken out of the market. TOLEDO, Sept. 15.—OILS—Unchanged. LONDON, Sept. 15.—OILS—Linseed oil, is 9d. Petroleum spirits, 9%d. Turpentine offits, 24x, 104.4

LIVER ILLS.

DR. RADWAY & CO., New York:

Dear Sirs—I have been sick for nearly two years and have been doctoring with some of the most expert doctors of the United States. I have been bathing and drinking bot water at the Hot Springs. Ark, but it seemed everything failed to do me good. After I saw your advertisement I thought I would try your pills, and have nearly used two boxes; been taking two at bedtime and one after breakfast, and they have done me more good than anything else I have ever used. My trouble has been with the liver. My skin and eyes were all yellow; I had sleepy, drowsy feelings; felt like a drunken man; pain right above the naval, like as if it was bile on top of the stomach. My bowels were costiva. My mouth and tongue sore most of the time. Appetite fair, but food would not digest, but settle heavy on my stomach, and some few mouthfuls of food come up again. I could only eat light food that digests easily. Please send Book of Advice." Respectfully.

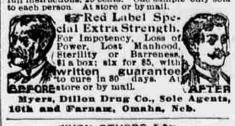

padway's Price, 25c a Box. Sold by Druggists or Sent by Mail. Send to DR. RADWAY & CO., 55 Elm street, New York, for Book of Advice.

GOVERNMENT NOTICE.

of Cuban money orders, the rate of which, it is understood, will be raised from 30 cents for \$100 to the United States to 50 cents. Under the old rate a very large percentage of the money transactions with the United States was in postal money orders, but it has never been the purpose of the government to enter into competition with the banks except in the transmission of small sums. Hence the rate will be increased as stated.

LOGAN AND MEADE ARE NOT READY.

Repairs on the Transports Will Prevent Their Use This Fail.

WASHINGTON, Sept. 15.—Owing to the impossibility of obtaining material it is possible that two of the transports, the Logan and Meade, will not be repaired in time to take the troops destined for Manila so as to land them there before Christmas. The Cramps have informed the department that the Thomas will be completed on the date agreed upon, but the other contractors say that the ships will not be ready before November 15. The department, however, will not allow this to interfere with the schedule arranged, as additional ships on the Pacific coast can be obtained.
