Dispatch Taken to the State Department, Where it is Considered.

WASHINGTON, Sept. 25 .- Secretary Root has received a cable message from General Otis regarding the Chinese situation in the Philippines. He says that the shipload of 700 can be landed without any serious interference with military operations. General Otis discusses at considerable length the subject of Chinese in the Philippine islands, and the dispatch was referred to the State department, where it was made the sublect of a conference between Acting Secretary Hill and the Chinese minister.

on.

A settlement of the general issue betwee. the two governments respecting the admission of the Chinese to the Philippines was not attained through this particular incient, which was considered and disposed of lely on its own merits.

The Chinese will be landed, but without recognizing the right of the Chinese gov ernment to demand this. On the other hand, the Chinese government, while permitting the men to land, does not in any manner concede our right to apply the Chinese exclusion law to the Philippines and stands by the principles enunciated in the formal protest which was made last week by the Chinese minister here against General Otis' action.

The result of the conference between Acting Secretary Hill, with whom the War department had rested the responsibility for the decision, and Minister Wu, is set out in the following official statement:

"The Chinese from Amoy, on the steamer Esmeralda and Salvadora, about one-half of them being previous residents of the Philppines, have been permitted to land, owing
