REVIVE RUMORS OF RECALL High Opinion of General Otis.

NEW YORK, Sept. 26 .- A special to the Times from Washington says: Coincident with the near approach of Admiral Dewey the rumors about General Otis' recall have been revived. It is again reported that his recall has actually been decided upon There has also been a rumor lately that gossip seems to be the report that Admiral Dewey has a poor opinion of General Otis. This report has lately been revived and repeated in a number of ways. It is generally believed that the admiral will have much influence with the administration, and his views on the Philippine policy will be anxiously sought. A strong impression prevalls that when he gives his opinion it will not be favorable to General Otis. There is to be a conference at the White House shortly after his return, at which the prestdent will meet the admiral and the Philippine commission and what is said at that onference may result in some alterations in the military policy in the Philippines.
