BRADSTREET'S REVIEW OF TRADE.

Biggest Part of Fall Business Done—Strength of Staple Products.

NEW YORK, Sept. 28.—Bradstreet's review says: The notable feature of the business situation is the strength of agricultural products, notably the cereals, cotton and pork products. Fall trade orders from now on will cut the largest figure. Weather conditions, while favorable to cotton crop harvesting, are claimed to be hurtful to further growth because of dry weather. Outlook for the manufacturing industry, however, is not so bright. It is claimed that foreign account and the exceptional demand for machinery and other goods in active demand and tending upward are all reflected in the rapid advances for both futures and spot.

Wheat supplies, while considerably larger than in preceding years, are slightly smaller than they were in 1898, since when consumption has unquestionably increased. Milling operations are now 50 per cent higher at the beginning of the season than last year and 20 per cent above the highest point reached on the 29th crop.

Wool extension of the price agreement as regards print cloths, the new one, however, covering all classes of the product, has been reported. It is expected that goods and at the same time is credited with presenting an obstacle to the progress of the wool trade.

Wheat has remained steadily strong, growing firmer toward the close of the season. Large foreign buying and uncertainty as to the outcome of South African affairs, Sympathetic strength in cotton, and other cereals, increased foreign demand are among the reasons for the stronger tone and advances shown in hog products.

Wool has continued strong and in active demand both at home and abroad. Some American buying is reported at the London market, which will close earlier than expected, owing to exhaustion of supplies. In the manufacturing branch of the trade activity is reported active.

There is a quiet tone at most markets for steel and iron. Large buyers have been most of them, but no orders have been made. There is no diminution in strength, however, and the market is expected to remain strong. Lumber remains active at most markets, though complaints of slow delivery, due to the strike, are also heard.

Southern manufactures have again advanced the price of goods, which are now 10 per cent higher than in 1898, and show manufacturers have also joined in this movement, making the third advance within a year in this branch of farm implements. An equally strong tendency is noted in hardware, particularly builders grades.

Wheat, including flour, shipments for five days aggregated \$2,222,222 in this country, and \$1,111,111 in the foreign market. In the corresponding week of 1898, \$1,111,111 in the foreign market, and \$1,111,111 in the foreign market. In the corresponding week of 1898, \$1,111,111 in the foreign market, and \$1,111,111 in the foreign market.

Corn exports for the week aggregated \$1,111,111, against \$1,111,111 in the corresponding week of 1898, and \$1,111,111 in the corresponding week of 1898.

Business failures for the week in the United States were 135, number 135, compared with 147 last week, 166 in this week a year ago, 130 in 1897, 325 in 1896 and 186 in 1895. In the Dominion of Canada for the week, five days, number 11, as compared with 13 last week, 12 in this week a year ago, 37 in 1897, 25 in 1896 and 37 in 1895.

Fort Dodge, Ia., Sept. 28.—(Special Telegram.)—Aron F. Boglan, who was brought posthumously from Hungary by Deputy United States Marshal Vandervort, was given a hearing yesterday before United States Commissioner W. H. Johnston and pleaded guilty to the charges made against him. Boglan, it seems, has been running a jewelry business in connection with his postmasterhood and appropriated the funds of the office for use in his business. The laxness of his accounts was discovered by his failure to send a foreign money order and an investigation made by Postoffice Inspector W. M. Kitchin, who is in charge of the fact the misappropriations had not been confined to this instance, but had been going on for some time. Upon entering a plea of guilty he was bound over to the United States court, which meets at Cedar Rapids in April. His bonds were fixed at \$1,000, which were furnished by parties in Hubbard.

Midway Cleaned Out.

BURLINGTON, Sept. 28.—(Special Telegram.)—The Midway feature of the Burlington street fair is no more. It was situated on the Burlington route depot grounds by the Burlington street, and the grounds that no immoral exhibition should be included. It was discovered that the shows were all vile and the authorities ordered the managers to suspend them. The order was ignored. The railroad officials then ordered Assistant McParland to clear the grounds. McParland took a dozen husky men with him and gave the Midway managers fifteen minutes to close their shows or he would throw them out. Inside of an hour the Midway had disappeared. A man crowd viewed the incident, and considered it the best act on the day's program. Prof. Raymond, who broke his neck diving from an eighty-foot ladder into a net, died this afternoon.

Accidentally Hanged.

FORT DODGE, Ia., Sept. 28.—(Special Telegram.)—At Britt Rudolph Nissen, 12 years of age, who was visiting at the home of his mother, hanged himself in the granary. He was alone at the time and it is supposed he was trying to imitate a wild west horse thief. He had tied a rope around his neck and another rope suspended from a joist to which was attached a hook. He raised himself by the hand and hooked the hook into the rope around his neck and at about this time, probably, slipped and fell toward the floor. He was unable to touch the floor with his feet and when found life was extinct. His neck was not broken and he undoubtedly choked to death.

Miss Lockheart's LETTER TO MRS. PINKHAM. "I cannot express my gratitude to you for the good that Lydia E. Pinkham's Vegetable Compound has done for me. I have taken two bottles of the Compound and two boxes of Liver Pills and feel better in every respect. I had suffered for years with dropsy; the veins in my limbs burst, caused from the pressure of the water. I had the worst kind of kidney trouble, fainting spells, and I could not stand long at a time. I also had female weakness and the doctor said there was a tumor in my left side. The pains I had to stand were something dreadful. A friend handed me a little book of yours, so I got your medicine and it has saved my life. I feel better from the first bottle. The bloating and the tumors have all gone and I do not suffer any pain. I am still using the Vegetable Compound and hope others may find relief as I have done from its use." MISS N. J. LOCKHEART, Box 16, ELIZABETH, PA. Only the women who have suffered with female troubles can fully appreciate the gratitude of those who have been restored to health.
