Provisions were firm and in good demand. The chief influence was the heavy cash demand and fair advances were scored during the morning on buying by local operators and exporters. Later heavy selling by packers caused a reaction, but the market closed steady at slight changes. At the close January pork was 2½c lower at \$3.80, January lard unchanged at \$5.62½ and January ribs a shade lower at \$5.12½.

Estimated receipts Friday: Wheat, 165 cars; corn, 790 cars; oats, 215 cars; hogs, \$1,000 head.

NEW YORK, Sept. 28.—The weekly bank statement shows the following changes; Surplus reserve, decrease, \$1,22,250; loans, decrease, \$7,732,700; specie, decrease, \$4,017,-800; legal tenders, decrease, \$288,000; deposits, decrease, \$13,226,200; circulation, increase,

Many of the clearing house institutions started the week with their cash reserves under the legal limit and with additional demands upon them there has been further calling of loans. The stock market has been unprepared to move upwards under the circumstances. But it has shown signs of resistance to a decline also which made the bears wary of raiding stocks. It is evident that stocks are much less vulnerable to attack and that weak speculative holdings on margin and with borrowed money have been shaken down upon a more solid foundation. Stocks with intrinsic merit were taken at such times by powerful interests not dependent upon ordinary money market resources. Some of those provided themselves with funds on time loans before the present stringency set in and have a handsome profit available now and have a handsome profit available now by reloaning on call. No small part of current transactions in money are of this character and naturally do not affect the showing of the banks at all. There have been several monthly reports by great railway systems curing the week, showing extraordinarily favorable results and reports of weekly gross earnings show reports of weekly gross earnings show the high level well maintained. The Transwaal developments have caused but slight influence on the local stock market. The Commercial Advertiser's London financial cablegram says: The markets here were dull as ditch water today awaiting the cabinet meeting and the Dewey holidays. The tone was drooping, but scarcely to a bargain basis. Americans were becalmed. Spanish 4s were icans were becalmed. The bank hought £8,000 paner. Truth. The bank bought £8,000 paner. Truth.

Wool Market.

LONDON, Sept. 28.—WOOL—The offerings at the wool auction sale today amount to 16,060 bales. Queensland new clip, greasy, was well represented and competition for this grade was very keen, England and the continent securing the bulk of it. Scoured merinos formed a large portion of the catalogue, most of it bringing fancy prices. The lower qualities were irregular. Crossbreds were lower and sold briskly to the local trade. Germany and America paid high figures for their specialities. Medium and fine scoured showed a hardening tendency. Lower coarse clips were irregular. A fair selection of Falkland island stock was offered and it sold well at an advance of 10 per cent. The sales to date number 114,000 bales, Following are the sales in detail: New South Wales, 2,500 bales; scoured, 18 24 digs. time near midday. Under such circumstances buyers all seemed inclined to hold off until the late trains arrived, which made the market very slow and dull.
