

IN THE WORLD OF SPORT

Autumnal Sports Are Taking the Place of the Summer Games.

TIME FOR THE YACHT RACE APPROACHING

Interest in Sports Seems to Increase From Season to Season and the Modern Athlete Appears to Be Superior to His Ancestor.

The bowling season has hardly yet got well under way, nevertheless active preparations are already being made for the fifth annual tour of the Greater New York Bowlers.

The team will again tour the country under the auspices of the Crawford, McGregor & Canby Co., Dayton, O., and Sam Krupp will manage them. They will start from New York about January 8, and after spending a few weeks in the middle western and southern cities, will proceed westward as far as Salt Lake City and north as far as Minneapolis.

A great cycling carnival has been arranged for Kansas City, to be held in Convention hall, from October 11 to 16, inclusive.

John S. Prince, formerly manager of the Velodrome track and the originator of the Omaha Coliseum, has rented Convention hall and will build a track in it.

Many wonder if the bicycle is not losing its hold on the public and, therefore, is on the decline. Many times this question is propounded and, of course, there are many answers, but the truth is no matter what may be said to the contrary, that there are more wheels being ridden today than ever.

The wheel is not dead nor is wheel riding defunct. The fad has simply "busted" and has been relegated to the rear, as all fads must sooner or later be, and bicycling is now a sure thing.

The boom which was given the bicycle a few years ago and kept up until recently would have forever killed a weaker sport. It has, in fact, done the bicycle much harm, but the wheel was too much in favor with the real thinking lovers of outdoor exercise to be killed off.

When Ed Cornish gets his South Side boulevard opened, there will be more wheels out than ever. Omaha will then again have as good wheeling roads as anyone can desire.

Football will soon be attracting the attention of the sport-loving public just as it already claims the time and attention of the students and men of much muscle, and a superabundance of hair will be the center of attraction.

Football is surely a grand sport for those who are able to stand it, and is a game in which both skill and strength are required. It is not a game to be played Saturday afternoon by men and boys who have been confined indoors a week, but is rather a game for which ample physical preparation must be made in order to avoid accident.

People do not wonder much that records made by improved machines and paced bicycles are lowered year by year, but the recent lowering of others has been a surprise. Football, not requiring any particular form of apparatus, is not so easily accounted for.

It will not be many more days now until we will know for certain which nation rules the sea—America or England. The great international yacht race is drawing excitingly near everywhere. For a boat that is to be beaten out of her socks, the Shamrock seems to be attracting a vast deal of attention these days, and all the supreme confidence that is being quashed over the country is centered in the Columbia.

W. A. Kelley has returned from a two weeks' chicken hunt at Anselmo. Not only does he claim he had fairly good luck, killing forty-nine in one day.

Harry Melrose returned last week from Atkinson with a goodly bag of chickens, which he reports as plentiful in that region.

C. B. Lane of Phillipsburg, Kan., is in town. He is one of the crack field shots of Kansas and says there are plenty of birds.

Fred Goodrich and party go to Valentine this week for a ten days' duck hunt.

The Iowa quail law is up today and several parties from Omaha will make short excursions into the western part of the state after Mr. Bob White.

The Dupont Gun club will hold its regular

meeting this week, at which time will be shot off the big handicap prize shoot.

The team from the Omaha Gun club and the Dupont Gun club go to Kansas City about October 10 for a match with the Kansas City Gun club.

H. S. McDonald and George Moore went to the Elkhorn Saturday after snipe. Of course they would not refuse to shoot a chicken if they met one sitting in the road.

C. H. Curtis and Frank Murray leave this morning for the Crescent bottoms for snipe, which are reported as plentiful in those marshes.

Lafe and Con Young are also going after snipe and will visit the Papio.

R. M. Smith, C. W. Bishop and Gus Windom go to Horse Shoe lake this morning for duck, which are coming in small bunches on account of the recent cold spell.

W. W. Watt went to Honey Creek on his bike last evening taking his dogs with him, as well as his gun.

J. A. R. Elliott of Kansas City and W. R. Crobey of Batavia, N. Y., will about a match at Exposition park, Kansas City, October 3 and 4. The match is for the Republic cup, now recognized as the national championship emblem.

GOSSIP OF THE GRIDIRON

All the Teams Are Rounding Into Shape for the Big Games Which Come Soon.

The Omaha High school team will soon be in condition to meet any of its opponents on the gridiron, and the boys are practicing in large numbers and have been practicing faithfully for the past two weeks.

There has been no lack of material so far as "Tackles" are concerned. Griffith, McCrae, Pritchard, Roberts, Marsh, Serier, Waller, Traylor, Randall, Hughes, Langtry, Kuhn, Herman, Lehmer, Charles, Lehmer, Welch, Moore, Kincaid, Flook, Parrott, Phanders, Clark, and Farnsworth have been out nearly every afternoon, and several others have declared their intention of joining the squad as soon as they get their suits.

The practice grounds on the hill are excellent, but the hard, and very muddy, well padded suits to avoid injury, and yet this is good training for the time when they will play on other fields, which have been plowed up so as to soften the fall.

The team is well supplied with coaches and advisers, as Estabrook, Whipple, Barnes, Louis, Reed, Benedict and Bernstein are doing a good job of coaching. The team through the preliminary course of training, and some say that their smallest man is larger than the heaviest of the Omaha team, and yet they could not score. This, of course, shows that the team must not only have a good offensive game with the ball, but also a good defensive game.

Football at Tabor College. TABOR, Ia., Sept. 25.—To the Sporting Editor of The Bee: The football prospects at Tabor college are bright. The eleven is working hard and is composed of some promising new material and some excellent and tried players.

W. A. Kelley has returned from a two weeks' chicken hunt at Anselmo. Not only does he claim he had fairly good luck, killing forty-nine in one day.

Harry Melrose returned last week from Atkinson with a goodly bag of chickens, which he reports as plentiful in that region.

The Dupont Gun club will hold its regular

with them will be no great a barrier. Very truly, H. WERTT PARNHAM.

TEKAMAH, Sept. 21.—To the Sporting Editor of The Bee: Tekamah will be right in line with a strong team this season and not yet arranged our schedule. Determined assistance will surely be heard from, as the prospects are brighter for a strong team this season than they have been for years. Our team will consist mostly of new material, but will be strengthened by several of the old players of last year.

CHICAGO, Sept. 22.—To the Sporting Editor of The Bee: The two "varity" eleven teams which Chicago divides its sympathies are already in the field in a partially matured condition, though the college year has barely opened.

Chicago will apparently continue its open rivalry with the clever doctored in the practice contests this week as a feature which had evidently been carefully cultivated. The line, and particularly the center, appeared weak and mass plays were not frequently attempted.

is not alive to the new developments of the game and is almost a back number in her style of play. Failing to appreciate this fact she has changed her coaches and systems of coaching time and again and has only managed to introduce a more chaotic condition.

Harvard achieved success last year by departing from its old systems and adopting the more up to date methods. It abandoned the old style of play and adopted the new style of play, and it is in the new style of play that it has shown its greatest strength.

The Iowa quail law is up today and several parties from Omaha will make short excursions into the western part of the state after Mr. Bob White.

The Dupont Gun club will hold its regular

O'Rourke, when the fighters' managers agreed to postpone the meeting a few days. The postponement was made to give the Conroy Island club more time to arrange its boxing carnival, to take place during the week of the big battle. There will be three days' fighting on Wednesday, October 25, Dixon and Curley will fight, and on the following night Gardner and Jordan will meet.

Harvard achieved success last year by departing from its old systems and adopting the more up to date methods. It abandoned the old style of play and adopted the new style of play, and it is in the new style of play that it has shown its greatest strength.
