DUN'S REVIEW OF BUSINESS

New York Clearing Houses Exceed a Billion in Spite of the Holidays.

BREAKS ANY PREVIOUS FOUR DAYS' RECORD

Heavy Sales of Ralls Deliverable Next Year-Plate Mills Gaining Little on Orders-Wool and Grain Conditions.

NEW YORK, Oct. 6 .- R. G. Dun & Co.'s Weekly Review of Trade will say tom rrow; Weekly Review of Trade will say tom frow:

The grand demonstration in honor of Admiral Dewey effectually stopped business of most kinds for two days in the chief city of the country and yet the romaining transactions of the week would have excited wonder a year ago. At New York, where the interruption was greatest, payments through the clearing houses exceeded \$1,039,000,000 in four business days, a record never before approached, and outside New York the gain reflects a great expansion in the volume of that kind of business which does not depend on exchanges.

It has been a week of remarkable mon-It has been a week of remarkable mon-ciary changes here and elsewhere. The Bank of England raised its rate 1 per cent before and ½ per cent after its weekly statement, from 3½ to 5 per cent, with the hope that the outgo to New York might be checked, and the Bank of Ger-many lost also and raised its rate to 6 per cent. The Bank of France lost heav-ily. While high rates were paid here for money required in speculation no strin-gency embarrass any branch of legiti-mate business and the stock market has held up surprisingly.

gency embarrass any branch of legitimate business and the stock market has held up surprisingly.

With such business as the great steel companies are doing it is not strange that their stocks are firmly held. There have been heavy sales of rails, deliverable next year, \$25 being fixed as the price after consultation, and about 250,000 tons, fairly divided between eastern and western works, were sold. For their protection the great companies bought billets in large quantities, for which it is said \$55 was paid by some, and of Bessemer pignearly 200,000 tons, the Federal Steel company taking 16,000 tons and Pittsburg works taking advantage of old options, Other large rail contracts are expected soon, especially those of the Pennsylvania. Flate works seem to be gaining little if any on their orders and bar mills are crowded as ever, while the renewal of offorts for consolidation of sheet mills causes more active buying. But while Bessemer pig rose 25 cents and gray forge at Pittsburg declined 50 cents, finished products were not changed, excepting another rise of 15 cents per keg in cut nails, and there is reported some disposition to hold back orders because of the general rise in pricos.

The wool market is strong, with sales of

orders because of the general rise in prices.

The wool market is strong, with sales of 1.528.152 pounds at the three chief markets, prices being maintained, although the advance at London has been checked. The cotton mills, after the general advance in prices last week, have had a large business, being helped by the rise in material. It seems still uncertain what form of consolidation, if any, will be adopted by the Fall River concerns.

After advancing about 2 cents wheat declined sharply, uncertainty in the Transvaal being used by speculators as an excuse for the fluctuation. The closing price is unchanged, with Atlantic exports of 3.562.062 bushels, flour included, against 2.584.53 bushels last year, and Pacific exports of 367.062 bushels, against 702.414 bushels last year. When it is noted that corn exports were also 2.992.232 bushels for the week, against 2.531.002 bushels last year, the price rising 1 cent, it seems not strange that wheat continues firm, and western receipts for the week have been only 6.641.113 bushels, against 10.535,359 bushels ast year.

The merchandise exports from New York

ast year.

The merchandise exports from New York have been in four weeks \$31,202,523 in value, against \$32,748,494 last year, which, with the increase in manufactured exports and in cotton exports from other points, insures an enormous outgo for September, while the increase in imports at New York has been about \$9,500,000 in value, apparently not enough to reduce the excess of exports from the month below \$30,000,000,

BRADSTREET'S REVIEW OF TRADE

Outlook Encouraging and Staples Firm in Price or Mounting. NEW YORK, Oct. 6 .- Bradstreet's tomor-

NEW YORK, Oct. 6.—Bradstreet's tomorrow will say:

Distributive trade, while smaller at some markets, is still of encouraging volume, industry is active, railway carnings heavy, prices still tend upward and bank clearings increase, while failures are lessened. Fail festivals and other celebrations at several cities have exercised an appreciable effect upon retail trade and proved a stimulating factor in wholesale lines. In industrial affairs activity is widespread and strikes are fewer and less costly than in most years. Though lessened by holidays, bank clearings, swelled partity by heavy October disbursements and partity by general business expansion, tend to enlarge as the season advances. Business failures are apparently at a minimum and liabilities are certainly less costly than for many years past.

Prices as a whole manifest aggressive strength. Farm products are especially prominent in this direction, the south's greatest staple, cotton, owing to short crop advices and to active speculation, leading in extent of gain with an advance of nearly half a cent for the week, or nearly 2 cents as compared with a year ago, and of quite 2½ cents as compared with the low water price touched in the season of 1898-99. The manufactured article is strong in sympathy with the raw product, but is also strengthened by reported heavy dealings in print cloths and row will say:

umn and Winter, sent

o those who ask.

Write care

by the fact that manufacturers of most lines of staple cottons are heavily sold ahead. War rumors have played an important part in the week's operations, tending in some respects toward checking the biopancy of catton, affecting London wool sale prices and strengthening the tone of wheat and other cereals, which are strong in the face of heavy increases in visible supplies.

Supplies.

Wool has been in active demand by manufacturers and is higher at most markets.

Woolen goods retain all of their old strength and some classes are still up-

Woolen goods retain all of their old strength and some classes are still upward.

Chartering of ships by the British government has created some excitement in the ocean freight markets and quotations for room have been marked up.

Dairy products reflect weather conditions in higher prices and petroleum is firm on limited production compared with demand. Anthracite coal has been marked up at tidewater and demand is brisk. Hides and leather are strong and bisher. Iron and steel hold all of their old strength, the former on heavy buying at Pittsburg and further west, while large quantities of steel rails have been bought by leading railroads and further heavy business is under consideration. Export trade in southern iron has almost ceased and there is talk of reimporting some already shipped.

Wheat, including flour, shipments for the week aggregate 5,183,398 bushels against 3,872,455 bushels (revised) last week, 5,437,224 bushels in the corresponding week of 1898, 4,835,641 bushels in 1897, 4,650,772 bushels in 1896 and 2,244,325 bushels in 1897, 25, 25,089 bushels for the week aggregate 4,-238,749 bushels in 1897-38.

Corn exports for the week aggregate 4,-238,749 bushels in 1897, 30, 199,519 bushels in 1897, 2,772,090 bushels in 1896 and 1,357,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in 1896 and 1,367,010 bushels in 1897, 2,772,090 bushels in

BRADSTREET'S FINANCIAL REVIEW. Situation Abroad and at Home Favors

Continued Money Stringency. NEW YORK, Oct. 6.—Bradstreet's tomorrow will say of the New York stock market:
The attention of Wall street was mainly devoted to the question of money. The extreme rates for call loans of from 20 to 40 per cent recorded on Monday and Tuesday were unnecessary. In fact there has been some discussion as to whether such rates were not the result of manipulation. It is evident from the bank statement published on Thursday, September 23, just before the market entered on the two days' recess for the Dewey reception, as well as from the known movement of money to the interior, that the banks were still losing cash and were obliged to contract the volume of their call loans to the street. The payments in New York City and other October distursements necessitated an extra amount of disturbances of loans, and there consequently was not a little pressure resulting in many borrowers being forced to pay from 10 to 15 per cent for daily accommodations, while from 6 to 10 per cent was the easiest obtainable. Nevertheless the market became less disturbed, as the balances were readjusted, and by Thursday 12 per cent was the extreme of the time loan market and lenders with unemployed balances had to be contented to accept from 3 to 5 per cent at the end of the day, and on Friday the extremes were from 5 to 8 per cent.

Both the money and stock markets have NEW YORK, Oct. 6 .- Bradstreet's tomor-

ances had to be contented to accept from 3 to 5 per cent at the end of the day, and on Friday the extremes were from 5 to 8 per cent.

Both the money and stock markets have been to some extent influenced by the rise in the Bank of England rate to 5 per cent, which together with the firmness of the London open money market and the financial pressure shown in Germany renders further immediate importations of gold improbable if not impossible. Relief from this source being cut off discussion of the commercial financial situation does not develop signs favorable to the restoration of decided ease in the New York loan market. The activity of trade and the prosperity of the country it is held will keep money in circulation during the autumn and early winter, while in ordinary circumstances it would begin to return to New York as soon as the crop movement was well under way. It therefore seems that the stock market must resign itself to a high if not stringent money market, in which 6 per cent will be the minimum for both call and time loans. In spite of this tendency and the disposition of professional traders to press the market for sale prices have behaved well, and after a pretty general, though far from severe, decline in the early part of the week a dull, irregular recovery set in on Wednesday. This was partly in sympathy with the improvement at London, it was, however, noticeable that most of the purchasing here was by the bears and represented the covering of their short contracts. In fact, one of the features of the week was the failure of the high money market to preduce any appreciable liquidation of long stocks. Meantime, apart from dearer money, nearly all the circumstances bearing on stock values began to be available, and the prosperity of trade naturally creates a certain feeling of confidence in the future market. The international yacht race has diverted the sitention of a considerable section of the Wall street professional element from the market. On Friday the market developed a good degree of str

THE WORRIED MAN'S FRIEND. The mind reacts on the body in a wonderful way.

Antelepe State Foot Ball Players Make No Showing at Ames.

IOWANS EASILY SCORE THIRTY-FOUR

They Make the First Touchdown in Exactly One and a Half Minutes After the Ball is Put in Play.

AMES, Ia., Oct. 6 .- (Special Telegram.)-The foot ball game played here today between the Nebraska university and the Iowa State college resulted in a score of 34 to 0 in favor of Ames college with halves of twenty minutes. Nebraska kicked off to Ames' twenty yard line and in exactly one minute and a half the Ames team made a touchdown. The goal was easily kicked and in five minutes after Nebraska had kicked off the second time Ames had made another touchdown and goal. The Ames team seemed to have no trouble at all to make gains from ten to fifty yards. Nebraska's center was very weak on passing the ball, causing such an exhibition of fumbling at quarter as is rarely seen in teams of Nebraska's class. Nebraska's biggest gain during the whole game was only fifteen yards and then the ball was lost on a fumble. The Ames team was strong on defensive and Nebraska was forced to punt often in order to make any gains. At the end of the first half the score stood 29 to 0 in favor of Ames. The westerners rallied a little in the second half and held the

TOM WILKES LETS BACKERS DOWN.

Favorite in 2:17 Pace at Lexington

is Ensity Beaten by Carmelito.

LEXINGTON. Ky., Oct. 5.—The crowd fell off some from that of Transylvania day, but it was still large.

The pacing futurity, which should have been the feature of the day, was a farce. Glory broke repeatedly in both heats and so badly in the last that Lucie May distanced her.

The 2:17 pace, the first on the card, was a big surprise. Tom Wilkes sold for 25 to 13 in the first heat and 25 to 10 in the

row afternoon. The Tobacco stakes, at one mile, will be the feature. The meeting continues in ineteen days. Morgan, Chinn will do the starting. The judges stand will be presided over by Colone Louis P. Tarlton and his associates will be Charles F. Price and E. C. Hopper. Over 500 horses are now at the track, including some of the best known performers in the west. Weather clear and track fast.

Cowboy Riding Contest. ST. LOUIS, Oct. 6.—Thirty thousand people visited the park of the St. Louis Fair association today, half of whom witnessed the closing events of the harness meet-

When Nero Played His Fiddle-

PHILADELPHIA, Oct. 6.—The cricket match between Ranjitsinhji's eleven and the Gentlemen of Philadelphia, which was scheduled for today, was postponed until tomorrow on account of rain.

We're On Top Again-

The best is none too good for us and our friends-As long as the copperwired, quilted-bottom shoes were the best boys shoe made we sold them-but just as soon as the steel-circlet shoe was made we saw at once it was the best shoe ever made-that's the shoe we offer you now at \$2.00-A shoe that will outwear any two pairs of other shoes-has no wire braids to tear the carpets-is not heavy or clumsy.

Some people may not know that we

carry the largest stock of builders'

hardware in Omaha-but we do-and

not only the largest but our estimates

have always been found the lowest-We

cheerfully figure on any sized contract-

When you come in to see our builders'

hardware you can glance around at our

stoves-We've a fine line of Ranges,

Cooks, Base Burners, Round Oak and Oil Stoves-We never let any one beat

TO TEACHERS-

If any of your pupils make hard work of reading characetrs upon the blackboard they are very likely nearsighted. If you notice any who are easily tired in studying they are probably far sight ed. Thousands of bright children are hampered in this way by defective eyes.

Glasses to remove the strain would entirely change their habits, and influence all their after lives. Every child in school should have an examination at least J. C. HUTESON, Manufacturing Optician,
