The claim was approved by Governor Poynter and Attorney General Smyth and was allowed by Cornell in September. Under these circumstances Smith is indirectly still an employe of the state, notwithstanding the legislature allowed the attorney general extra assistance to do away with the necessity of employing outside legal talent in the prosecution of state cases.

Following is a portion of Attorney General Smyth's testimony before the committee on ways and means, taken from the official copy:

Why Smith was employed in the Bartley case and why he was paid \$625 for the brief service are questions which have not been explained by the reformers. The failure of Silas A. NORFOLK, Neb., Oct. 9 .- (Special.)-The In your O'Neill speech you denounced the present republican administration as guilty of violating the letter and spirit of the Declaration of Independence in at-tempting to coerce recognition of American sovereignty in the Philippine islands. Will you condescend to drop epigram and phrase-making for a moment and give the people of your adopted state the logic by which you arrive at such a conclusion? An occasional resort to reasoning and ar-gument would be a pleasing relief from the monotony of declamation. By every rule of law recognized by civ-ilized nations the Philippine islands have been under Spanish sovereignty, with one short intermission, for the last 400 years. Upon several occasions one tribe, the Tag-alos, have attempted resistance, but none of these revolts has ever assumed greater In your O'Nelll speech you denounced Harding Creamery company has added improvements to its local plant amounting to \$2,000 and the output averages about 6,000 pounds of butter daily, representing cream from twenty-one skimming stations within 100 miles of Norfolk. By every tenet of international comity, therefore, the Philippine islands became American territory immediately upon the ratification of that treaty, upon the one condition that we have the power to en-force our sovereignty; for the ultimate foundation upon which all sovereignty rests is the power to enforce obedience. This being accepted as a true statement of the case, will you explain how the prin-ciples of the Declaration of Independence become applicable to it at all in its pres-ent stage of development? It is conceded that, after its establishment and recogni-tion. But how is it possible to violate the declaration in attempting to maintain American sovereignty upon American soll, unless it can be shown to be of such a character, per se, as to be subversive of the fundamental human rights as enun-ciated in that immortal instrument? "My husband had been coughing for years and people frankly told me that he would go into consumption." writes Mrs. John Shireman, of No. 25, 25th Place. Chicago. Ills. "In the spring of 1858 he took measles. He caught cold, the measles then settling on his lungs, causing such terrible coughing spells, we not only grew much alarmed, but looked for the bursting of a blood vessel or a hemorrhage at almost any time. After three days' coughing he was too weak too cross the room. The doctor who lived weak too cross the room. The doctor who lived is a too the same floor did him no good. I went to the other end of the town and stated the of Dr. Pierce's Golden Medical Discovery. My hushand's recovery was remarkable in its speed, folden Medical Discovery he was up and around at in two more days he went to work. Two bothes cured him."
