GOVERNOR LEE ALSO MAKES A SPEECH Volunteers Cheer Utterances of All the Speakers, Especially Patriotic Utterances of Their Former Commander-in-Chief.

SIOUX CITY, Ia., Oct. 15.—President McKinley's train stands on a sidetrack three miles east of Sioux City tonight. Several thousand people waited for a glimpse of the president until 12:30 (Sunday) morning.

It was decided upon leaving Elk Point, S. D., the last point beyond Sioux City, that the hour was too late for further speech-making.

Three miles east of the city the train was placed on a sidetrack and the presidential party retired after the most arduous day of the speechmaking tour.

Sioux City has been gallantly decorated in honor of President McKinley. Long stops where the president had been scheduled only for short addresses, lengthened out the running, and although the Chicago, Milwaukee & St. Paul officials, headed by General Manager Collins, put forth every effort and expended by several hours the prearranged plan, the efforts were futile, and when Elk Point was reached it was decided to go no further than necessary.

Tomorrow the president and party will attend the Methodist church and will dine with Congressman George D. Perkins.

PRINCE FOR WAHPETON SOLDIERS. President Reminds Citizens of Their Deeds of Valor in Luzon.

WAHPETON, N. D., Oct. 14.—President McKinley's special stopped here last night. A large crowd greeted the chief executive, who, in spite of the late hour, left his car and addressed a large assemblage.

"I have had great pleasure in passing through your state today, the first visit which I have ever made to this new commonwealth.

"It is one of the newest of the federal union. I have not only been impressed with the patriotism of your people, but also with the prosperity and the good feeling which you find on every hand.

"Your population, I am sure, has doubled in the last ten years, while the products of your fields in a single year have amounted to as high as \$50,000,000.

LONDON, Oct. 14.—Those who have been more stirring news from the seat of the war, according to dispatches, shooting has been nearly continuous along the borders of the Boer republics, while serious attacks have occurred or are occurring at various points in Natal and British Bechuanaland.

Further details are at hand regarding the destruction of the armored train at Krailpan. They show that Captain Nesbitt, who was in command of the train, was warned at Maribogo that the Boers held the line.

It is reported that the Boers lost heavily, but there is no means of verifying this. Two miles of rails were torn up.

There is no authoritative confirmation of the report that a battle has been fought in Natal, between General Sir George Stewart White and the Orange Free State troops, although there is no means of verifying this.

It is already reported that the British have gained a great victory, that 2,000 Boers were killed and that the British loss was very slight, but this may be without foundation.

Another train derailed. The Exchange Telegraph company has received a dispatch from Capetown, dated this morning, saying that the Boers have blown up another armored train, carrying telegraph operators from Mafeking.

On connection with the rumored attack upon Mafeking a disquieting report comes from Pretoria to the effect that the Boers have crossed the border and entered the Roodkrond territory, between Lichtenburg and Mafeking, blowing up the bridge over the Malopopo river and destroying a trainload of dynamite and the track.

As Mafeking depends upon Roodkrond for its water supply, the significance of this move is evident.

The Boers, it is reported, have seized the railway station north of Fourteen Streams, between Vryburg and Kimberley. Fighting is still continuing in the neighborhood.

BERLIN, Oct. 14.—A high German official, whose utterances may be taken as utterly conclusive, said to a representative of the Associated Press today:

"We shall observe the strictest neutrality no matter what may develop in the war between the Boer republic and Great Britain. That is the only course left open, as conditions in South Africa are so complicated and our relations with both sides are so delicate that to abandon neutrality by so much as a hair's breadth necessarily would lead to and unforeseen complications.

"We mean to adhere to neutrality toward both parties. What else can we do? Other powers spoken of as likely to interfere have also concluded to keep quiet. Such rumors as now and again reach the press, for instance, the report about the alleged attempt on the part of the Kaiser to send Count Muraviev, to bring about concerted action, are unfortunately only rumors. I say unfortunately, the world showing where our sympathies lie, but politics make a difference between interests and sympathy.

"A crusade against England is being preached to the nations of the continent, but there is no means of verifying this. Two miles of rails were torn up.

Emperor Praises Yankee Navy. To a fellow guest at the court fete on Monday in honor of Queen Wilhelmina of the Netherlands, General Harrison said: "Emperor William is most agreeable in conversation and especially well-informed regarding men and things in the United States. He spoke at great length of the United States navy and expressed his admiration of the efficient and powerful a navy. The emperor said that by a study of the navy in the Spanish war he had formed the highest estimate of the efficiency of the officers and men of the American navy, adding that it was a splendid feature of the American character to fairly worship their naval hero. The emperor spoke in English. The empress also showed the greatest attention to Mrs. Harrison, with whom she conversed in English."

The naval budget has been completed. It calls for \$5,500,000 marks, for vessels in process of construction. The list shows that thirty-seven vessels are now being built, of which eight are battleships and eight are cruisers, the others being torpedo boats. The Prussian minister of the interior is now considering the question of insurance against accidents, inundations and other causes of nature. He has requested the principal companies to report regarding the feasibility of the project.

Emperor William today visited the colonial museum, which is under the management of the German-American club. A number of American firms are taking steps to establish iron and steel works. An establishment is now being erected near Berlin by the Niles Tool Works company of Hamilton, O.

WAR'S EFFECT ON SOCIETY

Hostilities Bring the English Swell Set Back to London at an Unusually Early Date.

LONDON, Oct. 14.—(New York World Telegram—Special Telegram)—The Duchess of Marlborough made her first appearance at Newmarket this week, going to the races with the duke's aunt, Lady Georgiana Curzon. Newmarket is the paradise of the smart racing contingent and the duke of Marlborough is reported to be joining before long. At present he is taking political views seriously, addressing conservative meetings in different parts of the country. Last night, accompanied by Winston Churchill, he spoke at Oldham and the Boer war was the subject of the proceedings, which developed, as all ministerial meetings do now, into a jargonistic tangle.

The war has had the effect of bringing society back to London exceptionally early, every great family having one or more relatives in the army. The duke and duchess of Devonshire received birthday congratulations this year from Emperor William, is commented upon respectfully by a number of papers. There are evidences of sympathy with the Boers. Subscription lists are being circulated on the bourse to raise money for the equipment of ambulance wagons and a Transvaal central committee is forming to collect funds for the same purpose.

The Samoan Damage Question. The same papers have articles referring to the Samoan question, reiterating the statement as to a partition. A leading foreign office official, referring to the matter, said to a representative of the Associated Press: "All these statements are mere guesswork. The powers are negotiating and there is little liability of any further trouble between them. So far as the damage question goes, an arrangement has been reached between Germany and Great Britain and the United States is not opposed to the same idea of settlement."

On the same authority the Associated Press learns that a strong wish is felt at St. Petersburg that the principal representatives participating in the peace conference at The Hague should fix their formal signatures in that city. Italy and Austria have already done so and Germany will soon join them after the removal of certain formal obstacles. United States Ambassador White says he is still awaiting instructions from Washington regarding the matter. The visit of General and Mrs. Harrison has created an excellent impression, the newspapers commenting pleasantly and in a tone of hearty hospitality. The Lokal Anzeiger says: "General Harrison will take home a favorable impression of Germany and Emperor William. Let us hope that he will utilize his visit for the purpose of improving the relations between the two countries. With his influence and the esteem with which he is held, it ought not to be

(Copyright, 1899, by Press Publishing Co.) PARIS, Oct. 14.—(New York World Telegram—Special Telegram)—French opinion is unanimously with the Boers and public indignation against the hypocritical English way of working toward spoliation is intense. There is not a single newspaper in France which does not every day denounce editorially the aggression upon the Transvaal as an unredeemable crime. Temps and Journal des Debats, two of the most authoritative organs in France, both publish documents and historical studies of the whole Transvaal trouble since its inception, showing that Chamberlain is the interested associate of a band of financiering politicians, comprising notably Rhodes, the owners of the London Times and the Chartered company, which conquest alone can save from bankruptcy. This band is accused of having engineered Jameson's raid and after its failure never ceased to await and work for a pretext for a conflict.

Hanotaux, former foreign affairs minister, than whom nobody is more competent, said yesterday: "In this affair English jingoism is being skillfully exploited by high sharps to serve not only their political ambitions but their vast private financial schemes. That is why, though nobody can doubt that a conflict with England would be granted the outlanders' demand, Chamberlain would not submit to arbitration."

In all continental Europe one paper alone, Neue Freie Presse of Vienna, sustains England. All others more or less are against it. Irishmen residing in Paris hold meetings with a view to organizing a corps of volunteers to join a regular army being secretly raised by Maud Nora in Ireland to go and fight with the Boers. Many Frenchmen out of sympathy, or desirous of adventure, are also leaving individually or in small groups. Moreover, numbers of journalists, students and young clubmen are anxious to form a regular army, similar to Roosevelt's Rough Riders, which has solicited Antulicre Cipriani to take command. Cipriani is an Italian refugee who proved such a hero on the Greek side, falling with four bullets after fighting terribly at Damokos.

GUAM WITHOUT A PHYSICIAN

Navy Department Grants Appropriation for a Hospital and Dispensary on the Island.

WASHINGTON, Oct. 14.—To carry out the plan of Admiral Crowninshield respecting the substitution of shore barracks for receiving ships in the navy estimates have been prepared for submission to congress covering the cost of the change. These are for fireproof barracks for 3,000 sailors at the New York navy yard, with 100 folding arms and watch a masonry structure, two little sisters of Africa. If the present international code decrees it must be so it ought to be smashed immediately in the course of public indignation and another code less ferociously stupid established.

The medical department has secured an allotment of \$10,000 for a hospital and dispensary at Guam. It appears from the report of the naval commandant that with 8,000 people on the island there is not a single physician and there are no medical stores outside of the ship's surgeon and supplies.

CLEVELAND, O., Oct. 14.—The Leader's Washington correspondent is informed by authority, who cannot be disputed, that Judge Lacombe of the United States court, New York, will dismiss the habeas corpus proceedings instituted in behalf of Oberlin M. Carter, late captain of the engineers corps, United States army. Judge Lacombe will take the broad ground, it is said, that a civil court has no jurisdiction over a military case, that it cannot invade the province of such a tribunal nor overture its findings or decrees.

HEAVY LOSS TO INSURGENTS

General Schwab Reports Two Hundred Killed and Four Hundred Wounded.

WASHINGTON, Oct. 14.—The following cable from General Ota has been received at the War department:

"MANILA, Oct. 14.—Schwab's column swung into Imus from Sta. Marina yesterday morning, camped at Bacoor last night; has scattered insurgents, who are probably retreating by detachments on Indang. Condition of roads prevented further pursuit; 125 men thirty-seventh volunteers, Major Chatham, drove insurgents south and westward from lake town of Muntinlupa yesterday, pursuing several miles; retired to Bacoor last night by Zapote river road; lost three men killed, two wounded, one missing. Schwab's movement very successful; inflicted heavy loss on men and property of southern insurgents; reports that casualties at 299 killed and 499 wounded; their stored supplies destroyed. Young moving from Arayat north and westward yesterday; scattered insurgents, who retired northwest; his casualties three slightly wounded; considerable store of grain captured.
