## COMMERCIAL AND FINANCIAL

Many Factors Combine During Day to Drag Down Price of Wheat.

DTHER COMMODITIES SHOW WEAKNESS

Bulls Abandon Their Effort to Sustain the Market Early in Morning and Slight Reaction at the Close Is Not Permanent.

CHICAGO, Oct. 16.-Liquidation, encouraged by a heavy addition to the visible supply, favorable crop reports and an

quirements by over 1,000,000 bu, and the indications were that the visible supply, when completed, will show a heavy in crease, while the amount on ocean passage had increased nearly 1,000,000 bu. Under crease, while the amount on ocean passage had increased nearly 1,00,000 bu. Under those conditions the bulls became theroughly disheartened and left the bears in full control from 9 o'clock, although the latter were not inclined to push their advantage to any great extent. The market railed dull the greater part of the session, while fractions were steadily scaled off the price until the last hour, when shorts were tempted to cover and on buying of that kind there was a quick raily of 'ice from the bottom. The improvement was only temporary, however, as the support was soon withdrawn and at the close the market was headed downward agair, closing within 1,40% of the bottom of the day's range. High ocean rates and an advance in rates east of Buffalo helped the decline. December opened 3c lower at 1150/113/2, sold sparingly at 71%, declined to 71% of which graded contract. Minneapolis and Duluth got 1,212 cars, compared with 1,511 cars the corresponding day a year ago. Total primary receipts were 1,75,000 bu., against 2,190,000 bu. last year. Atlantic port clearances of wheat and flour equaled 377,000 bu. World's shipments last week were 8,620,000 bu., against 7,118,000 bu. the same week last year, and the total affoat now is 25,00,000 bu., compared with 25,000 bu. decrease last year, and the total affoat now is 25,00,000 bu., against 20,560,000 bu. the same week last year, and the total affoat now is 25,00,000 bu., against 20,560,000 bu. the same week last year, and the total affoat now is 25,00,000 bu., against 20,560,000 bu. the same week last year, and the total affoat now is 25,000,000 bu., against 20,560,000 bu. the same week last year, and the total affoat now is 25,000,000 bu., against 20,560,000 bu. Large receipts and a falling off in the

2,979,000 but and the total in sight is 47,314,000 but.

Large receipts and a falling off in the
foreign demand at the scaboard weakened
corn at the opening. A smaller increase
in the visible than expected and a belief
that the west would retard the movement
encouraged heavy buying after about an
hour and a half of weakness and the early
decline was partly recovered. Cash demand fair. Receipts, 200 cars. The visible
increased only 315,000 but, compared with
an increase of 2,361,000 but, the same date
last year. December opened 3sc lower at
20%3631c, firmed up to 31c, declined to 20%c
and closed with buyers at 30%3355c.

Oats were weak early in sympathy with
wheat and corn, but turned strong later
on buying induced by large clearances and
a decrease in local stocks. Receipts were
heavy, 475 cars. The visible increased
433,000 but. December opened 3sc lower at
22%, declined to 22%c and advanced to
22%g22%c at the close.

Provisions ruled heavy throughout, starting at a moderate decline and increasing
the loss as the session advanced. Too
many hogs and lower prices at the rards
were the depressing influences. Packers
sold heavily. January pork closed 10%12%c
lower at \$5.35,537½ and January ribs 7½c lower
at \$8.35,537½ and January ribs 7½c lower
at \$8.35,000.

Estimated receipts for Tuesday: Wheat.

\*\*Cotton Market\*\*.

NEW YORK, Oct. 18.—COTTON—Therewas a marked failing off in speculative interest in professional cotton circles as well as among outside investors today. The market needed only weak cables to send prices downward on the call and to keep longs in a nervous state throughout the session. But while sentiment was momentarially bearish the market kept all its bullish features, such as light receipts, firm southern markets, strong cloth markets and contrasting crop estimates. The movement from the ports of Europe reached an unusual figure today, over \$9,000 bales being cleared. Total port receipts, 23,000 balys, cleas than the same day last year. On the opening prices went of 255 points and after a slight rally on covering broke heavily. The late market showed hesitation on both sides, with the disposition about equal, to even up rather than to extend commitments. Of the business done for outside accounts, switching was a feature, the near months being exchanged for the late spring and summer positions. Wall street displayed a waiting policy. On the downward movement a number of stop orders were reached. The market closed barely steady, with prices \$\frac{\text{will}}{\text{in}}\$ policy. On the downward movement a number of stop orders were reached. The market closed barely steady, with prices \$\frac{\text{will}}{\text{in}}\$ policy. Terrible Epidemie in Japan. Terrible Epidenile in Japan.
CHICAGO, Oct. 18.—A special to the Record from Tacoma, Wash., says: A terrible epidemic of dysentery is sweeping over Japan with fatal results. Official statistics show that out of 50,000 persons attacked up to September 13 nearly 12,000 have died. The authorities estimate that 100,000 cases will be recorded by the end of October.

New rebellions have broken out in Szechuan and Hunan. The Thibetan king at Tachieniu has abdicated, being practically deposed by Chinese officials. 55 feeders 1006 51 feeders 1227 16 feeders 227 16 feeders 991 1 bull 1210 42 steers 1210 35 steers 1225 5 steers 1312 3 steers 1276 20 steers 1300 26 steers 1365 9 steers 1464 1 cow 1250 2 steers 1160

TOO MUCH FOR SAM. Experience of a Dismembered Soldier with His Colored Valet.

General Nicolls of New Orleans sacrificed an eye, a leg and an arm to the cause which he believed just, and came out of the war, 26 steers .. as he declared, "only half a man." But the half that was left enjoyed a joke as keenly as ever. Science replaced the lost members so successfully that nobody who was ignorant of his misfortune could detect it. The general often told the following story: Stopping at a hotel in Mobile a negro boy was detailed to help him prepare for bed. After his bag was unpacked and his coat laid aside he said: "Now, Sam, take off Sam stared speechless,

'Don't know yet how to take off legs, ch? Now, look here!" He unscrewed the leg, and keeping it carefully covered with its long, black stocking, laid it aside. "Now, take off this arm." "No, sah! no sah! Nebber took off no gentlum's ahm in my life!" gasped Sam,

"You're a pretty valet. Nothing easier." The arm was taken off and laid beside the 2 bulls... 1 feeders. "Oh, by the way! We'd better take an eye out!" He took it out. Sam backed to the door, afraid to turn his back on the terrible guest, who stretched himself sleepily, and

Sam rushed out of the room to the office and could only find strength to gasp out, "It's de debbit hezelf, sah! He's taken his-

Stock in Sight. Totals ..... 54.533 47.583 32.492 Inventor Mergenthaler III.

BALTIMORE, Oct. 16.—Ottmar Mergen-thaler, the inventor of the ilmotype, is seri-ously ill at his home in this city. Mr. Mergenthaler has been afflicted with pul-monary trouble for some time and for the last three weeks has been confined to his bed. He was born in Wurtemburg, Ger-many, on May 10, 1854.

CHICAGO. Oct. 16.—The members of the American Street Railway association will hold their eighteenth annual convention and exposition in this city beginning tomorrow. The program combines the reading of papers on street railway topics, a large exhibit of street railway supplies and devices, sightseeing, and other amusements.

The Inquisitive Tongue.

The curiosity of the tongue does not caus the human being so much trouble as the curiosity of the eye, observes the Boston Transcript. But the tongue, within its limits, is the most curious of all. Let the dentist make a change in the mouth: let him remove a tooth, or replace with his admirable artifice one that has long been absent; let bim change the form

of a tooth by rounding off a corner or

building up a cavity, and see what the

tongue will do! It will search out that

place, taking careful and minute account of the change. Then it will linger near the

2 cows... 1020 3 73 1 stag.... \$10 2 20 27 cows... 880 2 25 118 calves... 340 G J. Henry. 880 2 25 3 feeder. A B place. If it is called to other duties it comes back as soon as they are discharged and feels the changed place all over again, as if 3 feeders. 238 4 20 29 feeders. 255 4 20 2 cows. 1085 8 611-Colo. 2 cows. 1085 8 65 9 feeders. 238 4 05 it had not explored and rummaged there already.

It makes no difference that these repeated investigations presently cause annoyauce to its supposed master, the man; the tongue in nothing more than in this matter proves that it is an unruly member and will not be controlled.

It seems to have an original will and consciousness of its own, and nothing will serve it except the fullest satisfaction of its curiosity. It will wear itself out, perhaps, but it will find out all about the strange change.

POSTOFFICE NOTICE.

(Should be read daily by all interested, as charges may occur at any time.)
