## Vale Graduates Parade.

Yate Graduates Parade. NEW HAVEN, Conn., Oct. 18.-Three thousand Yale graduates and under-graduates united tonight in a parade before President Hadley. The hit of the proces-slot was the train of the "Hadley Trans-portation commany." It consisted of a loco-motive and three cars, each of the latter sixteen feet long and seven feet high, lighted from within with lanterns. The locomotive moved on wheels and was fitted with a baller which emitted steam at every step and continuously rang a clamorous hell as a warning of its approach. The baggage car contained an excellent likeness of Senator Chauncey M. Depow in the act of pulling out a trank marked "A. T. H., Yah."

of the secretary of state for the colonies, Joseph Chamberlain, and demanded that the latter should clear himself of the charge of cued meat and to entertain them with complicity in the Jameson raid. After denouncing the action of Cecil Rhodes and the South African league, Mr. Stanhope said: "The British high commissioner in South Africa (Sir Alfred Milner) is lacking in quaiities necessary to a diplomat in his position. While entirely acquitting the government as

a whole of any connection with these doubtful motives, I am convinced that the secretary of state for the colonies and the British high commissioner in South Africa have for the last two years been fully determined that war, and war only, should end this ans reached here on a special train this crisis and that they have worked for this morning and were met by hundreds of Louiscrisis and that they have worked for this consummation during the last year."

The amendment was seconded by Samuel Thomas Evans, liberal member for the middie division of Glamorganshire. A supplementary army estimate has been

issued asking the House of Commons to vote an additional 35,000 men and £10,000 --000 (\$50,000,000) in consequence of the situation in South Africa. It is explained that the 35,000 men repre-

sent the probable maximum excess beyond the establishments fixed for the year 1899-1900, and is in consequence of the calling out of the reserves and of the temporary transfer of troops from the Indian to the British establishment. With the additional £10,-

000,000 the total army estimates are £30,-167,200.
