AMOUNT OF MONEY FOR WHICH HE SUED

Several Other Similar Claims Come Under the Same Category and Will Probably Be Paid-The Syllabus,

LINCOLN, Oct. 18 .- (Special.)-The supreme court this afternoon decided in favor of ex-Superintendent L. J. Abbott of the State Asylum for the Insane in his suit against the state for \$1,000, which amount he claimed was due under an appropriation by the legislature. The salary bill as passed by the legislature of 1897 provided for a salary of \$2,000 per year for the superintendent of the asylum, but the bill signed by the governor provided for a salary of \$2,500. Several other claims similar to the one of Dr. Abbott have case decided today, they will probably be paid. All of these claimants, as well as Dr. Abbott, asked for only their original salary, but after the terms of office expired claims | turned his mind. for the excess amounts were at once filed. Following is the syllabus of the opinion:

The Sylinbus.

The syllabus. The enrolled bill authenticated by the proper officers of the houses, approved by the governor and filed with the secretary of state and the journals of the houses are the official records of the proceedings of the legislature relative to the enactment of the law and are the only competent evi-dence in a controversy in regard to the due passage of the bill, or in respect to alleged material errors in its substance. naterial errors in its substance.

Following is a quotation from the opinion: In some cases the records of last resort have approved the reception in evidence of the engrossed bill. In this state we have not decided the enrolled bill to be conclusive, but have examined the legislative journals. In no case up to the present has the su-preme court approved the reception and con-decident of anything more or further than have just stated.

After several citations of authorities and quotations from Nebraska cases, the opinion continues:

continues: The memoranda or slips of paper attached or pinned to the original bill were clearly incompetent; they were in no manner iden-tified except by their subject matter respectively, and the fact that they were in the office of the secretary of state and placed there by an officer of one house of the legislature, and probably that they were so delivered occurred because they were so delivered occurred because they were planed to the original bill. There was nothing more to show that they ever be-came or were of the proceedings of the leg-islature. The original bill and the engrossed bill were not identified by the signature of any person or in any other manner than that they were placed in the office of the secretary of state by an officer of the leg-islature. The engrossed bill is not such a matter of care and record in the proceed-ings that it should be received to impeach taced records of the acts of the legislature. As to Stolen Cattle.
