LATTER CEREAL SHOWS VIGOR IN SESSION

Light Receipts and Poor Husking Returns Accelerate the Advance and Market Finally Closes. at the High Mark.

CHICAGO, Oct. 19.-Weakness abroad and an oversupply in stock oppressed wheat today, but corn came to the rescue and December wheat closed with but 1/40 loss, Corn closed with a gain of 14814c. Small receipts and a good shipping demand were the strengthening influences. Oats advanced \$1.25; isc. Pork declined 10c, tard 5c and ribs 714c. Selec

Wheat opened easy and lower. Disappointing cables and the steady increase of local stocks were the main factors against the market. There was very little effort made to follow up the decline, however, and after the price had worked off %c the selling disappeared entirely. Then for two hours the market remained in a comatose state, with fluctuations narrow and trades widely separated. During the last thirty minutes the rated. During the last thirty minutes the firmness in corn and complaints of poor condition of winter wheat started an upturn which was but feebly contested and the market closed firm at the best price of the day. The weakness of outside markets handlcapped the trade. December opened 340% lower at 7034070gc, touched 7034071c, declined to 70% and advanced to 71c at the close. Chicago received 115 cars, four of which graded contract. Minneapolis and Duluth got 853 cars, compared with 837 for the same day last year. Total primary receipts were 1,29,000 bushels, against 2,52,000 bushels a year ago. The local stock of wheat has increased 700,000 bushels in four days, while several boatloads are enroute

bushels a year ago. The local stock of wheat has increased 700,000 bushels in four days, while several boatloads are enroute from Duluth to this port, which will augment the increase still further.

Corn ruled firm and active. The market opened a trifle off in sympathy with the decline in wheat, but the buying became so pronounced at the outset that shorts were forced to cover and a rapid advance followed. There was a slight reaction later on profit-taking, but elevator buying owing to improved shipping demand started another upturn and the market closed at the top. Light receipts and poor husking returns accelerated the advance. Receipts, 332 cars. Seaboard reported thirty-two boatloads taken for export. December opened a shade lower at 3140313c, soid sparlingly at 314c, advanced to 32c, sold off again to 315c and rose to 32c at the close. Buying by shorts and the strength in corn steadied oats. The easiness of ocean rates helped the advance. Cash demand slow; receipts, 190 cars. December opened with sellers at 225c.

Provisions ruled heavy throughout and prices slumped easily when any selling pressure was applied to the market. There was no fresh feature connected with the trade to account for the weakness. January pork closed 10c lower at \$3.3079.324. January lard 5c lower at \$3.375.

Estimated receipts for Friday: Wheat, 115 cars; corn, 370 cars; osts, 180 cars; hogs, 25.000 head.

MOVEMENTS OF STOCKS AND BONDS,

Market's Strength Disheartens Bears
But Gains Soon Disappear.

NEW YORK, Oct. 19.—The stock market
showed signs of continued strength during
the early hours of the trading and the covcring movement among a large outstanding
bear interest continued in active force. The
professional opponents of the bears did all
they could to take the market away from
them by bidding up prices, picking out individual stocks for that purpose to increase
the appearance of strength in the market.
As the demand from the bears fell off later
in the day the fact began to emerge that
there was no very eager demand for stocks
among the public at large and prices began
to slip downward. Seeing the healtancy of
the advance the bears took renewed cournage and put out new short lines. The fall
in prices was considerably accelerated during the last hour and the demand to cover
at the decline was sufficient to cause only
a feeble raily. The closing was barely
steady and the earlier gains were practically all wiped out. The fall in prices
from the top level reached a point or over
in a large number of prominent railroad
stocks and in some of the industrial specialties ranged from 1 to over 3 points. The
railroads running through the southern ragion came into some prominence late in the
day on account of the general activity and
prosperity of business in that locality and
prosperity of business in that locality and
prosperity of business in that locality and
the relatively larger increases in earnings
shown by its railroads. Illinois Central,
Louisville & Nashville, Southern Railway
preferred, Nortolk & Western preferred and
Chesapeake & Ohio all showed benefit from
this cause and the gains established were
better maintained than at other points, individual strength was shown also by Colorado & Southern first preferred, Tennessee
Coal, the International Paper stocks, Northern Pacific, the Hocking Valley stocks, New
York, Chicago Termitaal. Pullman reacted sharply
after its prolonged advance, receding an extreme 9 points an Market's Strength Disheartens Bears

on, but still continues in that direction on balance, and the course of New York exchange at several important points continues downward. The subtreasury has taken more from the banks and the applications for anticipated interest on government bonds have proved entirely insignificant. With no gain in cash resources from any source the condition of the banks can only have been strengthened by a further contraction in loans. The actual rate for demand sterling bounded up a full cent today. Cotton bills continue exceedingly scarce and the demand for exchange is quite large. This demand is attributed in part to the requirements for remittance on account of the conversion of Central Pacific securities. The possibility of gold exports depends on how much further this demand shall extend. The rate for demand sterling is now only 4c under that at which gold went out earlier in the year.

Foreign Financial.

Foreign Financial.

PARIS, Oct. 19.—The bourse today opened hesitating, but improved in sympathy with the strength of Kaffirs. Internationals were irregular, rentes. Spanish 4s and Italians being firmer and Portuguese advancing on the rumor that a conclusion of the negotiations as to Delagoa bay is imminent. Brazillians, on the other hand, were flat owing to reports of bubonic plague and the decrease in exchange. Rio thios were agitated during the early hours, but closed steady; DeBeers' mining shares were dull, but finished firm: Kaffirs readvanced on the rumor of a Boer defeat. Three per cent rentes, 1907 42½c for the account; exchange on London, 25f 25½c for checks; Spanish 4s, 61,95.

Coffee Market.

NEW YORK, Oct. 12.—COFFEE—Options opened firm at an advance of 15925 points and ruled sensationally active and strong, with an upward tendency on wild demand from shorts and heavy foreign buying. The buying was founded largely on reports of bubonic plague in Santos. All foreign markets were firm and higher. Receipts in Brazil were light, but 33,000 bags. Closed steady at 10925 points higher. Sales, 51,000 bags, including November, \$5,0005.05; December, \$5,1595.25; January, \$5,25; February, \$5,256; March, \$5,3095.00; Sentember, \$5,000,50; Sentember, \$5,000,50; Sentember, \$5,500,50; Sentember, \$

Dry Goods Market.

NEW YORK, Oct. 18.—DRY GOODS—
There has been somewhat less snap to the demand for staple cottons today, but it has still been in excess of what sellers are willing to fill. It has also been a quiet day in the matter of advances, none of any moment being named. The tone is, however, as strong as ever and there are no definite indications that the market has reached its top limits. Printed calicoes are very firm in staple lines, but fancies are still easy to buy. Ginghams are strongly held in both first and second hands. There has been no business in regular print cloths. Wide odds are strong. There has been no change in the woolen goods division.

Sugar Market.
