

NEVILLE'S NAME ON TICKET

Secretary Porter Completes the Work of Certifying Nominations.

CASE IN COURT WILL NOW BE DROPPED

Popercate Estimates of the Size of Bryan's Audiences Vary Widely from the Facts—Lincoln Local Notes.

LINCOLN, Oct. 25.—(Special.)—Secretary of State Porter has completed the work of certifying the various nominations for public offices to the county clerks over the state and, as supposed, the name of William Neville has been placed on all of the clerks in the Sixth district as the democratic nominee for congress. An order commanding Secretary Porter to appear in the Lancaster county court on October 27 and show cause why Mr. Neville's name should be ascertained is still in effect, but as the certificates have already been sent out it is probable that the case will be dropped.

Reports published in the popercate press concerning Bryan's audiences are the subject of a good deal of humorous comment in Lincoln. This morning it is asserted that Bryan spoke to 2,000 people in Polk county yesterday, or three-fourths of the voters of the county. It was reported that in Stromburg, a city of 1,300 population, he spoke to 1,000 people, at Shelby, a village with a population of 313, he spoke to 1,000 people, and that at Osceola he spoke to a crowd that completely filled the public square. As the ordinary public square will hold about 8,000 people there was evidently a mistake in the estimate of the crowd at that place. It is also difficult to understand why it was reported that Bryan spoke to 3,000 in the county, or three-fourths of the voters, when there were only 1,864 votes cast at the last previous election.

From information received here it appears that an unusually hard fight is being waged in Sarpy county on the democratic candidate for county clerk—Charles Behrendt—and that the issue of the campaign there is the candidate for sheriff—John Bohrendt, now county treasurer. A report of the treasurer examiner, on file in the auditor's office, shows that in 1897 he held notes and U. S. bonds amounting to \$1,570, which have since been paid. The shortage was later made good by Behrendt, who gave a personal check for the amount. He is still holding office and hopes to step from the treasurer's office into that of the county clerk.

UNIVERSALISM IN THE WEST

Needs of the Western Churches Presented at Universalist Conference in Session at Boston.

BOSTON, Oct. 25.—Nearly all of the forenoon session of the Universalist conference today was devoted to the presentation of the needs of the west. Charles L. Hutchinson of Chicago presided. The first paper was read by Rev. Rodney F. Johnson of Chicago. He said: "The general convention can do best for the west, not by attempting to start new movements, but by sending the ablest men of the denomination to cheer and encourage the churches in existence. There is a serious need of revivifying the missionary spirit of the western churches. What is needed above all else is a better class of ministers." Rev. Florence Kalkoff Crooker of Ann Arbor, Mich., also described and commented upon the "Needs of the West."

It was decided to appoint a committee of five to consider plans for a uniform service of worship, the report to be made at the next general convention. Dr. Powers of New York moved the adoption of the following: "Resolved, That we believe all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness; and that governments derive their just powers from the consent of the governed."

He also proposed that a copy of the resolution be forwarded to President McKinley. A motion to indefinitely postpone action on the resolution was carried.

Rev. Snodgrass of Haverhill, Mass., said: "I do not believe in discussing this matter, but I am opposed to the whole Philippine business."

EXPERT OPINION ON REESE

Nebraska Lawyer Shows Need of Brains and Honor on Bench.

HOLCOMB'S RECORD CONTAINS WEAK SPOTS

Barileters and Laymen Alike Look Askance at His Course While Dignified Bearing of Reese Commands Respect.

The following communication from R. J. Nightingale, an attorney of Loup City, is indicative of the estimate of State Bar members held by the public. In his report, dated at the time he presided over the Twelfth judicial district. Mr. Nightingale points out the limited experience of Holcomb in the practice of law, his abandonment of his office for a political career, his attitude toward the record and other weak spots which are generally discussed. The ability and uprightness of Judge Reese are mentioned in contrast, together with his dignified course in refusing to stump the state in pursuit of such an office. The letter is as follows:

LOUP CITY, Neb., Oct. 25.—To the Editor of The Bee: Although I am not a regular subscriber for your paper, through your columns you will permit me to express my views on the question of the election of a judge of the Twelfth judicial district at the coming election. I am a lawyer by profession, residing at Loup City, and practiced in the Twelfth judicial district during all the time Mr. Holcomb presided over that court. But it is not to lawyers' desire to speak, but to the honest citizen, that I wish to express my views. I am a lawyer by profession, residing at Loup City, and practiced in the Twelfth judicial district during all the time Mr. Holcomb presided over that court. But it is not to lawyers' desire to speak, but to the honest citizen, that I wish to express my views. I am a lawyer by profession, residing at Loup City, and practiced in the Twelfth judicial district during all the time Mr. Holcomb presided over that court.

Holcomb's Record is Marred. Mr. Holcomb has done some political work which commands him to the people of Nebraska. He has been a member of the United States senate and business integrity in the administration of the courts. He has been a member of the United States senate and business integrity in the administration of the courts.

It would not do for the people of this state to elect a judge who is not a lawyer. It would not do for the people of this state to elect a judge who is not a lawyer. It would not do for the people of this state to elect a judge who is not a lawyer.

Only Republican Courts Condemned. When the populist party sprang into existence it severely condemned the idea of a populist party. It severely condemned the idea of a populist party. It severely condemned the idea of a populist party.

Lawgiving Deserted for Politics. When Mr. Holcomb was the judge of our district he made us a good judge so far as his professional ability was concerned. He was a good judge so far as his professional ability was concerned. He was a good judge so far as his professional ability was concerned.

Contrast of Two Attitudes. The populist voter really, down at the bottom of his heart, is a conservative. He is a conservative. He is a conservative. He is a conservative.

When our brother lawyers of this state the important question is to have a supreme judge elected in whose integrity, ability and confidence in whose learning and ability they have no doubt. When our brother lawyers of this state the important question is to have a supreme judge elected in whose integrity, ability and confidence in whose learning and ability they have no doubt.

What the Lawyers Want. With my brother lawyers of this state the important question is to have a supreme judge elected in whose integrity, ability and confidence in whose learning and ability they have no doubt. With my brother lawyers of this state the important question is to have a supreme judge elected in whose integrity, ability and confidence in whose learning and ability they have no doubt.
