TO TEST MARCONI'S SYSTEM

Naval Officers Preparing to Conduct Thorough Experiments of Wireless Telegraphy.

WASHINGTON, Oct. 26.-Naval officers

are looking forward with interest to the coming experiments the department is to make with the Marconi system of wireless telegraphy. Arrangements have been made between representatives of the bureau of equipment, of which Admiral Bradford is the head, and Mr. Marconi, by which the department will bear the expenses to which inventor may be put in conducting the experiments. They are to be under the direction of a board of officers, of which Lieutenant Commander Newton and Lieutenants Hill and Bliss, all electrical experts, are members. The cruiser New York and the Battleship Massachuset s are to be used for the experiments, the Navesink light station on the New Jersey Highlands being utilized as the shore station to which the messages will be transmitted from the ships at sea. The first trip of the vessels to sea probably will be made Saturday if the apparatus necessary for conducting the experiments can be properly rigged up by that time. The experiment will be made in all kinds of weather, at variable distances and while the sea is calm as well

Philippine Question.

DESIRES PROMPT AVOWAL OF POLICY

Natives to Be Given to Understand What They Are to Expect-All Information at Hand to Be Given Legislators.

NEW YORK, Oct. 26 .- A special to the to me by my countrymen. My heart is full Herald from Washington says: Prompt declaration by congress in favor of asserting and maintaining complete sovereignty Rea. over the Philippines at whatever cost and in favor of the most liberal kind of self-government when the insurrection ends is what the president wants. It is also what the Philippine commissioners want. There is a great deal yet for the president to do on his message and for the peace commissioners to do on their report, but this one important

conclusion is certain. Your correspondent has excellent authority for the statement that the president intends to make specific recommendations to congress in favor of holding the Philippine permanently and as to the form of civil government to take the place of the military as soon as the Tagalos now in rebellion surrender. It is authoritatively stated that there will be no half-way measures suggested for the purpose of eldetracking the Philippine question until after the next campaign. The president will face the issue squarely and give congress the best information from his commissioners and other sources to

support the position he has assumed. Although members of the Philippine commission are not talking for publication, there is no doubt they will lay great stress in their report upon the desirability of a prompt and emphatic declaration, on the part of congress, which will convince these now in rebellion that all branches of the government are united on the question of permanent American control in the Philippines. Such action, in the opinion of Admiral Dewey and Prof. Schurman, will be almost as effective as guns in ending the war in the Philippines. It is now only a question of the specific kind of government the president will recommend. He will be governed in his decision by the views of the Philippine c. m-

missioners, whose final decision will be the result of the deliberations they are here for

Arranging to Return Bodies of Soldiers Who Have Died in the Philippines.

NEW YORK, Oct. 26 .- A special to the World from Washington says: D. H. Rhodes, an employe of the quartermaster's department, who superintended the removal of the dead soldiers from Cuba last spring, has departed for Manila to make arrangements for bringing to this country the bodies of the boys in blue who have fallen in battle or died of disease in the Philippine Islands.

The promise made by the president at the time of the breaking out of the Spanish war that the bodies of all soldiers who fell in battle or died of disease in foreign countries should be returned to their homes in this country for final interment will be strictly adhered to in regard to the Philippine war. An expedition sent out last spring was a failure and bodies will be sent back by the returning transports which are now carrying troops to the islands and will probably reach this country about the first of the

The remaining bodies of American soldiers left in Cuba and Porto Rico last spring and the bodies of those who have died in those islands since will be brought back to this country in December.

EANOR M. TIPPELL, 3711 Powellton Ave., Philadelphia, writes: "I had inflammatory rheumatism.

which was for weeks so intense that I was unable to walk. I was treated by several prominent physicians, and tried many patent medicines, but without relief. I felt so much better after taking two bottles of S. S. S., that I continued the remedy, and in two months I was cured completely, and have never since had a touch of the disease."

S.S.S. For Blood (Swift's Specific) is the only remedy which reaches this painful disease, and is guaranteed purely vegetable. for valuable books mailed free by Swift

Forty Years a Leader

ublic accounts for the popularity of Duffy's Pure Malt Whiskey

which has steadily increased for the

past forty years until now "Duffy's Malt" is a household word in the remote corners of the globe. As a nerve tonic it has no equal. It cures dyspensia and biliousness, aids digestion, timulates the blood, invigorates the brain and frees the entire system from the dread germs of malaria, fevers, colds and pneumonia. Every household should have it. Government modeling stamp marks the genuine. Description
