Employment at Good Wages Abounds for Industrious Workingmen.

CONDITIONS STEADILY ON THE UP-GRADE

Every Branch of Labor Has Been Greatly Benefited by Returning Prosperity of the Last Two or Three Years.

The past year has been an accession of prosperity to the workingman of the middle west such as has probably never before taken place in so short a time. Contrasted with the idleness and low wages that prevailed generally four or five years ago the industrious workman's lot at present is all that could reasonably be expected.

And the workman himself readily acso freely made of late that prosperity has mer. entered the homes of the laboring classes does not depend on observation from afar, Nor is it a conclusion deduced from noting strong in good standing, and I don't believe and by night there was a very respectable. a few stray facts, but it is the word of the there is a man idle. A number of new men toiler's own mouth. Idle men can hardly be are coming to town right along, both plumbfound and when found they generally belong ers and steamfitters, but there is work to the shiftless few whose idleness is a thing of their own choosing

The history of unionism, when rightly understood, is a faithful reflection of the ups and downs of the laboring men. The good deal better than they were two years their families, as the night had been set union movement in and about Omaha was ago. One schedule governs all, and that never so strong and so nearly triumphant is \$4 per day for eight hours and a half over all difficulties as it is at present. To day off Saturday. There are no helpers or be sure, the unions have many things they half-taught men at the trade now, either are still working for, as they always will, A few years ago wages ran from \$2 to \$3.60, but in almost all lines their recent demands | and the latter price was the limit for good have been complied with and they wield an men, working longer hours. There are influence none the less real because not only two unfair shops in the city now. As ing and every number was encored time easily estimated or measured.

In the trades followed by the largest numbers | two years now and I don't expect it to." | the Shamrock," which to of men. Within the past year fully twelve | President A. McDermott of the Retail | was forced to repeat it. trades have been organized or reorganized and unions started in them on a solid footing. The activity of workingmen here in eral unions in South Omaha and a few in

The following trades have been organized into unions within the past year: Roofers, woodworkers, bartenders, confectioners, broommakers, boilermakers brickmakers. (reorganized), brewery workers (reorganized), bakers, leather workers on horse goods. In addition a painters' local union has been organized and a union has been formed among the building mechanics' laborers, including such workmen as hod carriers, brick haulers, and others.

### Convincing Interviews. W. H. Bell, member of the Building

Trades council, says: "The issue of membership cards October 1 showed that there were 1,200 men in the building trades' organizations, of which about 750 are carpenters, bricklayers and painters. Among these 1,200 there is practically no idleness. Of course there are a few idlers, as there always will be, but there is no idleness for any who want to work. In regard to wages, the bricklayers and plasterers are getting about the same scale as has prevalled for four or five years. They have gained in the amount of work there is to do. The painters have advanced their scale 5 cents per hour within the last year and the carpenters the same. The electrical workers have advanced their wages from \$2.50 for ten hours' work to \$2.50 or more for eight hours, an advance from 25 to 311/4 cents per hour. The woodworkers, or mechanical workers in wood, have organized and established a scale within the last year and made the town solidly union as far as their | The wages have remained about the same in line is concerned. They have reduced their the last few years, but there is double the ther hitch before the big fair closes. day one hour and increased their wages 5 cents per hour. The roofers have adopted steady employment and earn much more STORES CLOSE ON TUESDAY

a scale and are making the town union. "There used to be a prosperous union among the stonecutters, but they have been troubled a great deal by the Italian cutters, who have come over of late years and work for \$1 a day or some such figure. Of course the unions that have dropped in of late years have been able to take advantage of the work done by the ploneer unions and have had a much easier time of it than those that came in first.

"The outlook for the building trades is

## A TEST EXPERIMENT.

Peculiar Power Possessed by a New Medicine. Of new discoveries there is no end, but one of the most recent, most remarkable and one which will prove invaluable to thousands of people, is a discovery which it is believed will take the place of all other remedies for the cure of these common and troubles. This discovery is not a loudly advertised, secret patent medicine, but is a scientific combination of wholesome, perfeetly harmless vegetable essences, fruit

salts, pure pepsin and bismuth. These remedies are combined in lozenge form, pleasant to take, and will preserve their good qualities indefinitely, whereas all liquid medicines rapidly lose whatever good qualities they may have had as soon as uncorked and exposed to the air.

This preparation is called Stuart's Dys-Tablets and it is claimed that one of these Tablets or lozenges will digest from ing in it, either for the journeymen or the 200 to 3,000 times its own weight of meat, eggs and other wholesome food. And this claim has been proven by actual experiments in the following manner: A hard trade-one of the best trades, too. Now wages boiled egg cut into small pieces was placed are \$3 or \$4 a week better than they were a in a bottle containing warm water heated to ninety-eight degrees (or blood heat), one of these Tablets was then placed in the bottle and the proper temperature maintained for three hours and a half, at the end of which time the egg was as completely digested as it would have been in a healthy stomach. This experiment was undertaken to demonstrate that what it would do in the bottle it would also do in the stomach, hence its unquestionable value in the cure of dyspepsia and weak digestion. Very few people are free from some form of indigestion but scarcely two will have the same symptoms. Some will suffer most from distress after eating, bloating from gas in the stomach and bowels, others have acid dyspepsia or heartburn, others palpitation or headaches, sleeplessness, pains in chest and under shoulder blades, extreme nervousness as in nervous dyspepsia, but they all have same cause. failure to properly digest what is eaten. The stomach must have rest and assistance and Stuart's Dyspepsia Tablets gives it both, by digesting the food for it and in short time it is restored to its normal action and vigor. At same time the Tablets are so harmless that a child can take them with benefit. This new preparation has already made many astonishing cures, as for instance, the

Which obtains between the Scandinavian peoples and our own.

I thank Mr. Elving for his kindly manner of dealing with a misunderstanding of what I actually said at the Auditorium and for lub was held at Twenty-fourth and Ames avenue last night. The hall was crowded and a long program of speeches was committed, participated in by prominent republicans. Among the speakers were: Lee Estelle. J. C. Wharton, E. Mullery and J. McBride.

LABOR SHARES PROSPERITY work going on and coming. There are no ELKS HAVE A JOLLY TIME Jarge buildings being built, most of them being good average residences of the middie class. The railroad construction in Iowa and the west has helped us out here considerably the last summer. For instance, members of the Omaha Carpenters' unions are now working on bridges and station buildings in Iowa and west of here on the Union Pacific.

Carpenters All Busy.

G. W. Miles, a member of the press.comnittee of the Carpenters' union, says in regard to the condition of that organiza-"There are about 375 carpenters to the union, and as far as I know there is not an idle man. At our last meeting two or three were reported without work, but places were soon found for them. ity is pretty solidly union now, though there are a few non-union men. We have secured a raise of 5 cents per hour; the demand was made about a month ago and we succeeded. Before that wages had been at 30 cents an hour for two years. The day and by 3 o'clock the gates had clicked prospects seem very good, not only for over 6,000 people into the grounds. The knowledges that this is so. The assertions the winter, but also for spring and sum-

The Hatter,

The Hatter,

The Hatter, unions in all the important departments of the whole crew will hold on through the Palms," by Faure, and was obliged to remanual labor, and especially is this the case winter. Work has never let down any for spond with his song, "The Columbia and Clerks' association: "The situation of the clerks is different from that of men engaged in any other line of work. Cheap compecompete with cheap and incompetent help. played the popular "Because." But we have built up a strong organization and in the near future we will greatly benefit our members by the adoption of a minimum scale of wages for all the stores in the present time and the union looks after its members to see that they have work. We believe in equal pay for the sexes and when the minimum scale is established that will be one of the conditions of it. The early closing movement gave us a setback this summer, but we expect to make it go again in the spring. Just at present we are all getting along very well."
P. M. Jones, secretary of the Typograph-

ical union: "There are about 270 members in the union, of which seventy are honorary members, having gone into business for themselves or taken up some other work. Very few idle printers are in town now. Wages are about the same as they have been for the last five years, but they were not cut down during the hard times. A great many printers were thrown out of work then and our membership was reduced by those who left town in search of work Those who did remain at work received the Service building who was keeping a watchto hold up very well."

Blacksmiths Have Plenty of Work. Andrew Murphy, a member of the Blacksmiths'union: "There isn't a good blacksmith idle in the whole town. There are twentyfour men in the union, and it includes the o the effect is that a man can have than he used to do. Things have been pick ing up for the last two years. As to the Omaha Day at the Exposition to Be prospects, it is hard to say anything definite, but I see no reason why the good times

should not hold out." F. M. Youngs of the Printing Presemen's union: "We have thirty-six members in good business men of the city to the call for a standing, including practically all the printing offices in town. At present there is only one man out of work, but he has just got out of work and by the end of the week will doubtless have a place. It is fair to say that all our men are working. We have just demanded and secured the promise of a new scale, to go into effect November 21. It effects a material raise in wages and every pressman in town stood pat on it. Until about a year and a half ago there were always from five to eight men out of work but now there is work enough for every good man. The prospects are bright. There is only one question that can come up in ley, Stiger & Co., Continental Clothing comthe near future and that is the scale, and we pany. Browning. King & Co., Nebraska expect to get that without any difficulty. Clothing company, Orchard & Wilhelm Carobstinate diseases, dyspepsia and stomach The pressmen's helpers and feeders are organized in a separate union, but are under Drexel Shoe company, H. Hardy & Co., the same jurisdiction as we are. These men T. P. Cartwright & Co., A. Hospe, O. K. were never in better shape than they are Scoffeld Cloak company, Regent Shoe com-

Fred Bobzin, business agent of the Bakero' union: "The bakers are in far better condition than they have been for years. The union has eighty-five members, including nearly all the men in the union shops. There are, however, a number of non-union shops. A few years ago the bakers were working for from \$6 to \$8 per week and the trade had run down so that there was nothbosses. Bread was sold for scarcely enough to pay for the flour and the result was that a good baker could not make a living at his year ago, and the prospects are that our conditions will continue to improve."

## Machinists Are Satisfied.

A member of the Machinists' union said The machinists are in about the same condition that they have been for several years in regard to wages, but, of course, there is more work than there was several years age. The number of men at work in Omaha has not increased very much for the reason that the Union Pacific shops, which employ the largest number of any shop in the city, have not been increasing the force here, but have been putting on more men all along the line. That has taken men away from Omaha. The union has some troubles that are not settled yet, but as far as wages and work are concerned we are quite well satisfied." Secretary O'Neal of the Sheet Metal Workers' union: "There are forty men in the union now and not one is idle. The town is pretty well controlled by the union in this The wages are a little better than they have been for the last few years and solo. The programs follow: there is much more work. There is consid- 2:30 p. m., at the Auditorium: erable work in sight. Of course, it is impossible to say just how long work will hold out, but at present it looks as though busi-

ness would keep up well." following:

After using only one package of Stuart's

Dyspepsia Tablets 1 have received such great and unexpected benefit that I wish to express my sincere gratitude. In fact it has been six months since I took the package and I have not had one particle of distress or difficulty since. And all this in the face of the fact that the best doctors I consulted told me my case was chronic dyspepsia and absolutely incurable as I had suffered twenty-five years. I distributed half a dozen package among my friends here who are very anxious to try this remedy.

Bee office. the new contract, now in force, the city light. For some years the city has been paying \$12 a month for each are light, so that \$1.50 a month is now saved on each light. The old contract, cancelled by mutual consent, would not have expired until July, 1900. By the entering into of a new contract a saving of \$1,000 will be shown and this saving will go a long ways toward paying for the fifteen new lights ordered

Fusion Forces Uneasy. Friday's registration is causing the fusion

a short time ago.

forces to do a great deal of hard thinking. As the result of two days' registration 954 republicans and 949 democrats have reglatered. South Omaha has always been considered a democratic city, and the large number of republicans registered is an indication that many of the new comers are republicans. Very little, if any, work was done by the republicans on Friday, but the fusion forces worked early and late in order to get out as large a registration as possible. Even with all the hard work the democrats failed to show a gain. It is inferred that a majority of the no-party voters propose to vote split tickets. Those who are in touch with
the situation assert that it would not be a
pit surprising if South Omaha turned out a
republican majority this fall.

Important Capture of Crooks. Al Green, alias James Gordon, and Bert Doran, the two men arrested on suspicion of having committed burglaries in and around Omaha, and who were suspected on around Omaha, and who were suspected on good circumstantial evidence of having made an attempt on the safe of the Waterloo Creamery company, have been further connected with crimes committed lately. They have been identified as participants in the robbery of a stockman of \$500 in South Omaha, and are strongly suspected of having had a hand in the Benson street-car robbery. Their capture was a clever stroke of detective work on the part of Officer Edghill and some brother officers.

High School Biological Trips. Two special trips have been made the last week by the students of biology in the High school. The first was made by the
