FREIGHT RATES ARE FIRM

Western Lines Refuse to Shave Tariff Rates on Export Shipments.

INDICATES EXISTING PERFECT HARMONY

Freight Departments of Competing Lines Come to Understanding and Each Takes Action for Protection of Rates.

The Western Trunk Line committee held a meeting in Chicago Tuesday and decided to maintain the same rates on packing-house and commodity assignments routed for export as for domestic shipments. The territory affected by this decision is that covered by the lines having membership in the Western Trunk Line committee and lies between the Missouri and Mississippi rivers. All the railroads belonging to the committee took "individual" action in this matter beginning with today. Omaha lines which will main-tain the rates are the Northwestern, Burlington, Rock Island, Milwaukee and Missouri Pacific, the only ones handling export shipments to any extent.

This new order of things is important in that it shows a close relationship between the freight departments of the various western lines and indicates a disposition to pur sue business along legitimate channels. The rate for packing-house products between the Missouri and Mississippi rivers as a basing point has been 181/2 cents per 100 pounds for both export and domestic shipments. In the competition for business, however, the various lines have shaved the export rate to such an extent that the authorized tariff has almost been lost sight of. This has been done in order to equalize the rate according to the port from which the shipments are sent across the ocean. The rates from the Mississippl river to the various ports on the Atlantic coast are at variance and the western railroads in order to equalize these differences have had to lower the basing rate between the point of shipment and the Mishave all "individually" asserted their inreduction brought about for the purpose of and have since resided here. equalization or else the through rate will higher than heretofore. This latter conwill prevail, as eastern lines have shown a

In her presence one never knew of the elimination of a number of commodity rates and the substitution of class tariffs.

Advance in Lumber Rates.

An advance in rates on yellow pine and hardwood lumber from mills in Missouri, Arkaneas, Louisiana, Texas and Indian Territory to Nebraska points will become effective December 1. The rates have not yet been checked in, but tariffs are being revised and will be issued as early as practicable. In anticipation of this matter, R. S. Davis, general freight agent of the St. Louis Southwestern Railway company, says: "It is the idea to advance rates to points in Kansas now taking 271/2 cents to 30 cents and to points now taking 30 cents it is proposed to grade up to 34 cents. There will also be some changes to points in Kansas and Nebraska now taking a 22-cent rate. The rate to Lincoln will be 24 cents.'

Hailway Notes and Personals.
J. L. Ferguson of Chicago, assistant general passenger agent of the Chicago & Northwestern, is an Omaha visitor. A. Darlow of the Union Pacific passenger department is again at his desk after several days spent in Chicago on business.

George McNutt, traveling passenger agent of the "Katy," is in the city from Kansas City, visiting many friends and looking after railroad business.

J. W. Munn, chief clerk in the Elkhorn passenger department; Wilder Harding, assistant ticket agent of the Missouri Pacific, and Dr. Bailey left yesterday for Cody, Wyo., where they will enjoy a several-days' hunt. The railroad boys are all expecting to feast bounteously when Munn and Harding return with a complement of game as the result of their trip.

Passing of the Horse.

So soon as nature sees an improvement, there is a change. The candle gave way to electricity. The spinning wheel to machin ery, the horse to the automobile. The fact that Hostetter's Stomach Bitters has been or weak stomach.

Trouble Ahead for Barbers. H. M. Casebeer, secretary of the Ne-

braska Barbers' Examining board, is in the city from Lincoln to find out why a number of Omaha barbers are not complying with the state law. These barbers have not paid the \$1 state barber fee, nor met the state requirements concerning examinations, and to find out their reasons.

A Severe Cold.

"A very simple measure in the very beginning of a cold," says the Baltimore, O., News, "is to take a hot bath until the perspiration is established, and then wrap the body in two or three warm, dry blankets in a warm room, so that there will be free perspiration for an hour. The body individual should go to bed without any exposure, and remain there from 12 to 30 hours, or until the symptoms of the cold have entirely disappeared." If you should venture out before the end of 36 hours you would be almost certain to contract a worse cold and perhaps pneumonia. Would it not be better to take a tablespoonful (four times the usual dose) of Chamberlain's Cough Remedy just before going to That would effectually break up the Then you could go about your business as usual without any fear of pneumonia as it counteracts any tendency of a cold to result in that dangerous disease.

October Tax Collections. October Tax Cohections.

The receipts of the city treasurer's office on regular tax collections for the month of October amounted to \$31,821, a considerable falling off from the collections of the same month in the two previous years. This is attributed to the fact that the office was closed on the last day of the month, upon which day the receipts are usually heavy. Because the office was closed November interest is being remitted to such taxpayers as were ready to make payment on the final day of last month. The collections for the month in the last four years have been as follows:

The falling off in the above table for the year 1838 is attributed to the practical cessation of county tax sales that year. The year before they were a very large term.
