### More Visitors Arrive,

The Rock Island's special came in about 8 o'clock in two sections, adding in the neighborhood of 1,000 more visitors to the crowd already here. A large number of these took the motors for Omaha when they heard the hotels in this city were full to overflowing Four bands came in on the train and headed the several delegations from the depot to the Grand hotel, where they each in turn stopped and played before going to their quarters. The bands in town last night were from Creston, Corning, efferson, Anita, Washington, Newton, Knoxville, Oskaloosa (2), Silver City (band and uniformed fife and drum corns). Brighton and Pella,

treatment of particular ailments. The characteristics of the chemical rays of light are now known to be their bactericidal power, their power to produce inflammation of the skin, and their power to hammation of the skin, and their power to penetrate the ekin. These rays, by such penetration of the skin, speedily kill the bacilli that cause the disease. The opera-tion, in fact, often requires only a few sec-onds, whether the concentration of the rays is made from ordinary sunlight or from the electric arc light.
