### Besides the advantages set forth above.

BOONE, Ia., Nov. 8.-(Special.)-This morning all the machinists and helpers in aluminum is not poisonous and is preeminently adapted for the manufacture of cooking utensils. A steady demand for aluminum is springing up in various kinds of printing processes, as well as in lithography. The metal appears to answer admirably for the construction of rollers used n calleo printing and when its surface is

roperly prepared, it is also capable of replacing the ordinary lithographic stone. It can easily be imagined that, instead of having cumbrous and heavy stones, which can be printed only on special slow- running "litho" machines, it is far better and heaper to use thin sheets of a metal

# Royal Reception at Villisca.

VILLISCA, Ia., Nov. 8 .- (Special Telegram.)-Villisca gave Company B a royal reception today. At two o'clock the procesion, led by the Nodaway band, started. The order was: Mayor and city officers in carriages, Ancient Order United Workmen and others mounted, Modern Woodmen, two gayly decorated wagons having about 100 from the primary schools and about 400 from the other schools, Company B guards, Ladies of the Grand Army of the Republic, ladics' band, forty-four members of Company B. As they were on the way back to the

armory they stopped opposite the place of They stopped in front of the armory long enough for O. Nickels to take a picture and then there was an informal reception in the armory for two hours. The ladies' band played at 6 p. m. Forty-four members of in the finely decorated opera house. boring and secreting" of the wife, no ac tion lay at the suit of her husband against the man, and that a wife can be in no better position to maintain an action against woman guilty of similar conduct toward her husband.

The court follows this reasoning and concludes that the substantive allegations of the plaintiff's declaration do not state a cause of action. The defendant's demurrer to the declaration is therefore sustained. The full bench of the supreme court also sustained the defendant's exceptions in the case of Ellen Neville against Olive F. Gale a case similar to that of Houghton against Rice, and for the same reason. Consequently the plaintiff loses a verdict of \$1,500 awarded to her by a Suffolk jury.

### SOME USES OF ALUMINUM.

Comparative Cheapness Makes i Available for Many Purposes. The principal uses of aluminum, says writer in Cassier's Magazine, are too many to be enumerated. The properties of the metal are so akin to those of copper and brass than, broadly speaking, aluminum or one of its light alloys should, to a large extent, replace both copper and tin and also nickel or German silver. Such a change would be followed by various advantages to all concerned. Not only would there be a considerable reduction in the weight of the articles, but they would not tarnish or turn black on exposure to air. The cost should be the same, if not actually lower. inasmuch as bulk for bulk, aluminum is already cheaper than copper or tin, and its

ncreases. One field, however, remains which copper s bound to maintain as its own, namely he construction of isolated electrical conductors. Experiments have already been
